

CHARGE UP

Round 3 Approved List of Software and Hardware (EV Chargers) – Version 1.5, May 2025

This is a consolidated list comprising:

1. Approved software list
2. Approved AC charger list
3. Approved DC charger list

Refer to the interactive data list for additional data fields on each AC and DC charger (including number of ports and procurement lead time) and to view the data using excel filters.

Disclaimer

The information contained in this list is based on information and assertions provided to the Electric Vehicle Council and Energy Policy WA by the equipment and software suppliers. The State of Western Australia is not responsible for any losses associated with the use of the information presented on this list. It is the responsibility of anyone using this list to conduct their own research and due diligence on each supplier and EV charging hardware/software prior to purchase or installation.

1. APPROVED SOFTWARE LIST

Criteria

All approved EV charger software has been assessed and approved against the following criteria:

- Remote management of EVSE (Electrical Vehicle Supply Equipment) enabled
- Available and supported within Australia
- Compatible with OCPP 1.6
- User-friendly interface
- Mapping interface to locate EV chargers
- Accessible for any member of the public to sign up
- Available on Android and iOS operating systems
- Billing services that enable differential pricing (for example, different prices at different times of day)
- Evidence, from Plugshare or similar, of the software platform enabling charging at 3-4 different locations.

How to use the software list

In order to receive a grant, you must take out a two-year subscription to one of the EV charging software platforms on the Approved Software List. Listed below are the approved software platforms and their approved software supplier. **You must get your software platform from an approved software supplier - this means that the quote provided for software in your application should be on the letterhead of an approved software supplier.** An electrical contractor can provide turnkey services but their quote to the grant applicant must be supported by a separate quote from an approved software supplier.

The list is arranged by alphabetical order, by name of the approved software supplier. The approved supplier is listed first as this is who you will need to contact to discuss supplying the software. The approved software options vary widely in look, feel and capabilities. We encourage you to speak to the software suppliers in this list to learn more.

The final column shows the brands of approved EV chargers that each software supplier can support. However, please note that software platforms do not necessarily support all approved EV chargers from a specific brand. You must ensure that the EV charger(s) you select from the approved EV charger list can be supported by your selected software. Your software supplier will be able to assist you with this.

Software suppliers may also be able to provide pricing for some of the EV chargers on the approved EV charger list. Many offer turnkey installation services (though in some instances they will coordinate the installation process via sub-contracted electricians). However, there is no requirement to purchase EV chargers and installation through them, only the software.

The pricing shown in this list has been provided by each EV charger software supplier. The Charge Up Electric Vehicle Charging Grants (Round 3) will contribute 50% towards the cost of a 2-year subscription, based on the prices shown in this list. Please note: only the 2-year upfront cost is eligible for co-funding. Any variable fees agreed to beyond this are to be met at applicant's own expense. Grants applicants should consider any terms and conditions stipulated by each software provider.

List of approved software platforms and their approved supplier

Note: many of the suppliers can provide **turnkey services**

Software Supplier	Software Platform	Software price (ex - GST) Only the 2-year upfront cost is eligible for co-funding	Variable costs (not covered by grant)	Brands of EV chargers that work with the software*
A Better Charge Pty Ltd	Wevolt	Public Charging - \$300 per annum per charger Private Charging - \$180 per annum per charger Public charging with SIM - \$420 per annum per charger Private charging with SIM - \$300 per annum per charger	N/A	ABB, Ador, AppCharge, Autel, Blueberry, Circontrol, Delta Electronics, EO, EVOS, Fronius, Garo, Hydra, JET Charge, Kempower, Kuga, Magellan Power, Murray, Ocular, Quench, Scame, Schneider Electric, Sinexcel, Smappee, Teltonika, Tritium, Wallbox, Zappi, ZJ Beny
A Better Charge Pty Ltd	Exploren	AC (Fleet Plan) - \$175 per annum per charge port AC (Public Plan) - \$280 per annum per charge port DC (Fleet or Public) - \$280 per annum per charge port	Driver Transaction fee – 2.5% applied to all driver revenue + 30c per transaction	ABB, ABL, aixACCT, Alfen, Alpitronic, ATESS, AUTEL, Bender / eBee, Besen, Beta Electric, BTC Power, ByteSnap, Charge Amps, Circontrol, CityEV, Compleo, CTEK, Delta, Dover FS, Easee, eCars, EcoTap, Eldon Installation, ElitaCharge, Elprom EMZ, EM2GO, EMES, Enelion, Enovates,

