# Statement of Compliance

## For the year ended 30 June 2014

To the Honourable D C Nalder MLA, Minister for Transport; Finance.

In accordance with section 63 of the *Financial Management Act 2006*, I hereby submit for your information and presentation to Parliament, the Annual Report of the State Supply Commission for the financial year ended 30 June 2014.

The report has been prepared in accordance with the provisions of the *Financial Management Act 2006*.

Anne Nolan  
ACTING CHIEF EXECUTIVE OFFICER  
STATE SUPPLY COMMISSION

September 2014

# Overview

## Summary

The *State Supply Commission Act 1991* (the Act) established the State Supply Commission (the Commission) in order to regulate government procurement of goods and services, primarily through the creation of supply policy.

To recognise the maturing capabilities of the public sector in procurement and the need for greater responsibility in the current environment, the State Supply Commission supply policies underwent a major review during the year and were approved for amendment by the Board effective from 1 July 2014.

The policies were reviewed with a focus on identifying areas for streamlining and improving the efficiency of procurement activities whilst maintaining sound risk management practices. The last significant review of the policies was undertaken in 2007. The review considered suggestions and comments from Western Australian public authorities, examined relevant agency goods and services expenditure and considered the policies and practices of other Australian jurisdictions.

The main changes approved by the Board include: increasing the monetary thresholds set out under the Open and Effective Competition policy; providing Accountable Authorities with greater flexibility to waive the stated competitive requirements where justifiable business reasons exist; and providing a partially exempt public authority with the capacity to undertake procurement processes up to \$250,000 without the need to engage Government Procurement.

The review found that in general the current policies provide a practical framework to ensure activities in procurement are fair, ethical and transparent and that they serve to assist Western Australian public authorities to achieve value for money. It is anticipated that the changes will result in improved efficiency for public authorities.

Dear Mr Nalder

### **DISPENSING WITH TWO AUDITS FOR YEAR-ENDING 30 JUNE 2014**

- **STATE SUPPLY COMMISSION**
- **WESTERN AUSTRALIAN BUILDING MANAGEMENT AUTHORITY**

Pursuant to section 14(2) of the *Auditor General Act 2006*, I am dispensing with the 2013-14 audits of the State Supply Commission and the Western Australian Building Management Authority, primarily because in my view it would not be in the public interest for your department or my office to incur the cost of these audits.

The audits were also dispensed with for the 2009-10, 2010-11 and 2012-13 financial years and the required audits were conducted for 2011-12.

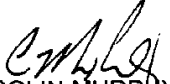

The Commission continues to have minimal activity and the Authority has ceased to operate. Both agencies are awaiting repeal of their legislation. Once abolished a final audit of their records will be undertaken for the period from 1 July 2012 to their date of abolition.

In accordance with Section 14(3) of the *Auditor General Act 2006* I have consulted with the Treasurer on this matter.

Please note, however, that if an audit is not performed, the agencies are still required under the *Financial Management Act 2006* to prepare and table an annual report.

If you foresee any adverse consequences of dispensing with this audit for 2013-14 or should you wish to discuss any aspect of this matter, please contact me on 6557 7501 or Assistant Auditor General Don Cunninghame on 6557 7526.

Yours sincerely

  
COLIN MURPHY  
AUDITOR GENERAL

## Notes to the Financial Statements

For the year ended 30 June 2014

### **Note 1. Australian Accounting Standards**

#### **General**

The Commission's financial statements for the year ended 30 June 2014 have been prepared in accordance with Australian Accounting Standards. The term 'Australian Accounting Standards' includes Standards and Interpretations issued by the Australian Accounting Standards Board (AASB).

The Commission has adopted any applicable new and revised Australian Accounting Standards from their operative dates.

#### **Early adoption of standards**

The Commission cannot early adopt an Australian Accounting Standard unless specifically permitted by Treasurer's Instruction (TI) 1101 *Application of Australian Accounting Standards and Other Pronouncements*. There has been no early adoption of Australian Accounting Standards that have been issued or amended (but not operative) by the Commission for the annual reporting period ended 30 June 2014.

### **Note 2. Summary of significant accounting policies**

#### **(a) General statement**

The Commission is a not-for-profit reporting entity that prepares general purpose financial statements in accordance with Australian Accounting Standards, the Framework, Statements of Accounting Concepts and other authoritative pronouncements of the AASB as applied by the Treasurer's Instructions. Several of these are modified by the Treasurer's Instructions to vary application, disclosure, format and wording.

The *Financial Management Act* and the Treasurer's Instructions impose legislative provisions that govern the preparation of financial statements and take precedence over Australian Accounting Standards, the Framework, Statements of Accounting Concepts and other authoritative pronouncements of the AASB.

Where modification is required and has had a material or significant financial effect upon the reported results, details of that modification and the resulting financial effect are disclosed in the notes to the financial statements.

#### **(b) Basis of preparation**

The financial statements have been prepared on the accrual basis of accounting using the historical cost convention, except for land, buildings and infrastructure which have been measured at fair value.

The accounting policies adopted in the preparation of the financial statements have been consistently applied throughout all periods presented unless otherwise stated.

#### **(c) Reporting entity**

The reporting entity comprises solely of the State Supply Commission.

#### **(d) Contributed equity**

AASB Interpretation 1038 *Contributions by Owners Made to Wholly-Owned Public Sector Entities* requires transfers in the nature of equity contributions, other than as a result of a restructure of administrative arrangements, to be designated by the Government (the owner) as contributions by owners (at the time of, or prior to transfer) before such transfers can be recognised as equity contributions. Capital appropriations have been designated as contributions by owners by TI 955 *Contributions by Owners made to Wholly Owned Public Sector Entities* and have been credited directly to Contributed equity.

The transfers of net assets to/from other agencies, other than as a result of a restructure of administrative arrangements, are designated as contributions by owners where the transfers are non-discretionary and non-reciprocal.

#### **(e) Income**

##### Revenue recognition

Revenue is recognised and measured at the fair value of consideration received or receivable.

#### **(f) Financial instruments**

The Commission's financial instruments consist of cash at bank and an amount receivable for services – holding account.

#### **(g) Cash and cash equivalents**

For the purpose of the Statement of Cash Flows, cash and cash equivalent (and restricted cash and cash equivalent) assets comprise cash on hand. This amount is at call and is subject to insignificant risk of changes in value.

#### **(h) Amounts receivable for services (holding account)**

The Commission previously accrued funding on an accrual basis that recognised the full annual cash and non-cash cost of services. The appropriations were paid partly in cash and partly as an asset (holding account receivable). The accrued amount receivable was to be accessible on the emergence of the cash funding requirement to cover leave entitlements and asset replacement.

At year end, the Commission has paid all its leave obligations and disposed of all its property, plant and equipment. The Commission does not intend employing staff or replacing assets. Accordingly, the Commission will not require the balance of funds in this account. See note 6.

#### **(i) Comparative figures**

Comparative figures are, where appropriate, reclassified to be comparable with the figures presented in the current financial year.

#### **Note 3. Disclosure of changes in accounting policy and estimates**

The Commission has not applied any Australian Accounting Standards effective for annual reporting periods beginning on or after 1 July 2013 as there have been no additional standards or interpretations that have affected the Commission.

### **Future impact of Australian Accounting Standards not yet operative**

The Commission cannot early adopt an Australian Accounting Standard unless specifically permitted by TI 1101 *Application of Australian Accounting Standards and Other Pronouncements*. Consequently, the Commission has not applied early any Australian Accounting Standards that have been issued that may impact the Commission.
