# Introduction

*Overview of State Taxes and Royalties, Western Australia* is prepared annually, both as an internal reference document for Treasury officers and as a ready reckoner for other agencies and individuals seeking information on State taxes and mineral and petroleum royalties.

The main body of the document provides the following information on major taxation and royalty categories:

- current rates;
- key exemptions and concessions;
- interstate comparisons;
- historical information on changes to rates and bases; and
- revenue collections.

The **Summary Tables** indicate the contribution of each tax to total tax revenue and each royalty to total royalty collections.

**Appendix 1** provides a summary of changes introduced by the States and Territories in the 2017-18 round of State Budgets and any major changes announced after these Budgets (but before 31 January 2018).

**Appendix 2** provides a summary of State taxes abolished in Western Australia under the GST agreement with the Commonwealth Government.

**Appendix 3** provides a comparison of the tax and royalty mix in Western Australia in 2006-07 and 2016-17.

More detail for each State tax should be sourced from relevant Acts of Parliament or regulations, or by contacting the relevant State Revenue Office.

While all care has been exercised in the preparation of this document, the Department of Treasury cannot guarantee that it is free of errors.

## Payroll Tax

Payroll tax was originally introduced by the Commonwealth Government on 2 May 1941. In 1971, responsibility for this tax was passed to the States, at which time the payroll tax rate was 2.5% and the exemption threshold \$20,800.

An employer (or a group of employers) is currently liable for payroll tax on wages paid or payable in Western Australia when its total Australia-wide wages exceed \$850,000 per year (\$70,833 per month).

A diminishing exemption threshold applies for employers with taxable wages between \$850,000 and \$7,500,000. As taxable wages increase from \$850,000, the exemption threshold is reduced until there is no exemption threshold by \$7,500,000. Employers with annual Australia-wide taxable wages of \$7,500,000 or more are liable for payroll tax on their entire taxable wages.

Payroll tax is generally paid monthly<sup>1</sup> by employers on the basis of total wages (including employer funded superannuation benefits, fringe benefits, and eligible termination payments) paid to employees in the preceding month. It is collected under the *Pay-roll Tax Assessment Act 2002* and *Pay-roll Tax Act 2002*, which are administered by the Commissioner of State Revenue.

---

<sup>1</sup> Employers with an annual tax liability below \$20,000 can elect to pay their payroll tax on an annual basis. Additionally, employers with an annual tax liability between \$20,000 and \$100,000 can elect to pay their payroll tax on a quarterly basis. Eligible employers must make an application to the Commissioner of State Revenue to change the lodgement frequency for their returns from a monthly to an annual or quarterly basis.

## Rate of Tax<sup>2</sup>

Annual Payroll \$	Annual Tax Payable
0 – 850,000	Nil
850,000 – 7,500,000	5.5% x [WA Wages – Adjusted Threshold] <sup>3</sup>
7,500,000 and above	5.5% x WA Wages

## Exemptions and Concessions

Payroll tax exemptions are available primarily to charitable institutions, religious institutions, government departments, public hospitals and schools.

The wages of all apprentices and those of new employee trainees earning no more than \$100,000 who are undertaking training under an approved training contract are exempt<sup>4</sup>. Wages paid to eligible new employees who are persons with disabilities or new Indigenous employees (for certain employers) are also exempt for the first two years of employment.

Parental leave, volunteer emergency services work and certain prescribed fringe benefits paid by employers to employees in remote areas are also exempt.

(a) The rate of payroll tax for regional employers is 3.65%. The payroll tax exemption threshold is expected to increase to \$650,000 from 1 July 2018.

(b) A small business payroll tax concessional rate of 2.5% applies for Australia-wide payrolls between \$600,000 and \$1 million and increases incrementally to 4.95% for businesses with Australia-wide payrolls above \$1.5 million.

<sup>2</sup> In the 2017-18 State Budget, the Western Australian Government announced a temporary progressive payroll tax scale on large employers for a 5 year period from 1 July 2018 to 30 June 2023. Refer to Appendix 1 *Summary of Tax and Royalty Changes in 2017-18 in all States and Territories* for further information.

<sup>3</sup> In its simplest form (for a local, non-group employer), the Adjusted Threshold is calculated as:  $850,000 - ((\text{WA Wages} - 850,000) \times 0.1278)$ . The taper rate of 0.1278 is calculated as:  $850,000 / (7,500,000 - 850,000)$ .

<sup>4</sup> Refer to Appendix 1 *Summary of Tax and Royalty Changes in 2017-18 in all States and Territories* for further information.

(a) Prior to 1986 the top threshold reflects the annual wages at which the payroll tax deduction phases out. From 1 January 1986 until 1 July 2003 multiple legislated thresholds (and rates) applied.

(b) From 1 January 1977 to 1 January 1984, the payroll tax deduction phased out by a specified amount for every dollar that wages were over the exemption threshold.

(c) A diminishing exemption threshold was introduced from 1 July 2015 on payrolls between \$800,000 and \$7,500,000. The exemption threshold does not apply to payrolls from \$7,500,000 and above, such that the 5.50% rate is applied to every dollar of WA wages.

## Changes to Exemptions and Concessions

An exemption for the wages of first year apprentices was introduced from 1 January 1984 and extended to the wages of all apprentices from 1 January 1994.

Budget-funded government departments were exempted from 1 June 1986.

Certain prescribed fringe benefits paid by employers to employees in remote areas were exempted from payroll tax from 1 July 1996. These benefits include housing, annual leave, travel assistance, power and water subsidies and child education bursaries.

The payroll tax base was expanded to a wide range of employee benefits from 1 July 1997, including superannuation benefits and non-cash fringe benefits as defined and valued by the *Fringe Benefits Tax Act 1986* (Cth). Excluded from the base expansion were the major remote area fringe benefits.

Travel and accommodation allowances up to prescribed levels were excluded from the payroll tax base from 1 July 1997.

The payroll tax base was extended to the grossed up value of taxable fringe benefits from 1 January 2002 and to eligible termination payments from 1 July 2003.

Following the passage of legislation in June 2010, seven areas of payroll tax were brought in line with the other jurisdictions, with retrospective effect from 1 July 2009 as part of a harmonisation program. These areas are: timing of lodgements; accommodation allowance exemptions; vehicle allowance exemptions; fringe benefits; employee share benefit schemes; services performed outside a jurisdiction; and superannuation contributions. Grouping provisions were harmonised with other jurisdictions from 1 July 2012 (previously scheduled for 1 July 2009).

From 1 July 2009, exemptions for parental leave (including maternity, adoption and paternal leave) and volunteer emergency service work were implemented as part of the 'stage 2' payroll tax harmonisation measures.

In 2010-11, employers with payrolls of up to \$1.6 million in 2009-10 were paid a one-off rebate to fully offset their 2009-10 tax liabilities. The maximum amount of the rebate (on a payroll of \$1.6 million) was \$46,750. The rebate phased down for employers with payrolls between \$1.6 million and \$3.2 million.

From 1 July 2012, an exemption was introduced for wages paid to new employees with a disability in their first two years of employment, where these employees are eligible for a Commonwealth Disability Employment Services wage subsidy or are eligible for any form of disability support from Western Australia's Department of Communities.

From 1 July 2012, employers with an Australia-wide group annual payroll of \$15 million or less are eligible for a 100% payroll tax rebate on wages paid to new Indigenous employees in their first two years of employment if they are also in receipt of a Commonwealth Indigenous Wage Subsidy.

Employers with Australia-wide group payrolls of up to \$1.5 million in 2012-13 received a one-off rebate in 2013-14 to fully offset their 2012-13 payroll tax liabilities. The maximum rebate payable was \$41,250. The rebate phased down for employers with payrolls between \$1.5 million and \$3 million.

From 10 March 2015, the scope of the exemption for charitable institutions was narrowed to exclude certain 'fourth limb' charities that promote trade, industry or commerce. Political parties, industrial associations and professional associations were also excluded.

From 1 December 2017, the payroll tax exemption for apprentices and trainees was tightened for trainees, such that it is only available for traineeships undertaken by new employees earning no more than \$100,000 per annum at the date of lodgement of their training contract with the Department of Training and Workforce Development.

## Transfer Duty

Duty on the transfer of property was originally introduced on 1 October 1841 at a rate of one pound for every hundred pounds.

Transfer Duty (which replaced stamp duty on conveyances under the previous *Stamp Act 1921*) is paid by the purchaser of dutiable property (primarily land, buildings, mining tenements and business assets) on the basis of the dutiable value of property transferred. It is collected under the *Duties Act 2008*, which is administered by the Commissioner of State Revenue.

## Exemptions and Concessions

Designated government authorities, charities, certain first home buyers and the transfer of a principal place of residence between spouses from single to joint ownership (including de-facto spouses) are exempt.

Exemptions are also available for the transfer of family farms from one family member to another as well as certain transactions involving related business entities.

Nominal duty of \$20 is payable on specified dutiable transactions including the transfer of dutiable property as a result of a marriage or de-facto relationship breakdown, or under a will or intestacy and for transfers involving superannuation funds.

Concessional scales apply to transfers of residential properties (including, but not limited to, principal places of residence) and to the purchase of a small business or principal place of residence below \$200,000.

## Interstate Comparison

The tables below provide interstate comparisons of transfer duty based on the general scales (non-principal place of residence). Transfer duty does not apply to non-real property transactions in New South Wales, Victoria, South Australia, Tasmania and the Australian Capital Territory.

(a) From 7 December 2015, South Australia reduced its transfer duty rates by one third on non-residential land and non-primary production land and by a further third from 1 July 2017.

(b) A concessional rate applies to the purchase of a small business below \$200,000.

(c) Duty of \$50 applies for values below \$3,000.

(d) A minimum of \$20 or \$0.70 per \$100 or part thereof applies, whichever is greater.

(e) For conveyances valued at \$525,000 or less, duty is derived by the formula  $D = (0.06571441 \times V^2) + 15V$ , where D = duty payable in \$ and V = value of property transferred divided by 1,000. For conveyances valued between \$525,000 and \$3 million, duty is 4.95% of the total property value. For values between \$3 million and \$5 million, duty is 5.75% of the total property value and for values of \$5 million or more duty is 5.95% of the total property value.