		SIM card optional - \$180 per annum - unlimited ports per site		Ensto, EO Charging, Etrell, EVBox, Garo AB, Gewiss, GoChargeV, Hager, Heliox, IES, Indra, Infy Power, Ingeteam, Injet, IO Charger, IoTecha, Joint Tech, JuiceBar, JuiceBox, Keba AG, Kempower, Legrand, Link Power, Linkcharging Technology, Lite- ON, Mario EV, MC Chargers, Nanjing PowerCore Technology, Nexans, OAKSUM, Ocular, Piwin, PNE Global, Power Electronics, Rolec, Scame, Schneider Electric, Shenzhen Hongjiali, Siemens, Sino, Smappee, Sola/Afore, StarCharge, Sungrow, Sync EV, Teison, Tritium, VCHRGD, VESTEL, Wallbox, Webasto, XCHARGE, Zaptec, Zerova / Phihong
Addelec	Chargefox	Private charger - \$165 per annum per charge port Public Charger - \$330 per annum per charge port Communications Optional - Sim & Telstra Data - \$60.00 per plug per annum	Driver Transaction fee – 5% applied to all driver revenue	ABB, Delta Electronics, Kempower, Landis+Gyr, Ocular, Schneider Electric, Sinexcel, Smappee, Tritium, Wallbox, eLumina
Addelec	ChargeHub	Semi Public - \$200 per annum per charge port Public - \$300 per annum per charge port	If SIM card is required on site for a data connection then approx. \$11 + GST per month each.	ABB, Circontrol, EV Meter, EVBox, Kempower, Schneider Electric, Siemens, Sinexcel, Smappee, Tritium
Addelec	Wevolt	Public Charging & Semi-Public charging - \$300 per annum per charger (unlimited ports) Private Charging - \$180 per annum per charger (unlimited ports)	N/A	ABB, Appcharge, Autel, Blueberry, Circontrol, Delta Electronics, EO, Evos, Fronius, Garo, Jet Charge, Kempower, Magellan, Ocular, Quench, Scame, Schneider, Sinexcel, Smappee, Teltonika, Tritium, Wallbox
Addelec	Everty	Single Port - \$380 per annum per Charger	N/A	ABB, Circontrol, Delta, EO Charging, Evnex, Evos, Fimer, Freewire, Fronius,

		Dual Port - \$600 per annum per Charger		Kempower, Ocular, Schneider Electric, Siemens, Sinexcel, Smappee, Starcharge, Teltonika, Tritium, Wallbox
Addelec	ChargeNGo	Private charging - \$225 per annum per charge port Public charging - \$275 per annum per charge port	\$0.05 per kWh for management services. 4G Data Package: \$50 per 500MB When 4G data is required	ABB, Circontrol, Delta Electronics, EVBox, Kempower, Landis+Gyr, Liteon, Ocular, Schneider Electric, Siemens, Sinexcel, Smappee, Tritium, Zappi
Autel	Autel Charge	Lite - \$152 per annum per charge port Pro - \$306 per annum per charge port	Maintenance platform – \$74 ex GST per annum per charge port. Advertising platform – \$295 ex GST per annum. Transaction fee for mobile payment 1.75% + \$0.30 of the value of each transaction.	ABB, Schneider Electric, Starcharge
CasaCharge	CasaCharge	Monitoring - \$100 per annum per charge port Billing - \$150 per annum per charge port	N/A	ABB, Alfen, Alpitronic, Autel, Circontrol, Delta Electronics, EVBox, KarChargers, Ocular, Schneider Electric, Smappee, Teltonika
Chargeboss	Noodoe EV OS	AC - \$299 per annum per charge port DC - \$349 per annum per charge port	AC - 9% gateway session fee, \$419 per port activation fee DC - 9% gateway session fee, \$999 per port activation fee	Delta, Noodoe - Jointech, Noodoe - Zerova, Tritium
Charge Hub	Charge Hub	Semi Public - \$200 per annum per charge port Public - \$300 per annum per charge port	If SIM card is required on site for a data connection then approx. \$11 + GST per month each.	ABB, EVBox, Kempower, Myenergi, Orbis and Tritium, Schneider Electric, Siemens, Smappee, Wallbox, ZJ Beny
Chargebay	Chargebay	\$200 per annum per charge port \$108 Annual Sim card	N/A	ABB, Autel, Garo, Schneider Electric, Siemens, Sinexcel, Smappee, Tritium

