Introduction

This Bill recognises the Noongar people as the traditional owners of the Noongar lands and forms part of the settlement of the native title claims made by the Noongar people in the South West of the State.

Six indigenous land use agreements have been entered into with Noongar people. Each agreement relates to a different area of land in the south west and is made with a differently described group of Noongar people, representing all the persons who hold or may hold native title in those areas. The six indigenous land use agreements contain similar settlement terms, which provide for a single comprehensive package of benefits to be provided to the Noongar people in return for the surrender of any native title rights and interests in an area of land referred to as the Noongar lands and the validation of acts that may have been done invalidly in those lands.

The passage and commencement of the Bill is a precondition to the commencement of the settlement under the six indigenous land use agreements.