(f) For properties valued between \$130,000 and \$960,000 the marginal transfer duty rate is 6%. For properties valued at \$960,001 or more a flat 5.5% rate applies to the total property value.

(g) For properties valued at \$1.5 million and over, a flat 5.00% rate applies to the total property value.

## Transfer Duty Concessions for Home Buyers

**WA** A concessional transfer duty scale applies to all residential land and buildings.

First home buyers are exempt from duty on new and established homes valued up to \$430,000 (phasing out at \$530,000) and vacant land valued up to \$300,000 (phasing out at \$400,000).

A concessional rate applies to principal places of residence and certain small businesses valued at less than \$200,000.

A duty exemption applies to gifts of property (including homes) to a Special Disability Trust.

**NSW** First home buyers are exempt from duty on new and established homes valued up to \$650,000 (phasing out at \$800,000) and vacant land valued up to \$350,000 (phasing out at \$450,000). First home buyers who buy at least 50% of a property with other parties may still qualify for a partial concession.

A duty exemption applies to gifts of property (including homes) to a Special Disability Trust.

A 12 month off-the-plan transfer duty liability deferral is available on 'off-the-plan' purchases where the property is to be occupied as their principal place of residence.

**VIC** A principal place of residence concession applies to new and established homes valued between \$130,000 and \$550,000.

First home buyers are exempt from duty on purchases of new and established homes valued up to \$600,000 (phasing out at \$750,000).

A duty exemption applies to pensioners and holders of a Commonwealth seniors health card purchasing a new or established home valued up to \$330,000 (phasing out at \$750,000).

A duty exemption applies to gifts of property (including homes) up to \$500,000 to a Special Disability Trust, where the gift is made by a family member of the principal beneficiary of the trust.

A duty concession applies to off-the-plan housing sales of principal places of residence. This concession operates by applying duty to the contract price after allowing a deduction for the cost of construction after the contract date.

---

**QLD** First home buyers receive a transfer duty concession of up to \$8,750 on new and established homes valued below \$505,000 (phasing out at \$550,000), and an exemption for vacant land valued up to \$250,000 (phasing out at \$400,000).

A concessional rate scale applies to principal places of residence.

A duty exemption applies to the transfer of property to the trustee of a Special Disability Trust where the property is the principal place of residence of the beneficiary of the trust.

---

**SA** A partial transfer duty concession applies to off-the-plan apartments for qualifying contracts entered into between 1 July 2014 to 30 June 2018. The value of this concession is determined by the progress of construction or refurbishment at the time of purchase. The concession is not limited to home buyers.

A duty exemption applies to gifts of property to a Special Disability Trust where the property is the principal place of residence for the beneficiary of the trust.

---

**TAS** A duty exemption applies to the transfer of property to the trustee of a Special Disability Trust where the property is the principal place of residence of the beneficiary of the trust.

---

**ACT** Subject to a gross household income not exceeding \$160,000 (plus \$3,330 for each dependent child to a maximum of \$176,650), home buyers purchasing a new home valued up to \$470,000 or residential vacant land valued up to \$281,200 are exempt from duty. A concessional rate of duty is payable on a new home valued between \$470,000 and \$607,000 or a vacant block of land valued between \$281,200 and \$329,500. The concession applies to transactions entered into between 18 September 2017 and 30 June 2020. In most cases, purchasers must not have owned another property in the preceding two years.

Eligible pensioners are exempt from duty on new and established homes worth up to \$680,500 and vacant land worth up to \$361,700. A concessional rate applies to homes worth between \$680,500 and \$895,000 or residential vacant land worth between \$361,700 and \$434,500. The concession applies to transactions entered into between 18 September 2017 and 30 June 2018.

ACT residents who have a long-term and permanent disability and qualify for funding under the National Disability Insurance Scheme are exempt from transfer duty on new and established homes valued up to \$750,000.

A duty exemption applies for transfers of residential leases to a Special Disability Trust where the property is used as the principal place of residence of the beneficiary of the trust.

---

**NT** First home buyers are exempt from duty on purchases of established homes valued up to \$500,000, with a \$23,929 duty reduction available for homes valued up to \$650,000 (i.e. the amount of duty is reduced by \$23,929).

Non-first home buyers who are at least 60 years of age or the holder of a Northern Territory Pensioner and Carer Concession Card receive a duty reduction of up to \$10,000 for new and established homes and land valued up to \$750,000 and \$385,000 respectively.

A reduction in duty of up to \$7,000 is available to buyers purchasing a newly built principal place of residence or vacant land on which a new home will be built. This concession is not available to first home buyers or buyers eligible for the Senior, Pensioner and Carer Concession.

A duty exemption applies to gifts of property (including homes) to a Special Disability Trust.

---

## Home Buyer Grants

---

**WA** A \$10,000 grant is available to first home buyers who purchase or build a new home. The grant applies to homes up to the value of \$750,000 (or up to \$1 million if the home is located north of the 26th parallel). A temporary First Home Owner Grant boost payment of \$5,000 applied from 1 January 2017 to 30 June 2017.

The Home Buyers Assistance Account (funded from interest earnings on real estate agents' trust accounts) provides a grant of up to \$2,000 for the incidental expenses of first home buyers who purchase an established or partially built home valued up to \$400,000 through a licensed real estate agent.

---

**NSW** A \$10,000 First Home Owner Grant is available for eligible first home buyers who purchase a new home up to the value of \$600,000 or build a new home up to \$750,000.

---

**VIC** A \$10,000 First Home Owners Grant is available to eligible first home buyers who are purchasing or building a new home up to the value of \$750,000. First home buyers purchasing in regional Victoria receive \$20,000.

(a) This refers to the general duty scale. A concessional scale applies to residential properties where the rates of duty are the same but the corresponding thresholds are higher (i.e. \$120,000, \$150,000, \$360,000 and \$725,000).

## Changes to Exemptions and Concessions

The exemption for the transfer of the matrimonial home to joint tenants was introduced in January 1988 and extended to couples living in opposite-sex de facto relationships in December 1991. On 1 July 2003, the exemption was extended to same-sex de facto relationships.

A \$500 stamp duty rebate for first home owners was introduced in March 1989. The value limits were increased from \$80,000 to \$85,000 and, for properties north of the 26<sup>th</sup> parallel, from \$120,000 to \$127,500 on 1 November 1989.

From 1 July 1998, the value limits were further increased from \$85,000 to \$135,000 and, for properties north of the 26<sup>th</sup> parallel, from \$127,500 to \$202,500. From 1 January 2004, the value limits were again increased from \$135,000 to \$185,000 and from \$202,500 to \$277,500 (for properties north of the 26<sup>th</sup> parallel).

On 1 July 2004, the \$500 stamp duty rebate for first home owners was replaced with a stamp duty exemption for purchases of homes below \$220,000, phasing out at \$300,000. For vacant land, the exemption applied to purchases below \$100,000, phasing out at \$150,000. This exemption threshold was extended on 29 October 2004 to \$250,000 for first home purchases (phasing out at \$350,000), and to \$150,000 for vacant land (phasing out at \$200,000). This was further extended from 10 May 2007 to \$500,000 for first home purchases (phasing out at \$600,000), and \$300,000 for vacant land (phasing out at \$400,000). From 3 July 2014, the exemption threshold for first home purchases was reduced to \$430,000 (phasing out at \$530,000), with no changes to the threshold for vacant land.

The first home buyer stamp duty concession was extended to any subsequent purchases of an interest by an eligible first home buyer who enters into a shared equity arrangement with the Department of Housing and Works from 1 July 2004. Property transfers from a bankrupt entity to a creditor were also exempted from stamp duty.

The value limit for the 1.5% concessional duty rate for the transfer of owner-occupied residences and small businesses was increased from \$50,000 to \$85,000 on 1 November 1989. This was further increased to \$100,000 on 1 July 1998. A gradual phase out of the concessional duty rate for properties valued between \$100,000 and \$135,000 was also introduced at that time. On 1 July 2004, the phase-out value was extended to \$200,000.

A stamp duty exemption for corporate reconstructions was introduced on 1 October 1996. From 1 January 2004, the scope of the corporate reconstruction provisions were broadened to include the transfer of motor vehicle licences and direct property transfers between certain subsidiaries of holding companies. From 1 July 2008, the corporate reconstruction exemption (which previously only applied to corporations) was broadened to include a unit trust scheme. The three-year pre-association test and the five-year post-association tests for corporate reconstructions were also removed, coinciding with the implementation of the landholder duty regime.

The stamp duty exemption for chattels (except trading stock, livestock and chattels used in farming) conveyed with real property was removed from 1 July 1998.

From 1 July 2008, a new concessional duty scale was introduced for transfers of residential properties. Under this concessional scale, the benefits available to taxpayers from the principal place of residence concessional rate phase out when a property is valued over \$116,000.

The scope of the exemption for charitable institutions was narrowed from 10 March 2015 to exclude certain 'fourth limb' charities that promote trade, industry or commerce. Political parties, industrial associations and professional associations were also excluded.

## Landholder Duty

Landholder duty was introduced from 1 July 2008, replacing 'land-rich' company and private unit trust duty provisions. It applies to certain acquisitions of land made through the purchase of interests in corporations and unit trust schemes.

Duty applies when a person acquires an interest of 50% or more in an unlisted corporation or unit trust scheme, or 90% or more in a listed corporation or unit trust scheme, and that corporation or unit trust scheme has an entitlement to Western Australian land valued at \$2 million or more (i.e. the corporation or unit trust scheme is a landholder).

Landholder duty is collected under the *Duties Act 2008*, which is administered by the Commissioner of State Revenue.

### Rate of Tax

Landholder duty is calculated at the general rate of transfer duty.

Duty is first determined based on the value of the interest of the acquirer in the landholder after an acquisition. It is calculated on the value of Western Australian land and chattels to which the landholder is entitled. This amount is then reduced by the duty calculated on the value of any 'excluded interest' of the acquirer.

Excluded interests include an interest held immediately prior to 1 July 2008, any previous interest acquired for which duty was chargeable (in the case of a further interest being acquired), and any interest acquired prior to the corporation or unit trust scheme having an entitlement to land in Western Australia.