Chargebay	Wevolt	Private charging - \$180 per annum per charger (unlimited ports) Public charging - \$300 per annum per charger (unlimited ports)	N/A	ABB, AppCharge, Autel, Circontrol, Delta Electronics, EVOS, Fronius, Garo, Hydra, iCharging, JET Charge, Kewpower, Kuga, Magellan Power, Murray, Ocular, Scame, Schneider Electric, Sinexcel, Smappee, Teltonika, Tritium, Wallbox, Zappi, ZJ Beny
Chargefox	Chargefox	Private charger - \$165 per annum per charge port Public Charger - \$330 per annum per charge port Communications Optional - Sim & Telstra Data - \$60.00 per plug per annum	Driver Transaction fee – 5% applied to all driver revenue	ABB, Autel, Chargemate, Delta Electronics, eLumina, Ingeteam, JET Charge, Kempower, Schneider Electric, Siemens, Sinexcel, Smappee, Wallbox
ChargeNGo	ChargeNGo	Private charging - \$225 per annum per charge port Public charging - \$275 per annum per charge port	\$0.05 per kWh for management services. 4G Data Package: \$50 per 500MB When 4G data is required	ABB, Circontrol, Delta Electronics, EVBox, Kempower, Landis + Gyr, Liteon, Ocular, Schneider Electric, SEVR, Siemens, Sinexcel, Smappee, Tritium, Webasto, Zappi
ChargePost	ChargePost	Platform fee - \$145 per annum per charger	4% on credit card transactions	ChargePost, CityEV
Chargestar	Casacharge	Platform fee - \$100 per annum per charge port Platform fee with billing - \$150 per annum per charge port Platform free with SIM - \$250 per annum per charge port Platform fee with billing and SIM - \$300	No transaction fees	ABB, Alfen, Alpitronic, Autel, Circontrol, Delta Electronics, Evbox, KarChargers, Ocular, Schneider Electric, Smappee, Teltonika
Chargestar	ChargeOS	Platform fee - \$240 per annum per charge port	7% per transaction Optional: Complete Hardware & Site Management (site management, hardware maintenance,	Appcharge, Autel, Fronius, Kempower, Sinexcel, Smappee, Sungrow, Weidmuller, Zappee

			responding to hardware issues, etc.) - \$1,200 per annum per site	
Chargestar	Wevolt	Public Charging & Semi-Public charging - \$300 per annum per charger (unlimited ports) Private Charging - \$180 per annum per charger (unlimited ports) Public charging with SIM – \$450 per annum per charging station (unlimited ports) Private charging with SIM \$330 per annum per charging station (unlimited ports)	No transaction fees	ABB, Ador, AppCharge, Autel, Circontrol, Delta Electronics, EVOS, Fronius, Garo, Hydra, iCharging, JET Charge, Kewpower, Magellan Power, Murray, Ocular, Schneider Electric, Scame, Sinexcel, Smappee, Teltonika, Tritium, Wallbox, ZJ Beny, Zappi
Chargetech	Chargefox	Private charger - \$165 per annum per charge port Public Charger - \$330 per annum per charge port Communications Optional - Sim & Telstra Data - \$60.00 per plug per annum	Driver Transaction fee – 5% applied to all driver revenue	ABB, Autel, Chargetech, Delta Electronics, eLumina, Ingeteam, JET Charge, Kewpower, Schneider Electric, Siemens, Sinexcel, Smappee, Wallbox
Chargetech	Wevolt	Public Charging & Semi-Public charging - \$300 per annum per charger (unlimited ports) Private Charging - \$180 per annum per charger (unlimited ports)	No transaction or management fees.	ABB, AppCharge, Autel, Circontrol, Delta Electronics, EVOS, Fronius, Garo, Hydra, iCharging, JET Charge, Kewpower, Kuga, Magellan Power, Murray, Ocular, Scame, Schneider Electric, Sinexcel, Smappee, Teltonika, Tritium, Wallbox, Zappi, ZJ Beny
Connect Source	Wevolt	Public Charging & Semi-Public charging - \$300 per annum per charger (unlimited ports) Private Charging - \$180 per annum per charger (unlimited ports)	No transaction or management fees.	ABB, AppCharge, Autel, Circontrol, Delta Electronics, EVOS, Fronius, Garo, Hydra, iCharging, JET Charge, Kewpower, Kuga, Magellan Power, Murray, Ocular, Scame, Schneider Electric, Sinexcel, Smappee,

