

Retail Trade, January 2017

Key Facts

Western Australia

- Seasonally adjusted retail trade in Western Australia increased by 0.3% to \$2,852 million between December and January.
- The monthly increase was mainly driven by a rise in 'food retailing' and 'cafes, restaurants and takeaway food services' which contributed 0.4 and 0.3 percentage points to growth respectively. This was partially offset by a fall in 'household goods retailing' which detracted 0.2 percentage points from growth.
- Retail trade rose by 0.7% in annual average terms and by 0.3% over the three months to January 2017.
- The main contributor to annual average growth in retail trade was 'other' spending while 'non-discretionary'¹ spending contributed to a lesser degree.
- Trend retail trade in Western Australia grew by 0.1% between December and January, and rose by 0.7% over the year.

Australia

- Australia's seasonally adjusted retail trade grew by 0.4% to \$25,726 million between December and January.
- Retail trade grew by 3.4% in annual average terms and increased by 0.7% in the three months ending in January.
- The largest annual average increase in retail trade by State was 6.1% in the Australian Capital Territory. The smallest increase was 0.3% in the Northern Territory.
- Australia's trend retail trade rose by 0.2% between December and January, and grew by 3.4% in annual average terms.