### Exemptions and Concessions

An exemption applies for acquisitions that would be eligible for a transfer duty exemption or nominal transfer duty if the acquisition had instead been a direct transfer of land.

An acquisition which occurs as a result of making a court approved compromise or arrangement with creditors under the *Corporations Act 2001* (Cth) is exempt from duty.

Where a family member acquires an interest in a corporation which uses land in the business of primary production, the acquisition is exempt from duty.

Further information on other jurisdictions' specific landholder duty exemptions and concessions is provided below:

---

**NSW** Exemptions apply in relation to deceased estates, marriage or domestic relationship breakdowns, bankruptcy and land used for primary production transferred between family members. An interest acquired by a receiver or trustee in bankruptcy or a liquidator is exempt from duty.

An interest acquired solely from a compromise or arrangement with creditors under the *Corporations Act 2001* (Cth) or a pro rata increase or decrease in the interests of all unit holders/shareholders is exempt from landholder duty. Acquisitions that would have been liable for nominal duty if they had been direct transfers of land are also exempt.

An exemption is also applied to 'top hatting' arrangements where an acquisition is made for the purpose of giving effect to a scheme that would qualify for capital gains tax roll over relief under the *Income Tax Assessment Act 1997* (Cth).

Concessions are available for acquisitions effected for the purpose of securing financial accommodation as well as redemption and re-issue arrangements.

---

**VIC** An interest acquired solely from a compromise or arrangement with creditors under the *Corporations Act 2001* (Cth) or a pro rata increase or decrease in the interests of all unit holders/shareholders is exempt from landholder duty. Acquisitions that would have been liable for nominal duty if they had been direct transfers of land are also exempt.

An interest acquired by a receiver or trustee in bankruptcy, a liquidator or an executor or administrator of an estate of a deceased person is exempt.

Concessions are available for acquisitions effected for the purpose of securing financial accommodation as well as redemption arrangements.

---

**QLD** Exemptions apply in relation to particular share or unit issues, deceased estates, change of trustee, acquisitions by liquidators, marketable securities or a restructure of stapled entities.

An interest acquired solely from a compromise or arrangement with creditors under the *Corporations Act 2001* (Cth) is also exempt.

---

**SA** An interest in a landholding entity is exempt if an interest in the underlying land assets would not attract ad valorem duty.

Interest acquired solely from a compromise or arrangement with creditors under the *Corporations Act 2001* (Cth) is exempt.

A concession is available for statutory funds of life insurance companies.

---

**TAS** An interest acquired in a landholding entity is exempt from duty (or concessional duty applies) if an interest acquired in the underlying land assets would not attract ad valorem duty. This includes exemptions for the transfer of an interest in a landholder in relation to the breakdown of domestic relationships/marriages, the transfer of property to the trustee of a special disability trust and family pastoral land acquired by a family member.

\$50 duty applies to certain transfers involving deceased estates and transfers of property from one superannuation fund to another.

Property transferred between a member of a group of corporations to a member of the same group (corporate reconstruction or corporation consolidation) is exempt from duty.

---

**ACT** Charitable organisations, hospitals and schools are eligible for concessional duty of \$20. The concessional rate also applies to deceased estates and acquisitions resulting from bankruptcy and the winding-up of a company.

Duty of \$20 is payable if the land that is the subject of the interest concerned could have been acquired by an individual in a manner that results in a liability to pay \$20 duty under certain other provisions of the *Duties Act 1999* (ACT).

Property transferred between a member of a group of corporations to a member of the same group is exempt from duty.

An exemption is also applied to 'top hatting' arrangements where an acquisition is made for the purpose of giving effect to a scheme that would qualify for capital gains tax roll-over relief under the *Income Tax Assessment Act 1997* (Cth).

---

**NT** An exemption applies in relation to deceased estates, bankruptcy and family pastoral land acquired by a family member.

An exemption is also applied to 'top hatting' arrangements where an acquisition is made for the purpose of giving effect to a scheme that would qualify for capital gains tax roll-over relief under the *Income Tax Assessment Act 1997* (Cth).

## Land Tax

Land tax in Western Australia was originally introduced in 1907-08 and is levied upon the aggregated unimproved value of taxable land owned at midnight on the 30 June immediately preceding the (financial) year of assessment.

Land tax is payable annually by the land owner and is collected under the *Land Tax Assessment Act 2002* and *Land Tax Act 2002*, which are administered by the Commissioner of State Revenue. The unimproved value of land is updated annually by the Valuer General.

Over \$11,000,000	\$186,550 and 2.67 cents per \$1 above \$11,000,000

### Exemptions and Concessions

The major general exemptions are for principal places of residence (including for two homes if owned in transitional circumstances) and land used in primary production (mining as well as agriculture).

Exemptions are also available for caravan parks and for land owned by religious bodies, charitable or not-for-profit organisations, retirement villages, public hospitals, universities and other educational institutions, provided that the land is used for their own purposes (as opposed to being leased out to business tenants).

Concessions are available for property developers and for primary production businesses that do not meet the income test for a full exemption.

A 50% cap on annual growth in land values applies for land tax purposes.

(b) New South Wales also imposes a 2% surcharge on foreign persons who are not Australian citizens.

(c) Victoria levies a 1.5% absentee owner surcharge on land owners who do not ordinarily reside in Australia.

(d) From 1 July 2017, the fixed fee payable was indexed to \$1,145, payable for all land tax payers. Land tax liability is assessed quarterly for all properties based on the average unimproved value over the last three years. The ACT does not levy land tax on commercial properties.

(e) Land tax thresholds in New South Wales are determined using the past three-year average of 'indexed' land values.

(f) Thresholds are indexed annually based on average change in site values.

New South Wales, Victoria and Queensland also apply different tax scales to commercial properties or properties owned by non-concessional companies and special trusts. Western Australia, South Australia and Tasmania apply the general scales to all types of property and ownership. The Australian Capital Territory and Northern Territory do not apply land tax to commercial properties.

## Changes to the Rate Scale

In 1986-87 the maximum marginal rate was reduced from 2.4% to 2%. The number of tiers was also reduced and the value ranges applying to each tier were expanded. In 1993-94, the land tax scale was restructured to accommodate the introduction of annual valuations. The land tax rates were further reduced to lessen the impact of valuation increases on land tax assessments in 1995-96, 1996-97, 1997-98, 1998-99 and 1999-2000.

In 2002-03, the land tax exemption threshold was increased from \$10,000 to \$50,000. At the same time, the top tax rates were increased from 2% to 2.3% for land with an unimproved value between \$2 million and \$5 million, and to 2.5% for land with an unimproved value exceeding \$5 million.

In 2003-04, the number of tiers in the land tax scale was reduced from ten to six, without changing the minimum and maximum thresholds (\$50,000 and \$5 million respectively). The minimum and maximum tax rates were also unchanged.

In 2004-05, the exemption threshold was increased from \$50,000 to \$100,000, the second threshold increased from \$190,000 to \$220,000, and the third threshold increased from \$550,000 to \$570,000.

From 2005-06, land tax was levied on the portion of the aggregate taxable value of land above the exemption threshold, rather than on the total value once the exemption threshold is reached. In addition, the exemption threshold was increased from \$100,000 to \$130,000, the second threshold increased from \$220,000 to \$290,000 and the third threshold increased from \$570,000 to \$750,000. The marginal rate for the third threshold was reduced from 1.76% to 1.62%.

From 2006-07, the exemption threshold was increased from \$130,000 to \$150,000, the second threshold increased from \$290,000 to \$390,000 and the third threshold increased from \$750,000 to \$875,000.

From 2007-08, the exemption threshold was increased to \$250,000, with the other thresholds increased to \$875,000, \$2 million, \$5 million and \$10 million. The corresponding marginal tax rates were set at 0.15%, 0.75%, 1.30%, 1.55% and 2.30% respectively.

From 2008-09, the exemption threshold was increased to \$300,000, with the other thresholds increased to \$1 million, \$2.2 million, \$5.5 million and \$11 million. The corresponding marginal tax rates were reduced to 0.09%, 0.47%, 1.22%, 1.46% and 2.16% respectively.

From 2013-14, all marginal tax rates were increased by around 12.5% to 0.10%, 0.53%, 1.37%, 1.64% and 2.43% for the existing thresholds of \$300,000, \$1 million, \$2.2 million, \$5.5 million and \$11 million respectively.

In 2014-15, all marginal tax rates were increased by 10% to 0.11%, 0.58%, 1.51%, 1.80% and 2.67%. The thresholds again remained unchanged.

In 2015-16, the land tax scale was revised to apply a flat dollar amount of \$300 on taxable land with an unimproved value of up to \$420,000 and increase rates for all thresholds except the top threshold. Marginal tax rates increased to 0.25%, 0.9%, 1.8%, 2.0% and 2.67% (the latter rate was unchanged), while the \$2.2 million and \$5.5 million thresholds were reduced to \$1.8 million and \$5 million respectively.

## **Changes to Exemptions and Concessions**

In 1985-86 and 1986-87, as an interim measure, a 10% land tax rebate was offered to all of Western Australia's land tax payers, pending a major review.

In 1988-89, the phase-in period for general revaluations for land tax purposes was extended from three years to four years, a move designed especially to assist owners of Perth Central Business District (CBD) properties whose land was subject to revaluations in that year.

In 1991-92, new valuations for land tax purposes were not applied to provide relief to owners of property otherwise subject to both the first year's phase-in of a new valuation and the fourth year's phase in of the previous valuation (again, owners of Perth CBD properties were the principal beneficiaries).

In 1992-93, land tax assessments were frozen at 1991-92 levels, except where reductions were applicable (or where there had been variations to land holdings). Reductions were applicable primarily in the Perth CBD, where in some cases the new 1992-93 valuations were significantly less than the fully phased-in 1988-89 valuations on which the 1991-92 land tax assessments were based.

In 1993-94, a land tax exemption for beneficiary-occupiers of residences owned by discretionary trusts was re-introduced (reversing the removal of this exemption in 1989-90).