				Teltonika, Tritium, Wallbox, Zappi, ZJ Beny
Connect Source	Autel	Lite - \$152 per annum per charge port Pro - \$306 per annum per charge port	Maintenance platform – \$74 ex GST per annum per charge port. Advertising platform – \$295 ex GST per annum. Transaction fee for mobile payment 1.75% + \$0.30 of the value of each transaction.	Autel
Connect Source	Chargebay	\$200 per annum per charge port \$108 Annual Sim card	N/A	ABB, Circontrol, Delta Electronics, Garo, Schneider Electric, Siemens
Elanga	Elanga	AC Single - \$268 per annum per charger AC Double - \$201 per annum per charge port DC Single - \$395 per annum per charger DC Double - \$346 per annum per charge port	Transaction Cost: \$1.00; Service Fee: 10% of the transaction value.	ABB, ADS Tec, Alfen, Alpitronic, Circontrol, Delta Electronics, EVBox, Keba, Kempower, Tritium, Vestel, WallBox
Enevi	Enevi	AC 1: for AC user management & analytics - \$140 per annum per charger AC 2: for AC user management & analytics + billing - \$220 per annum per charger DC - \$480 per annum per charger Data Sim card if required \$180 per annum.	N/A	ABB, Delta, Schneider Electric, Siemens, Smappee, Teltonika, Tritium, Wallbox

EV Charging Systems	Charge Hub	Semi Public - \$200 per annum per charge port Public - \$300 per annum per charge port	If SIM card is required on site for a data connection, then approx. \$11 + GST per month each.	EVBox, Kempower, Schneider Electric, Tritium
EV Charging Systems	Wevolt	Public Charging & Semi-Public charging - \$300 per annum per charger (unlimited ports) Private Charging - \$180 per annum per charger (unlimited ports)	No transaction or management fees.	ABB, AppCharge, Autel, Circontrol, Delta Electronics, EVOS, Fronius, Garo, Hydra, iCharging, JET Charge, Kewpower, Kuga, Magellan Power, Murray, Ocular, Scame, Schneider Electric, Sinexcel, Smappee, Teltonika, Tritium, Wallbox, Zappi, ZJ Beny
EV Charging Systems	Chargefox	Private charger - \$165 per annum per charge port Public Charger - \$330 per annum per charge port Communications Optional - Sim & Telstra Data - \$60.00 per plug per annum	Driver Transaction fee – 5% applied to all driver revenue	EVBox, Kempower, Schneider Electric, Tritium
EVCi	Chargefox	Private charger - \$165 per annum per charge port Public Charger - \$330 per annum per charge port Communications Optional - Sim & Telstra Data - \$60.00 per plug per annum	Driver Transaction fee – 5% applied to all driver revenue	ABB, Delta Electronics, JET Charge, Ocular, Schneider Electric, Siemens, Smappee, Wallbox
EVCi	EVUp	Single charge port per year - \$195 per annum per charge port Up to five charge ports per year - \$495 per annum per site	N/A	ABB, Circontrol, EVUp, Garo, Myenergi, Schneider Electric, Wallbox
EVCi	ChargeOS	\$240 per annum per charge port	7% transaction fee	AppCharge, Autel, Fronius, Kempower, Weidmuller, Zappee
EVCi	ChargeNGo	\$275 per annum per charge port	Monitoring & billing \$0.05 per kWh	ABB, Circontrol, Delta Electronics, EVBox, Myenergi, Ocular, Schneider Electric, Siemens

