

Frederick Leonard Rudkin

The Battye Library already has two copies of my book which is titled "Only the Luckiest Survived".

It is an account of my war experiences including nearly 4 years as a P.O.W.

In the book are several poems written by various P.O.W.'s in their darkest hour and a list of all personnel who died whilst in camp.

I was made to work in the Mitsubishi shipyard in Yokohama and was supposedly paid 2 cents a day for which I was never paid anyway.

Later on I was sent to Sendi to work in copper mines.

This is just a small summary of the contents of the book.