In 1994-95, a land tax exemption was extended to all land owned by retirement villages. Also, the 50% land tax concession available for land used solely for non-profit activities by a society, club or association was increased to a 100% exemption.

In 1995-96, the primary production exemption was extended to land used by the owner for the purpose of breeding horses. Also, a 50% concession was provided to certain primary producers who do not meet a 'one third of net income from primary production' test. From 2014-15 the 50% concession was removed as part of amendments to take account of modern business practices and ownership structures.

In 1996-97, a concession was introduced for land developers by applying the land tax scale to the 'en globo' (un-subdivided) value of property. The land developers' concession was removed from the 2003-04 land tax year and reintroduced in 2009-10.

The 50% concession for land owned by a religious or educational body and used for commercial or business purposes was reduced to 40% in 1998-99 and 20% in 1999-2000. The concession was completely phased out from 2000-01 onwards.

The land tax exemption for principal places of residence held by a company or trust was removed from 2002-03.

From 2004-05, land held under an approved conservation covenant is exempt from land tax.

In 2005-06 caravan parks were granted a 50% land tax concession, which was extended to a full exemption from 2010-11 onwards.

From 2006-07, the exemption period for persons constructing new residences was extended from 12 months to two years. In addition, parents, grandparents or siblings providing independent accommodation for disabled children were exempted from land tax.

From 2007-08, a land tax exemption applies to private aged care providers.

From 2009-10, a 50% cap was placed on the annual growth in unimproved land values for land tax purposes. The cap applies to each individual lot of land that is owned by a land tax payer.

From 10 March 2015, the scope of the exemption for charitable institutions was narrowed to exclude certain 'fourth limb' charities that promote trade, industry or commerce. Political parties, industrial associations and professional associations were also excluded.

## Metropolitan Region Improvement Tax

The Metropolitan Region Improvement Tax (MRIT) was introduced in 1959-60 and is levied upon the aggregated unimproved value of all land which is both liable for land tax and located within the boundaries of the metropolitan region.

MRIT collections are hypothecated to a trust fund for expenditure by the Western Australian Planning Commission on road reserves, parks and recreation areas. MRIT is collected under the *Metropolitan Region Improvement Tax Act 1959*, which is administered by the Commissioner of State Revenue.

### Rate of Tax

0.14% of the unimproved land value in excess of the \$300,000 exemption threshold.

### Exemptions and Concessions

As for land tax.

### Interstate Comparison

Victoria levies an annual Parks Charge on all metropolitan properties. Collections are hypothecated to a trust fund for expenditure on parks, gardens, waterways and zoos.

For residential properties, the levy is based on the Net Annual Value which is currently legislated to be 5% of the full value (both house and land) of the property. For commercial properties, the Net Annual Value is 5% of the full value of the property or the council-determined equivalent rent, whichever is greater.

The rate of tax charged is 0.453% of the Net Annual Value, with a minimum charge of \$75.85 for 2017-18. The charge increases periodically in accordance with the Consumer Price Index.

No metropolitan improvement tax is levied in the other States and Territories.

### Changes to the Rate Scale

The original MRIT rate in 1959-60 was one half penny for every pound (0.21%) of the total unimproved value.

In 1962-63, the rate of MRIT was reduced to three-eighths of one penny for every pound (0.156%) of the total unimproved value.

In 1967-68, the rate of MRIT was increased to 0.25% of the total unimproved value.

In 1987-88 the rate of MRIT was reduced from 0.25% to 0.225% of unimproved value.

In 1993-94 the rate was further reduced to 0.15%, to accommodate the introduction of annual valuations for land tax.

In 2007-08, the exemption threshold was increased from \$150,000 to \$250,000. The rate of MRIT was changed from 0.15% of the total unimproved land value to 0.18% of the unimproved land value above \$250,000.

In 2008-09, the exemption threshold was increased from \$250,000 to \$300,000 and the rate reduced to 0.14%.

## Insurance Duty

Insurance duty was introduced on 1 October 1881 (originally only on insurance for marine vessels and damage to property caused by fire).

Insurers are generally liable for the payment of insurance duty based on the insurance premium. It is collected under the *Duties Act 2008*, which is administered by the Commissioner of State Revenue.

### Rate of Tax

Type of Insurance	Rate of Duty
General and Compulsory Third Party insurance	10% of premium

### Exemptions and Concessions

Insurance of risks associated with the transport of goods and commercial marine hulls is exempt from duty. Health insurance, workers' compensation insurance, life insurance and re-insurance are also exempt, as is insurance under the Defence Service Homes Insurance Scheme. Offshore risk insurance is also exempt.

(d) General insurance products attached to life insurance policies.

## Changes to the Rate Scale

Duty on life insurance was introduced on 1 November 1983 and was abolished from 1 July 2004.

The duty rate on general insurance policies was increased from 5% to 8% from 1 July 1998, and was further increased to 10% from 1 July 2003.

The concessional rate for workers' compensation insurance was increased from 3% to 5% from 1 July 1998.

From 30 June 2001, the concessional rate for workers' compensation insurance was reduced from 5% to 3% for small employers who fell below the payroll tax exemption threshold. The 5% rate remained unchanged for other employers, until duty on workers' compensation insurances was abolished from 1 July 2004.

The nominal amount of duty (25 cents per policy) for motor vehicle compulsory third party insurance policies was replaced by an ad valorem rate of 8% of the premium from 1 July 2002. The ad valorem rate was increased to 10% from 1 July 2003.

## Changes to Exemptions and Concessions

The exemption for insurance on transport of goods and on commercial marine hulls came into effect on 11 December 1986.

As part of the reform of State business taxes, duty on workers' compensation insurance and life insurance policies was abolished from 1 July 2004.

## Vehicle Licence Duty

Vehicle licence duty (i.e. duty on the grant or transfer of a motor vehicle licence) is paid by the person acquiring the licence and is based on the market value of the motor vehicle (except for new light vehicles, where the manufacturer's 'list price' is used).

The duty was originally introduced on 1 January 1920 and is collected by the Department of Transport on behalf of the Office of State Revenue. It is currently collected under the *Duties Act 2008* and the *Road Traffic Act 1974*, which are administered by the Commissioner of State Revenue and the Director General of the Department of Transport respectively.

### Rate of Tax

(a) The rate slides proportionately from 2.75% at \$25,000 to 6.50% at \$50,000 as follows:  
Duty =  $V \times [2.75\% + ((V - 25,000) / 25,000) \times (6.50\% - 2.75\%)]$  where V is the vehicle value.

---

## Exemptions and Concessions

Transfers of vehicles to dealers solely for re-sale or demonstration are exempt from duty, as are purchases of all vehicles exempt from annual vehicle licence fees under the *Road Traffic Act 1974* (includes certain off-road vehicles used in farming, government vehicles, vehicles purchased by certain charities, vehicles purchased by those receiving the maximum rate of Carer's Payment or Disability Support Pension, holders of a Totally and Permanently Incapacitated Card issued by the Commonwealth Department of Veterans' Affairs, or a Pension Card (Blind) issued by the Commonwealth).

Caravans and camper trailers are also exempt, as well as vehicles which (in certain circumstances) have been previously registered in the applicant's name in another jurisdiction, including certain other countries.

An exemption may also apply when specialised equipment (e.g. crane, excavator, cement agitator) is transferred from one vehicle to another. The exemption applies only once on the specialised equipment.

## Changes to the Rate Scale

From 1 November 1983, the rate of stamp duty on motor vehicle licence transfers was increased from \$1.50 to \$3.00 per \$100 of the vehicle value. A maximum duty ceiling was also removed at that time.

From 1 July 1999, the rate of duty was changed from the single flat rate of 3% to a multi-tiered scale with rates ranging from 2.5% to 5%.

From 1 July 2002, the rate scale was separated into a 3% flat rate for new heavy vehicles, the above multi-tiered scale for used heavy vehicles and a higher-rate multi-tiered scale (2.75% to 6.5%) for light vehicles.

From 1 July 2007, the flat 3% duty rate for new heavy vehicles was extended to used heavy vehicles. For light vehicles, the thresholds of the duty scale were increased by \$5,000 to \$20,000 and \$45,000.

From 1 January 2009, the thresholds of the light vehicle duty scale were further increased by \$5,000 to \$25,000 and \$50,000.

## Changes to Exemptions and Concessions

On 1 July 2007, a duty exemption for caravans and camper trailers permanently fitted for human habitation was introduced.

From 1 July 2011, transfers of private vehicle licences between de facto partners of at least two years or between spouses are exempt from vehicle licence duty.

## Motor Vehicle Licence and Recording Fees

Motor vehicle licence registration fees are paid by motor vehicle owners (who use their vehicles on public roads) either every six months or 12 months.

The registration fees consist of a motor vehicle licence fee, compulsory third party insurance premium, plate fee<sup>1</sup> and recording fee. These registration fees are collected by the Department of Transport under the *Road Traffic Act 1974*.

### Current Licence Fees

For light vehicles (gross weight of 4.5 tonnes or less), the licence fee component of the registration fee is currently \$21.68 per 100 kg of tare (unladen) weight (or part thereof) to a maximum of \$472.

From 2017-18, the licence fee payable on a 2017 4-cylinder Toyota Camry Atara SL Auto (on the basis of 1,460 kg tare weight) is \$331.80. This includes the prescribed flat fee of \$6.60 for all registrations and renewals. Registrations can be for six or 12 months, with the flat fee payable each time.

For heavy vehicles (gross weight of more than 4.5 tonnes), Western Australia adopted the national uniform licence fee regime from 1 July 1996. The licence fee component of the registration fees for these vehicles is determined by the number of axles, the gross weight of the vehicle and its nomination for use in towing trailers.

The revenue from motor vehicle licence fees is hypothecated to the Main Roads Trust Fund, which is used for road expenditure purposes.

### Motor Vehicle Recording Fees

The recording fee is collected to recover the costs incurred by the Department of Transport for the printing and posting of the renewal notice, the processing of the payment, the printing and postage of a receipt and for maintaining the computer database.

The recording fee is \$12.10 per renewal.

---

<sup>1</sup> Plate fees only apply to new registrations.