EVCI	WeVolt	Public Charging & Semi-Public charging - \$300 per annum per charger (unlimited ports) Private Charging - \$180 per annum per charger (unlimited ports)	No transaction or management fees	ABB, AppCharge, Autel, Circontrol, Delta Electronics, EVOS, Fronius, Garo, Hydra, iCharging, JET Charge, Kewpower, Kuga, Magellan Power, Murray, Ocular, Scame, Schneider Electric, Sinexcel, Smappee, Teltonika, Tritium, Wallbox, Zappi, ZJ Beny
Exploren	Exploren	AC (Fleet Plan) - \$175 per annum per charge port AC (Public Plan) - \$280 per annum per charge port DC (Fleet or Public) - \$280 per annum per charge port SIM card optional - \$180 per annum - unlimited ports per site,	Driver Transaction fee – 2.5% applied to all driver revenue + 30c per transaction	ABB, Delta, Kempower, Ocular, Schneider, Sinexcel, Tritium
EVSE	Exploren	AC (Fleet Plan) - \$175 per annum per charge port AC (Public Plan) - \$280 per annum per charge port DC (Fleet or Public) - \$280 per annum per charge point SIM card if required \$180 annually	Driver Transaction fee – 2.5% applied to all driver revenue + 30c per transaction	ABB, Alfen, Autel, Chargemate, Circontrol, Delta Electronics, Ocular, EO Charging, Etrel, EVBox, Kempower, MG Motor, Schneider Electric, Siemens, Starcharge, Wallbox
EVUp	EVUp	\$495 per site per annum	N/A	ABB, Chargeamps, Circontrol, EVUp, Garo, Myenergi, Schneider Electric, Smappee, Zappi
I-Charge Solutions Australia Pty Ltd	i-Charge	Standard Package - \$120 per annum per charge port Advanced Modules - \$100 per annum per charge port per module	1. Telecommunication cost for network connection (wireless or wired) payable to Telecom operator. 2. Per transaction fee of \$0.30 + 6% to	ABB, Alfen, Autel, EVBox, Ocular, Pilot, Schneider Electric, Siemens, Starcharge, TopDon, Wallbox

			Payment Gateway operator.	
JET Charge	Chargefox	Private charger - \$165 per annum per charge port Public Charger - \$330 per annum per charge port Communications Optional - Sim & Telstra Data - \$60.00 per plug per annum	Driver Transaction fee – 5% applied to all driver revenue	Autel, ChargeMate, Kempower, Schneider Electric, X280
JET Charge	Wevolt	Public Charging & Semi-Public charging - \$300 per annum per charger (unlimited ports) Private Charging - \$180 per annum per charger (unlimited ports)	No transaction or management fees.	ABB, Schneider, Magellan Power, Ocular, JET Charge, Autel, AppCharge, Teltonika, Delta, Circontrol, Wallbox, Smappee, Fronius, Garo, Scame, Hydra, Sinexcel, Tritium, Kewpower, Murray, Zappi, ZJ Beny, iCharging, Kuga, EVOS
JFK Group WA	Wevolt	Public Charging & Semi-Public charging - \$300 per annum per charger (unlimited ports) Private Charging - \$180 per annum per charger (unlimited ports)	No transaction or management fees.	ABB, AppCharge, Autel, Circontrol, Delta Electronics, EVOS, Fronius, Garo, Hydra, iCharging, JET Charge, Kewpower, Kuga, Magellan Power, Murray, Ocular, Scame, Schneider Electric, Sinexcel, Smappee, Teltonika, Tritium, Wallbox, Zappi, ZJ Beny
KarChargers	CasaCharge	Free charging - \$100 per annum per charge port Public charging - \$150 per annum per charge port	N/A	ABB, Alfen, Alpitronic, Autel, Circontrol, Delta Electronics, EVBox, KarChargers, Ocular, Schneider Electric, Smappee, Teltonika
Magellan Power	Wevolt	Public Charging & Semi-Public charging - \$300 per annum per charger (unlimited ports) Private Charging - \$180 per annum per charger (unlimited ports)	No transaction or management fees.	ABB, AppCharge, Autel, Circontrol, Delta Electronics, EVOS, Fronius, Garo, Hydra, iCharging, JET Charge, Kewpower, Kuga, Magellan Power, Murray, Ocular, Scame, Schneider Electric, Sinexcel, Smappee, Teltonika, Tritium, Wallbox, Zappi, ZJ Beny
Murray Engineering	Wevolt	Public Charging - \$300 per annum per charger (unlimited ports) Private Charging - \$180	N/A	ABB, AppCharge, Autel, Circontrol, Delta Electronics, EVOS., Fronius, Garo, Hydra, iCharging, JET Charge, Kewpower, Kuga, Magellan Power, Murray,

