

CURRENT RESPONSE:

Level 2 under WA's State Hazard Plan

Bird flu tests undertaken:

This week: **42**

Since 19 June: **152**

Positive bird flu cases:

This week: **3**

Since 19 June: **10**

- At this stage, all detections in Western Australia have been in **migratory seabirds**.
- DPIRD and DBCA are working with partners to carry out **enhanced surveillance operations** across the State, including in our **national parks and coastal islands**.
- **Information sessions** have been held for wildlife carers, veterinarians, communities and industry.
- **Divisional Commands** have been established in **Perth, Esperance, Albany, Bunbury and Geraldton** to support on the ground operations.
- **Personal Protective Equipment and training** have been made available to those undertaking a role in the response.
- The poultry industry has implemented **enhanced precautionary biosecurity measures**, including **voluntary housing of free-range poultry**.
- WA Health continues to monitor the situation, with **risk to humans low**.
- Properly prepared chicken meat and eggs are **safe to eat**.

WHAT YOU CAN DO