## Licence Fee Exemptions and Concessions

A total exemption applies to emergency vehicles and vehicles used by government agencies, disability pensioners and ministers of religion. Vintage/veteran vehicles are also exempt.

Charitable institutions receive either a 50% concession or 100% exemption depending on the use of the vehicle. Interchangeable semi-trailers have a 75% concession. Vehicles used by primary producers<sup>2</sup>, beekeepers, kangaroo shooters, stock transporters, sandalwood pullers and prospectors receive a 50% concession. Driving instructors (heavy vehicles only) and trailers used outside the South West Land Division also receive a 50% concession.

Agricultural machines used exclusively to travel between farms or for fire control operations may be eligible for a reduced licence charge of \$4.

Holders of a Commonwealth Pensioner Concession Card, Veteran's Affairs Pensioner Concession Card, and seniors who hold **both** a State Seniors Card and Commonwealth Seniors Health Card receive a 50% concession.

---

<sup>2</sup> Only applies to seed vehicles, trailers, semi-trailers, and other vehicles used for hauling purposes.

## Interstate Comparison

In New South Wales, Victoria, Western Australia and the Australian Capital Territory, licence fees are based on the weight of the vehicle. In Queensland, South Australia, Tasmania and the Northern Territory licence fees are based mainly on the number of cylinders and engine capacity.

In addition to licence and recording fees, all jurisdictions require licensed vehicles to be issued with compulsory third party (CTP) insurance against claims resulting from personal damages. The premium payable for these insurance schemes varies widely as a result of the differences between ‘at-fault’ and ‘no-fault’ coverage, the different insurance market structures (with monopoly CTP insurers within some jurisdictions and competitive CTP markets in others) and insurance duty regimes (see the *Financial Transactions Taxes* chapter).

Using the same example of a 2017 4-cylinder Toyota Camry Atara SL Auto 2494cc (on the basis of 1,460 kg tare weight), interstate comparisons of the various components of motor vehicle registration fees are as follows:

## Changes to Licence Fees

On 1 July 1997, licence fee rates in Western Australia were increased by approximately 20%.

On 1 July 1998, licence fees were further increased, and the calculation of the fees was simplified and charged on the basis of weight only (\$12 per 100 kg tare weight) as opposed to engine power output.

Since 1 July 1999, licence fees have been indexed to the movement in the Perth consumer price index.

## Changes to Exemptions and Concessions

Since 1 January 1987, aged pensioners who hold Pensioner Health Benefits Cards (now Pensioner Concession Cards) have received a 50% concession on licence fees.

From 1 January 1990, a \$20 concession was introduced for private vehicles. In addition, private vehicles did not attract the 7% increase in licence fees, which applied to other vehicles from that date.

From 1 July 1998, the private vehicle discount was fixed at \$28 and a 25% concession for diesel powered vehicles was removed. A 25% concession for intrastate heavy vehicles was phased out in two stages by 1 July 1999.

From 1 July 2001, eligibility for a 50% concession on licence fees was extended to seniors who hold both a State Seniors Card and a Commonwealth Seniors Health Card.

From 1 July 2005, the private vehicle discount was increased from \$28 to \$53 and indexed to the movement in the Perth consumer price index, in line with the licence fees. This saw increases to \$55 in 2006-07, \$58 in 2007-08, \$60 in 2008-09, \$63 in 2009-10, \$65 in 2010-11, \$67 in 2011-12, \$69 in 2012-13 and \$72 in the first half of 2013-14.

From 1 January 2014 the discount for private vehicles was reduced from \$72 to \$36 and was abolished from 1 July 2014.

## Lotteries Commission

The Lotteries Commission of Western Australia was established in 1932 to offer State authorised lottery products which would raise money for hospitals and charitable organisations. The first lottery draw was held on 21 March 1933.

Now trading as Lotterywest, the Lotteries Commission raises money through sales of Lotto, Soccer Pools, Cash 3, Set for Life and instant lotteries for distribution to the State Pool Account (established under the *National Health Funding Pool Act 2012*), the Arts Lotteries Account, the Sports Lotteries Account, cultural activities such as the Festival of Perth and the commercial film industry in Western Australia. The Lotteries Commission also funds a significant direct grants program for community and 'not for profit' organisations and events.

The Lotteries Commission operates under the *Lotteries Commission Act 1990*.

## Interstate Comparison

An interstate comparison of taxation and hypothecation of Lotteries Commission revenue is as follows:

---

<b>WA</b>	12.5% of net subscriptions (sales net of any add-on commission less prize liability) plus any surplus funds is paid to such eligible organisations as the Commission thinks fit and the Minister approves; 40% of net subscriptions is paid to the State Pool Account; 5% of net subscriptions is paid into the Sports Lotteries Account; 5% of net subscriptions is paid into the Arts Lotteries Account; and up to 5% of net subscriptions is used to support the Festival of Perth and the WA film industry.
<b>NSW</b>	76.918% of player loss (player subscriptions net of prize liability) less GST is paid to consolidated revenue.
<b>VIC</b>	79.4% (where GST is payable) or 90% (where GST is not payable) of player loss is paid into the Consolidated Fund (CF). Revenue is then transferred by standing appropriation from the CF to the Hospitals and Charities Fund and Mental Health Fund. 57.52% (where GST is payable) or 68% (where GST is not payable) of player loss for Soccer Pools.

---

<b>QLD</b>	73.48% of gross revenue (i.e. player loss) for lotteries, 55% for instant scratch-its, 45% for Golden Casket lotteries and 67.6% for Soccer Pools. GST credit is provided.
<b>SA</b>	Sports and special lotteries: 41% of net gambling revenue (i.e. player loss). All lotteries except sports and special lotteries (including Lotto, Powerball, Super 66 and instant scratchies): 41% of net gambling revenue hypothecated to the Hospitals Fund.
<b>TAS</b>	Tasmania does not host any State Lotteries. However, Tasmania receives 100% of the duty paid to the Victorian and Queensland Governments for Tasmanian subscriptions to Tattersalls lotteries, Soccer Pools and Golden Casket Lottery products.
<b>ACT</b>	Lotteries in the ACT are provided in cooperation with Victoria and NSW. The ACT receives 79.4% of the proportion of player loss on lotteries from Victoria (and 57.52% on Soccer Pools), and 76.918% of the proportion of player loss less GST for all games from NSW.
<b>NT</b>	Fees and taxes are set by way of agreement under the <i>Gaming Control Act</i> between a lottery licence holder and the Northern Territory. Agreements are commercial-in-confidence. All funds received are paid into the Central Holding Authority.

## Changes in Lotteries Commission's Products

A State Lotto was introduced in February 1979.

The Commission became a member of the Australian Lotto Bloc in 1981 and has marketed Weekend Saturday Lotto since then. Instant lotteries were introduced in 1982. Midweek Lotto was introduced in 1983 and Super 66 in 1986. Soccer Pools were taken over by the Lotteries Commission in October 1989.

Oz Lotto was introduced in 1994, and Powerball was launched in 1996 to replace Midweek Lotto. Cash 3 was launched in 1998 as the first on-line game unique to Western Australia. Two more lotto games (Monday and Wednesday Lotto) were added in 2006 when Western Australia (along with South Australia) was invited to join the then New South Wales games. A new lottery product, Set for Life, was introduced in August 2015 with draws every night of the week.

## GST Re-imbursements

As part of the intergovernmental agreement on the GST, the States agreed to adjust their gambling tax arrangements from 1 July 2000 to 'make room' for the GST. The mechanisms for achieving this vary across jurisdictions, but generally involve:

- reducing State gambling tax rates;
- allowing a credit against State gambling taxes payable; or
- providing a rebate/re-imbursement to gambling operators of their GST liability.

The GST re-imbursement to the Lotteries Commission was about \$32.7 million in 2016-17.

## Casino Tax

Casino tax is payable each month by the casino licence holder based on its gross gaming revenue (total bets placed less winnings paid out) in the preceding month.

Casino tax was introduced in Western Australia on 30 December 1985 at a rate of 15% of gross revenue, upon the opening of Burswood Casino. It is collected by the Department of Local Government, Sport and Cultural Industries under the *Casino (Burswood Island) Agreement Act 1985* and the *Casino Control Act 1984*.

### Rate of Tax

(a) Under the Casino (Burswood Island) Agreement, a minimum of \$45.25 million in international commission business tax is to be paid for the period 1 July 2014 to 30 June 2019.

---

An additional levy (of 1% on all table games and international commission business and 2% on electronic gaming machine revenue) is paid to the Burswood Park Board for upkeep of the Park and Swan/Canning River.

An annual licence fee (\$2.88 million expected in 2018) is also payable in advance in four quarterly instalments to the Gaming and Wagering Commission of Western Australia to defray its running costs. The annual licence fee is adjusted for inflation each year on 24 December.

## Changes to the Rate Scale

Prior to 24 December 2002, casino tax was 15% of casino gross revenue for all gaming.

From 24 December 2002, the single casino tax was replaced with a three tier scale with different rates applying to international gaming, domestic table gaming and gaming machines.

From 1 July 2011, the effective tax rate on the casino's electronic gaming machines increased from 20% to 20.125%, as part of the State Government's July 2010 approval of the expansion of the casino complex.

From 1 July 2011, a tax rate of 22% was introduced for fully automated table games (also as part of the approval of the casino expansion).

From 1 July 2012, the effective tax rate on the casino's electronic gaming machines increased from 20.125% to 20.25%, as part of the 2010 casino expansion approval. The rate was scheduled to increase further over the next three years to 20.625% in 2015-16. However, a revised schedule of rate increases was agreed as part of another proposal to expand the casino, which was approved in 2012.

From 24 December 2012, the effective tax rate on the casino's electronic gaming machines increased from 20.25% to 20.614%, as part of the 2012 expansion approval. The rate increased again to 20.956% on 24 December 2013.

From 24 December 2014, the Casino (Burswood Island) Agreement was amended to revise the casino tax schedule. The schedule reflects lower casino tax rates in return for the cessation of GST reimbursements to Crown Casino. The effective tax rate on the casino's electronic gaming machines was reduced to 12.27% (this increased to 12.42% on 24 December 2015). The table game tax rate was reduced to 9.37% and the fully automated table game tax rate was reduced to 12.92%. From 1 July 2015, the international commission business tax rate was reduced to 1.75%.