		per annum per charger (unlimited ports)		Ocular, Scame, Schneider Electric, Sinexcel, Smappee, Teltonika, Tritium, Wallbox, Zappi, ZJ Beny
Noodoe Pty Ltd	Noodoe EV OS	AC - \$299 per annum per charge port DC - \$349 per annum per charge port	AC - Session processing fee 9%, \$419 per port activation fee DC - Session processing fee 9%, \$999 per port activation fee	ABB, Delta, Electronics, EN+, EVBox, Lite-on, Siemens, Tritium, Noodoe
Smart EV Solutions	Smart Charge	Private - \$60 per annum per charger Public Silver - \$280 per annum per charger Public Gold - \$395 per annum per charger	N/A	ABB, Autel, Blueberry, Circontrol, EVBox, Kempower, Ocular, Schneider Electric, SEVR, Siemens, Smappee, Tribus, Tritium
Sonic Charge	ChargeOS	Platform fee - \$240 per annum per charge port	7% per transaction Optional: Complete Hardware & Site Management (site management, hardware maintenance, responding to hardware issues, etc.) - \$1,200 per annum per site	Appcharge, Autel, Fronius, Kempower, Sinexcel, Smappee, Sungrow, Weidmuller, Zappee
T-Power	T-Power	AC - \$180 per annum per charger DC (<= 60kW) - \$260 per annum per charger DC (>= 80kW) - \$360 per annum per charger	N/A	ABB, Beny, Delta Electronics, Schneider Electric, Sinexcel, T-Power, Wallbox
Virta	Virta	AC - \$950 per annum per charger DC - \$1900 per annum per charger	Transaction fee – public 10%, private 5% API fee	Alfen, Alpitronic, Delta Electronics, Kempower, Vestel
Wevolt	Wevolt	Public Charging - \$300 per annum per charger (unlimited ports) Private Charging - \$180 per annum per charger (unlimited ports)	No transaction or management fees.	ABB, AppCharge, Autel, Circontrol, Delta Electronics, EVOS, Fronius, Garo, Hydra, iCharging, JET Charge, Kewpower, Kuga, Magellan Power, Murray, Ocular, Scame, Schneider Electric,

				Sinexcel, Smappee, Teltonika, Tritium, Wallbox, Zappi, ZJ Beny
--	--	--	--	--

* This is a point-in-time guide only, and applicants should always check with their software supplier that their chosen software works with their chosen hardware:

- i) Software platforms do not necessarily support all of the approved models from that brand.
- ii) The brands of approved hardware that work with the approved software will evolve over time. This means some hardware brands *not* listed against a software platform, may in fact work with one of the approved software platforms. However, you should get confirmation from the software supplier that this works.

2. APPROVED AC CHARGER LIST

Criteria

All approved AC chargers have been assessed and approved against the following criteria:

- Available within Australia, with a procurement lead time of no more than 3 months
- Compliant to relevant Australian standards
- RCM marked, in accordance with AS/NZS4417
- Able to support charging of any EV make/model available in Australia (Note, it is acceptable for the EVSE to have automotive OEM branding, provided the charger can support all vehicles)
- Type 2 socket outlet or Type 2 tethered cable
- 7kW to 22kW AC output
- OCPP 1.6 and/or OCPP 2.0 communications capability, over at least one of Ethernet, Wi-Fi or 4G
- Ingress protection rating of IP54 or higher
- Impact protection rating of IK08 or higher

EV charger and software compatibility

In order to receive a grant you must take out a two year subscription to one of the EV charging software platforms on the Approved Software List. Please ensure that you check with your software provider that your preferred make and model of EV charger is compatible with the software you have selected. Obtaining written confirmation from your software supplier is recommended.

List of approved AC chargers

Charger Brand	Charger Model Number	Charger description	Power Output (kW)	Mounting Type
ABB	6AGC081278	Terra AC Wallbox	7	Wall

3. APPROVED DC CHARGER LIST

Criteria

All approved DC chargers have been assessed and approved against the following criteria:

- Available within Australia, with a procurement lead time of no more than 9 months
- Compliant to relevant Australian standards
- RCM marked, in accordance with AS/NZS4417
- Able to support any EV make/model Available in Australia that has a CCS2 DC port
- Minimum of 1 x CCS2 cable outlet. CHAdeMO is permitted, but not required. Multiple cable outlets are permitted but not required
- DC output of 24-350kW
- OCPP 1.6 and/or OCPP 2.0 communications capability, over at least one of Ethernet, Wi-Fi or 4G
- Ingress protection rating of IP54 or higher
- Impact protection rating of IK10 or higher
- Service level agreement (SLA) or equivalent instrument offered on all quotations. The SLA shall define, but not limited to, committed timeframes to supply replacement parts in case of breakdown, and commercial consequences for failure to supply

EV charger and software compatibility

In order to receive a grant you must take out a two year subscription to one of the EV charging software platforms on the Approved Software List. Please ensure that you check with your software provider that your preferred make and model of EV charger is compatible with the software you have selected. Obtaining written confirmation from your software supplier is recommended.

List of approved DC chargers

Charger Brand	Charger Model Number	Charger Description	Power Output (kW)	Mounting Type

Wanbang Digital Energy Co., Ltd	DH-DC1800SG56-D	Titan 180kW	180	Pedestal
Zerova	DMYE301J00D2PH- RW	30kW Wallmount Charger, CCS2 and CHAdeMO cables, single output, 4.5m cables	30	Wall/Pedestal

Zerova	DSYE601E0ED2PH-RW	60kW Freestanding Charger, dual CCS2, 4.5m cables	60	Pedestal
Zerova	DSYE122E0EDBPH-RW	120kW DC charger with dual 4m 300A CCS2 cables, upgradable to 180kW	120	Pedestal
Zhuhai Sino Energy Technology Co. Ltd	PEVC3401E	30kW Fast DC Charger	30	Wall/Pedestal
Zhuhai Sino Energy Technology Co. Ltd	PEVC3106E	60kW Fast DC Charger	60	Pedestal
Zhuhai Sino Energy Technology Co. Ltd	PEVC3107E	160kW Fast DC Charger	160	Pedestal
Zhuhai Sino Energy Technology Co. Ltd	PEVC3108E	240kW Fast DC Charger	240	Pedestal
Zhuhai Sino Energy Technology Co. Ltd	PEVC3302E	250kW Fast DC Charger	250	Pedestal
Zhuhai Sino Energy Technology Co. Ltd	PEVC3302U	250kW Fast DC Charger	250	Pedestal
ZhuHai Sino Energy Technology Co.,Ltd.	PEVC3108E-60k 1000D2/CCS2+CCS2	DC EV charger	60	Pedestal
ZhuHai Sino Energy Technology Co.,Ltd.	PEVC3108E-120k 1000D2/CCS2+CCS2	DC EV charger	120	Pedestal
ZhuHai Sino Energy Technology Co.,Ltd.	PEVC3108E-180k 1000D2/CCS2+CCS2	DC EV charger	180	Pedestal
ZhuHai Sino Energy Technology Co.,Ltd.	PEVC3108E-240k 1000D2/CCS2+CCS	DC EV charger	240	Pedestal