## GST Re-imbursements

As part of the intergovernmental agreement on the GST, the States agreed to adjust their gambling tax arrangements from 1 July 2000 to 'make room' for the GST (see also the section on the Lotteries Commission).

From 24 December 2014, the GST re-imbursement was replaced by a reduction in casino tax rates.

## Betting Taxes

Betting taxes comprise the Racing and Wagering Western Australia (RWWA) Wagering Tax, Bookmakers' Betting Levy and the Racing Bets Levy.

The RWWA Wagering Tax is collected by the Commissioner of State Revenue under the *Racing and Wagering Western Australia Act 2003* (RWWA Act) and the *Racing and Wagering Western Australia Tax Act 2003*.

Under the RWWA Act, for totalisator and fixed odds wagering on sporting events, 25% of the net return after tax (or such other percentage as prescribed) is remitted to the Sports Wagering Account for distribution by the Gaming and Wagering Commission on the direction of the Minister for Sport and Recreation.

The Bookmakers' Betting Levy is collected under the *Bookmakers Betting Levy Act 1954*. The levy on sports betting at a racecourse is collected by the racing clubs with 50% of the collections retained by the clubs and the balance remitted to the Sports Wagering Account. The levy on sports betting at a designated sporting event is collected by the Gaming and Wagering Commission and remitted to the Sports Wagering Account. The levy does not apply to racing events.

The Racing Bets Levy is collected under the Racing Bets Levy Act 2009. The levy applies to all wagering operators (including interstate operators) who use or publish Western Australian race fields. It is collected by the Gaming and Wagering Commission on behalf of the Western Australian racing industry.

In the 2017-18 State Budget, the State Government announced that it will introduce a Point of Consumption (POC) wagering tax from 1 January 2019. The POC wagering tax will be levied on all bets placed in Western Australia irrespective of where the betting operator is licensed. Western Australia's new wagering tax will be of a similar structure to the point of consumption wagering tax currently operating in South Australia.

## Rate of Tax

### RWWA Wagering Tax

#### **Totalisator**

The rate of tax for off-course racing wagers is 11.91% of gross revenue (net of GST).

The off-course totalisator sports betting tax rate is 5% of turnover.

There is no on-course totalisator tax for racing or sports betting.

#### **Fixed Odds**

The tax rate for fixed odds betting is 2% of turnover for racing and 0.5% of turnover for sports betting.

## **Bookmakers' Betting Levy**

The Bookmakers' Betting Levy is 1.5% of sports betting turnover at a designated sporting event and 0.5% of sports betting turnover at a racecourse. The levy does not apply to racing events.

## **Racing Bets Levy**

A 1% Racing Bets Levy applies to a betting operator's annual turnover up to and including \$3 million. The threshold is applied on a racing calendar year basis.

Once the threshold is reached, the following differential levy rates apply:

- Pari-mutuel bets placed on standard race meetings levied at 1.5% of turnover.
- Pari-mutuel bets placed on premium race meetings levied at 2.5% of turnover.
- Betting exchange bets placed on standard race meetings levied at 1.5% of turnover.
- Betting exchange bets placed on premium race meetings levied at 2.5% of turnover.
- Non-exchange fixed odds bets placed on standard race meetings levied at 2% of turnover.
- Non-exchange fixed odds bets placed on premium race meetings levied at 3% of turnover.

## **Exemptions and Concessions**

A wagering taxation concession applies on totalisator off-course racing bets placed through electronic channels for professional punters who are on contract with RWWA and have annual betting turnover of at least \$500,000. This concession will continue until 31 July 2021.

From 1 April 2013, a Racing Bets Levy exemption applies where a betting operator's turnover does not reach \$1,000 in any month.

(a) New South Wales wagering tax rates are being progressively reduced to achieve parity with Victorian rates by 2020-21. The rates shown above are those applying from 1 July 2016 until 30 June 2018.

(b) A fixed annual Totalisator Wagering Levy is paid by the licence holder. The levy is indexed annually and for 2017-18 it is \$7.285 million.

(c) Tax rates are 40% of the licensee's commission on thoroughbred, harness and greyhound races and 20% of the licensee's commission on other races, events, sports and activities held in Australia. Tax at a rate of 10% of the licensee's commission applies to international races and sporting events.

(d) An annual Totalisator Licence Fee is paid by the licence holder. The fee is indexed annually by CPI and for 2016-17 is \$1,031,000.

(e) The Bookmakers' Betting Levy on racing has been abolished in all States and Territories except for the Northern Territory. However, Victoria receives 10.91% of player loss on simulated racing (Trackside).

(f) Applies to internationally sourced bets with a maximum of \$575,000 per annum. Nil for domestic sourced bets.

(a) The Racing Bets Levy may also be known as product information fees or race fields fees, amongst others.

(b) A 2.5% rate applies to premium race meetings with over \$3 million in turnover. Fixed odds bets placed at non betting exchanges with over \$3 million in turnover are levied at 2% for standard race meetings and 3% at premium race meetings.

(c) Actual rates are set by the racing control bodies on a commercial basis up to the maximum rate. A maximum rate for other odds is 3% of turnover for race meetings where at least one race carries a prize of \$1 million or more and 2.5% otherwise.

(d) Fees for using race fields information is a commercial arrangement between the racing industry and the person using that information.

(e) Requires a contribution agreement to be entered into between the racing authority and the person using that information. A prescribed amount of 20% of gross proceeds of bets placed on SA betting operations is payable where no contribution agreement is in force.

(f) This rate increases to 2.0% each January and February and then reverts to 1.5% from March.

(g) Fixed odds bets are taxed at the greater of 2.0% of net turnover (plus GST) or 20% of net revenue plus an additional 5% of revenue on thoroughbred racing, during January and February. Bets placed at betting exchanges are levied at 1.0% of net customer winnings (plus GST). A discount of 5% applies to any fee above \$100,000 (excluding GST) during the month.

(h) Revenues are collected directly by the racing industry. A rate of 2.0% of turnover applies to fixed odds bets, 2.5% to non-totalisator bets and 1.0% on bets placed at betting exchanges. Rates are increased on Black Opal Stakes Day, to 2.5% on totalisator bets, 3.0% on fixed odds bets, 3.5% on non-totalisator bets and 2.0% on bets placed at betting exchanges.

## Changes to the Rate Scale

Prior to the establishment of RWWA in 2003, betting taxes comprised the Totalisator Agency Board (TAB) Betting Tax and the Bookmakers' Betting Levy.

### Wagering Tax

The TAB Betting Tax rate was increased from 6% to 7% of TAB turnover in 1983. In 1988-89, the TAB Betting Tax was reduced to 6%.

From 28 June 1996, the TAB Betting Tax rate was reduced to 5% and the Totalisator Duty was abolished.

From 1 February 2001, the TAB Betting Tax rate was effectively reduced from 5% to 4.5%, through the payment of rebates to the TAB.

From 1 July 2007, the TAB betting tax was changed from 4.5% of TAB turnover, to a tax rate of 11.91% of gross margin (net of GST). This represented an equivalent rate reduction from 4.5% to 3.5% of turnover. The tax rate for totalisator sports betting remained unchanged at 5% of turnover.

### Bookmakers' Betting Levy

The Government reduced the Bookmakers' Betting Tax from 2.50% to 2.25% and abolished stamp duty on betting tickets from 1 August 1989.

From 28 June 1996, the Bookmakers' Betting Tax was changed to a levy with the rate reduced to 2%.

From 30 June 1998, the Bookmakers' Betting Levy for sports betting at a racecourse was reduced from 2% to 0.5%. From 1 August 1998, the Bookmakers' Betting Levy was introduced at the rate of 2% for sports betting at a sporting venue.

From 11 January 2010, the 2% Bookmakers' Betting Levy payable on horse and greyhound racing was abolished.

From 11 January 2010, the Bookmakers' Betting Levy on betting conducted at a designated sporting event was reduced from 2% to 1.5%.

### Racing Bets Levy

From 1 September 2008, the Racing Bets Levy was introduced. It applies to all wagering operators (including interstate operators) who publish or use Western Australian race fields, with other States also charging for the use of their race fields information. The levy does not distinguish between off-course and on-course wagering, and operators had a choice (until 1 November 2012) as to the method that they applied. One method was 1.5% of turnover and the second was either 20% of gross revenue or 0.2% of turnover, whichever was greater.

From 1 November 2012, the Racing Bets Levy applied at the rate of 1.5% of a betting operator's monthly turnover.

From 1 April 2013, the Racing Bets Levy decreased from 1.5% to 1% when a betting operator's annual turnover was \$2.5 million or less. When a betting operator's annual turnover was greater than \$2.5 million, the 1.5% rate applied.

From 1 August 2013 until 1 October 2014, a 2% rate applied for thoroughbred racing conducted from 1 November to 1 January each year (inclusive).

From 1 October 2014, the threshold at which the rate of 1.5% applies was increased to \$3 million. The levy on bets placed at premium race meetings above this threshold increased to 2.5%. Fixed odds bets placed at non-betting exchanges are levied at 2% for standard race meetings and at 3% for premium race meetings.

## **Changes to Exemptions and Concessions**

A taxation rebate on totalisator off-course wagering on racing through electronic channels was introduced in 2010-11 (for three years) for professional punters who are on contract with RWWA and have annual betting turnover of at least \$500,000. The rebate is equivalent to 10% of gross wagering revenue for this category of betting (effectively reducing the wagering tax rate from 11.91% to 1.91%). In 2017 this concession was extended until 31 July 2021.

From 1 April 2013, a Racing Bets Levy exemption applies where a betting operator's turnover does not reach \$1,000 in any month.

## GST Re-imburements

As part of the intergovernmental agreement on the GST, the States agreed to adjust their gambling tax arrangements from 1 July 2000 to 'make room' for the GST (see also the section on the Lotteries Commission). GST paid by RWWA was separately re-imbursed by the State up to 2006-07.

From 1 July 2007, the GST re-imburement was replaced by an equivalent reduction in the wagering tax rate for pari-mutuel betting on racing. GST re-imburements still occur in relation to fixed odds race betting and pari-mutuel and fixed odds sports betting.

## Perth Parking Levy

The Perth Parking Levy (PPL) was introduced in July 1999 and is paid by all owners of non-residential parking bays within the Perth Parking Management Area (constituting the Perth CBD and sections of West Perth, East Perth and Northbridge). The PPL is administered by the Department of Transport under the *Perth Parking Management (Taxing) Act 1999* and *Perth Parking Management Regulations 1999*.

Revenue collected under the Perth Parking Levy is credited into the Perth Parking Licensing Account. These funds are utilised for a range of transport initiatives, including the free Central Area Transport (CAT) bus system, cycle paths and for funding a proportion of the Perth Busport.

### Rate of Levy

---

PERTH PARKING LEVY	
Type of Parking Bay	Annual License Fee (\$ p.a.)
Long stay public bays	1,107.70
Short stay public bays <sup>(a)</sup>	1,023.50
On-street parking bays	1,023.50
All other parking bays <sup>(b)</sup>	1,151.90

---

(a) Only applies for public bays in which 50% of the vehicles stay for less than four hours and 90% less than six hours.  
(b) Includes tenant parking and other non-public bays.

---

## Exemptions and Concessions

Exemptions to the levy are prescribed under the *Perth Parking Management Regulations 1999*. These exemptions include all motorcycle bays, disability bays, loading bays, emergency vehicle bays, bays at public parks and religious institutions and bays utilised by passenger buses.

Parking facilities with five or fewer leviable bays are exempt from the Perth Parking Levy.

Bays used solely for residential parking do not pay the levy.

## Interstate Comparison

Queensland, South Australia, Tasmania, the Northern Territory and the Australian Capital Territory do not charge levies on CBD parking bays.

**WA** The Perth Parking Levy is an annual licence fee for all owners of non-residential parking bays within a specified area of Perth. The levy is \$1,023.50 for on-street and short stay public parking, \$1,107.70 for long stay public parking bays and \$1,151.90 for all other bays, including tenant parking.

**NSW** A Parking Space Levy applies to any non-residential off-street motor vehicle bays in a leviable district. Bays within the City of Sydney and the North Sydney and Milsons Point business districts are levied an annual fee of \$2,390, and bays within Bondi Junction, Chatswood, Parramatta and St Leonards are levied an annual fee of \$850.

The Parking Space Levy is indexed to the Consumer Price Index.

**VIC** An annual Congestion Levy of \$1,410 per parking space applies to all off-street parking spaces in both private and public car parks within a specified area of the Melbourne CBD. A concessional rate of \$1,000 applies to off-street parking spaces in a number of suburbs surrounding the Melbourne CBD.

The Congestion Levy is indexed to the Consumer Price Index.

## Landfill Levy

The landfill levy is collected by the Department of Water and Environmental Regulation and is imposed on waste that originates from or is disposed of in the Perth Metropolitan area.

A landfill levy was originally introduced in July 1998 under the *Environmental Protection Act 1986*. This legislation was repealed and replaced by the *Waste Avoidance and Resource Recovery Levy Act 2007*.

Under the *Waste Avoidance and Resource Recovery Act 2007*, 25% of funds raised by the landfill levy are paid into the Waste Avoidance and Resource Recovery Account. These funds are applied to programmes related to the management, reduction, reuse, recycling, monitoring or measurement of waste.

### Rate of Levy

The fees charged under the landfill levy are charged at a different rate for putrescible landfills and inert landfills. The rates of the levy are as follows:

	<b>Putrescible Waste \$ per tonne<sup>(a)</sup></b>	<b>Inert Waste \$ per tonne<sup>(b)</sup></b>
From 1 July 2017 <sup>(c)</sup>	65.00	60.00

(a) Putrescible waste includes household food waste, green waste and certain commercial and industrial wastes that easily decompose.

(b) Inert waste is waste, such as sand and concrete, which is neither chemically nor biologically reactive and will not decompose. Inert waste is levied per cubic metre. One cubic metre of inert waste in situ within landfill is treated as equivalent to 1.5 tonnes.

(c) From 2018-19 the rates will be \$70 per tonne for both putrescible waste and inert waste.

### Exemptions and Concessions

The landfill levy does not apply to waste that is collected and stored at a licensed landfill for recycling.

## Interstate Comparison

The following States place a levy on waste disposed of in landfill:

---

**WA** The landfill levy is imposed on waste disposed to landfill in the Perth metropolitan area, or to waste from the metropolitan area disposed to landfill anywhere in Western Australia. In 2017-18 the rate of levy is \$65/tonne of putrescible waste and \$60/tonne of inert waste.

---

**NSW** The Waste Levy is imposed on the occupiers of licensed waste facilities anywhere in NSW which receive waste generated from a specified regulated area, and the occupiers of scheduled waste facilities within a specified area which receive waste from anywhere in NSW. From 1 July 2017, the rate of levy is \$138.20/tonne within the specified extended metropolitan area and \$79.60/tonne within the specified regional area. Concessional levy rates apply for virgin excavated natural material in metropolitan and regional areas.

Trackable liquid waste is separately levied at \$74/tonne, and coal washery reject is levied at \$14.50/tonne.

---

**VIC** A Landfill and Prescribed Waste Levy is payable by all landfill owners in Victoria. Metropolitan landfills are levied at \$63.28/tonne of municipal and industrial waste, while rural landfills are levied at \$31.71/tonne of municipal waste, and \$55.46/tonne of industrial waste.

Asbestos is levied separately at \$30/tonne, and contaminated waste is levied at either \$70/tonne or \$250/tonne (depending on the degree of contamination).

---

**SA** A waste levy is payable by the licence holder of a waste depot for all waste received that is to be disposed of at that depot. From 1 July 2017, solid waste is levied at \$87/tonne in metropolitan regions (\$43.5/tonne in non-metropolitan regions) and \$35.81/kilolitre of liquid waste.

---

**ACT** Landfill fees are payable for commercial and industrial waste at \$149.10 per tonne (\$37.25 per load for loads less than 0.25 tonne). Landfill fees for special waste including the disposal of asbestos or products containing asbestos apply at \$167.40 per tonne (\$41.80 per load for loads less than 0.25 tonne). Contaminated soils incur a charge of \$149.50 per tonne.

## Emergency Services Levy

The Emergency Services Levy (ESL) was introduced on 1 July 2003 as a new funding arrangement for the State's fire and emergency services.

The ESL replaced the previous arrangements under which the cost of permanent fire services was funded by a fire brigade levy paid by insurance companies (75%), local government (12.5%) and the State (12.5%).

Local government authorities collect the levy from property owners on behalf of the Department of Fire and Emergency Services (DFES). The revenue is dedicated to fund a range of services, including Career Fire and Rescue Service, Volunteer Fire and Rescue Service, Local Government Bush Fire Brigades, Volunteer State Emergency Service Units, and Multi-service DFES Units.

### Rate of Levy

The ESL rate is determined by the type and level of fire and emergency services available to a property, with ESL category 1 applying to the Perth metropolitan area and ESL category 5 applying to remote areas. The maximum ESL payable is lower for residential properties than commercial properties.

	ESL CATEGORY				
	1	2	3	4	5
<b>Rate of Levy (per \$ of Gross Rental Value)</b>	\$0.013259	\$0.009944	\$0.006629	\$0.004641	n.a.
<b>Minimum Charge</b>	\$75	\$75	\$75	\$75	\$75
<b>Residential Maximum Charge (includes Hobby Farms)</b>	\$395	\$296	\$197	\$138	\$75
<b>Commercial Maximum Charge</b>	\$225,000	\$168,000	\$112,000	\$78,000	\$75

### Exemptions and Concessions

Pensioners and seniors who receive a rebate on their council rates will receive an equivalent level of rebate on their levy charge.

Mining tenements pay a maximum ESL charge of \$75. The ESL does not apply to mining exploration and prospecting licenses.

## Interstate Comparison

For comparison purposes, the examples below only apply to residential property in metropolitan regions. New South Wales<sup>1</sup> and the Northern Territory currently do not apply a property-based levy to fund fire and emergency services.

---

### EMERGENCY SERVICES LEVY METROPOLITAN RESIDENTIAL PROPERTY

---

<b>WA</b>	The Emergency Services Levy is levied upon property owners at a rate determined by the level of fire and emergency services cover available in their region. Residential property owners in the Perth metropolitan region pay 1.3259% of the Gross Rental Value (GRV) <sup>2</sup> of the property. The minimum fee payable is \$75 and the maximum is \$395.
<b>VIC</b>	The Fire Services Property Levy contains both a fixed charge and variable charge component. Residential metropolitan property owners pay a fixed charge of \$107 in addition to a variable charge of 0.056% of the Capital Improved Value of the property.
<b>QLD</b>	The Emergency Management, Fire and Rescue Levy is levied upon all property owners at a rate determined by the location and category of the property. A single unit residence located in a metropolitan region is levied a flat rate of \$210.20.
<b>SA</b>	The Emergency Services Levy contains both a fixed charge and a variable charge. Residential metropolitan property owners are levied a fixed charge of \$50 and a variable charge of 0.04848% of the Capital Value of the property.
<b>TAS</b>	A Fire Service Rate is levied by local councils on behalf of the Tasmanian Government at a rate which varies across regions. Hobart City Council charges a levy of 1.30% of the Assessed Annual Value (AAV) <sup>3</sup> of a property, with a minimum charge of \$39.
<b>ACT</b>	The Fire and Emergency Services Levy is charged on all rateable properties. Residential properties are levied a flat fee of \$294.

---

---

<sup>1</sup> The proposed introduction of an Emergency Services Property Levy in New South Wales from 1 July 2017 has been deferred.

<sup>2</sup> The GRV of a property is determined by the Valuer General. It is the gross annual rental that a property might reasonably be expected to realise if it were let on a tenancy basis from year to year.

<sup>3</sup> The AAV of a property is broadly equivalent to GRV in Western Australia.

## Loan Guarantee Fees

The Western Australian Treasury Corporation (WATC) collects loan guarantee fees from State Government agencies and local government borrowers on behalf of the Treasurer in respect of monies lent by the WATC. The Treasurer charges these fees for providing an explicit government guarantee on liabilities incurred by WATC in raising loan funds.

The current scale of loan guarantee fees is as follows:

- 0.7% per annum for local government authorities, public universities, government trading enterprises (such as the Water Corporation, Synergy, Horizon Power, Western Power and LandCorp) and other government statutory authorities (such as the Public Transport Authority, the Metropolitan Redevelopment Authority, the Housing Authority and Port Authorities); and
- 0.2% per annum for general government agencies that generally borrow through special powers afforded to their relevant minister. In some cases special exemptions or, conversely, a higher rate may apply for these types of agencies.

## Mining Rehabilitation Fund Levy

Mining tenement holders (as defined under the *Mining Act 1978*) with rehabilitation liabilities in excess of \$50,000 are required to contribute to the rehabilitation of abandoned mine sites via a Mining Rehabilitation Fund Levy. This levy is collected by the Department of Mines, Industry Regulation and Safety under the *Mining Rehabilitation Fund Act 2012*.

The rate of levy is set at 1% of the rehabilitation liability estimate of each leviable mining tenement.

Contributions made to the Fund are used for rehabilitation works on mine sites where the mining tenement holder has failed to meet rehabilitation obligations. The interest earned on the Fund balance is used to undertake rehabilitation works on legacy abandoned mine sites throughout Western Australia.

# Mineral Royalties

---

Mineral royalties are collected under either the *Mining Act 1978 (WA)* or various State Agreement Acts which have been negotiated for major resource projects. They are the price paid by a mining company for a mineral resource, ownership of which is vested in the State Government on behalf of the community.

Under the Mining Act, royalties are payable on all minerals. However, the definition of ‘mineral’ excludes the following where they occur on private land:

- Limestone, rock or gravel shale, other than oil shale;
- Sand, other than mineral sands, silica sand or garnet sand; and
- Clay, other than kaolin, bentonite, attapulgite, or montmorillonite.

## State Agreement Acts

State Agreements are essentially contracts between the Western Australian Government and proponents of major resource projects, and are ratified by an Act of State Parliament. They specify the rights, obligations, terms and conditions for the development of a project, and establish a framework for ongoing relations and cooperation between the State and the project proponent.

In some cases the State Agreement Act contains specific royalty clauses, while in other cases it simply refers to the Mining Act royalty sections. Where a State Agreement is silent on the matter of royalties, regulations made under the Mining Act may apply.

A full list of State Agreement Acts, which have been used in Western Australia since 1952, is available on the Department of Jobs, Tourism, Science and Innovation website (<http://www.jtsi.wa.gov.au>).

## Royalty Systems

Two systems of mineral royalty collection are used in Western Australia:

- Specific rate – calculated as a flat rate per tonne produced (applied only to bulk materials and coal that is not exported); and
- Ad valorem – calculated as a proportion of the ‘royalty value’ of the mineral or at a percentage of the contained metal or mineral value for some commodities such as nickel and rare earths.
  - The royalty value is broadly calculated as the quantity of the mineral in the form in which it is first sold, multiplied by the price in that form, less any allowable deductions.
  - The nickel and rare earths royalties are calculated based on the value of the mineral contained in the product sold.

In Western Australia, mineral royalty revenue is primarily comprised of ad valorem royalties from iron ore, gold, alumina, and nickel.

Following a review of royalties, in 1981 a general three-tiered royalty rate structure was put in place, comprising of:

- a 7.5% rate for minerals subject only to limited processing prior to sale;
- a 5% rate for minerals processed to and sold as concentrates; and
- a 2.5% rate for minerals processed to and sold as a metal.

## Iron Ore

Iron ore royalties are collected by the Department of Mines, Industry Regulation and Safety under the *Mining Act 1978*, or State Agreement Acts, based on the free on board value (or royalty value) of the iron ore mined.

### Royalty Rate

The royalty rate payable under the Mining Act depends on the degree of processing of the product sold.

IRON ORE	
Type of Iron Ore	Royalty Rate (%)
Beneficiated (e.g. magnetite concentrate)	5.0
Lump and Fines	7.5

In addition, iron ore lease rentals are collected under the Mining Regulations 1981 or State Agreement Acts. Mining lease holders producing iron ore are generally required to commence paying an additional lease rental 15 years after iron ore was first obtained from the lease. The lease rental is calculated at the rate of 25 cents per tonne on all forms of iron ore obtained from the lease.

### Exemptions and Concessions

A rebate of up to 50% of royalty payments is available until 2018-19 to eligible magnetite producers who had qualified for the original rebate scheme that ended in April 2016.

(c) A 20% rebate is available for the production of the metal in Tasmania.

(d) The first \$50,000 of net value is exempt. Where the net value exceeds \$50,000, the royalty otherwise payable is reduced by \$10,000.

## Changes to Royalty Rates and Concessions

MINING ACT ROYALTY RATES (%)			
Iron Ore Type			
Date	Beneficiated	Fines	Lump
1981	n.a.	7.5	7.5
1995	5.0	5.625	7.5
2012	5.0	6.5	7.5
2013	5.0	7.5	7.5

A compromise rate of 5.625% for iron ore 'fines' was introduced in the Mining Act in May 1995, when iron ore production commenced outside of State Agreement Acts. This rate was halfway between the existing 3.75% concessional rate set in State Agreements in the 1960s (which reflected that 'fine' ore was then considered to be inferior and less marketable than 'lump' ore) and the 7.5% rate in the Mining Act for 'crushed and screened' ores.

Following an agreement between the State Government and major iron ore producers, the iron ore 'fines' royalty rate of 3.75% in the relevant State Agreements was aligned with the 5.625% rate in the Mining Act from 1 July 2010.

The Western Australian Government announced in the 2011-12 Budget that the concessional royalty rate for iron ore 'fines' would be removed over two years. The royalty rate for iron ore 'fines' increased from 5.625% to 6.5% from 1 July 2012 and further increased to 7.5% from 1 July 2013 (in both the Mining Act and the relevant State Agreement Acts).

From 9 April 2013, for a period of three years, a rebate of up to 50% of royalty payments was available to eligible magnetite producers for the first 12 months of magnetite production. The rebate was considered on a project-by-project basis where the extractable iron mineral is predominantly (more than 80%) magnetite and production involves fine grinding and beneficiation. The original scheme ceased on 9 April 2016. In the 2016-17 State Budget the Western Australian Government announced a two year extension to the royalty rebate program for the two mining operations that qualified under the original scheme.

From 19 December 2014, a rebate of 50% of royalty payments was available to eligible hematite producers with a commissioned iron ore production capacity of less than 20 million tonnes per annum. The rebate was available from the December 2014 quarter until the September 2015 quarter. All rebates were repaid by 30 September 2017.

## Changes to Royalty Rates and Concessions

Gold mining was exempt from royalties in Western Australia until 1998.

From 1 July 1998, a gold royalty was introduced at a concessional rate of 1.25% of the royalty value of the gold metal produced. From 1 July 2000, the rate was increased to 2.5%.

During the period from 1 July 2000 to 30 June 2005, a concessional rate of 1.25% was payable if the average gold spot price for the quarter fell to less than \$A450 per ounce. However, this never occurred.

## Changes to Royalty Rates and Concessions

In August 1982, the price of nickel used for royalty valuation purposes was changed from ‘the ruling price per tonne of nickel metal on the world market’ to ‘the gross nickel metal price per tonne free on board’.

On 5 September 2017, the Mining Regulations 1981 were clarified to make reference to global trading indices for royalty valuation purposes.

## Bauxite/Alumina

Bauxite is an ore which is processed to produce alumina. Western Australia currently applies separate royalty rates to bauxite and alumina.

Bauxite royalties are collected by the Department of Mines, Industry Regulation and Safety under the *Mining Act 1978* based on the royalty value of the bauxite mined.

Alumina royalties are collected by the Department of Mines, Industry Regulation and Safety under State Agreement Acts, based on an arm's length export sales value per tonne or the average alumina export price per tonne over the preceding four quarters.

### Royalty Rate

## Changes to Royalty Rates and Concessions

The current royalty rate for all alumina produced in Western Australia of 1.65% was originally determined for Alcoa in 1987 and in 1991 for Worsley, and was intended to be equivalent to the 7.5% royalty rate for bauxite (from which alumina is extracted), set under the *Mining Act 1978*.

The *Alumina Refinery Agreement Act 1961* (which covers Alcoa) and the *Alumina Refinery (Worsley) Agreement Act 1973* each include a seven year review clause ostensibly intended to ensure that the royalty rate for alumina remains consistent with the 7.5% royalty rate for bauxite. Reviews were last completed in 2009 and 2012 (respectively), with no change to the royalty rate recommended at that time.

## Diamonds

Diamond royalties are collected by the Department of Mines, Industry Regulation and Safety under a State Agreement Act and Regulation specific to a mining operation based on the royalty value of the diamonds produced. No royalties are currently collected on diamonds under the *Mining Act 1978*, although a royalty rate is set under the Act.

### Changes to Royalty Rates and Concessions

From the Argyle mine's opening in 1985 until 1 January 2006, the royalty payable was either 22.5% of the 'above zero profit,' or 7.5% of the ad valorem rate, whichever was greater. From 1 January 2006, the royalty arrangements were changed to a flat 5% ad valorem rate to facilitate the extension of the Argyle diamond mine's life (through the development of an underground operation) and to be consistent with the 1981 three tiered royalty rates principle.

The rate is adjusted on 30 June each year relative to the free on board export price of bulk ilmenite concentrate sales for the year ending on that date each year. The rate ceased to apply to marketable ilmenite feedstock on 1 July 2008.

(a) No rate is specified for ilmenite feedstock in Queensland. However, a default rate of 2.5% applies.

(b) No rate is specified for ilmenite feedstock in South Australia. However, a default rate of 5% applies for mineral ores.

(c) New mines may qualify for a concessional rate of 2.0% for the first five years. A concessional rate of 1.5% may apply to mines that were operating prior to 1 July 2011, for a period of up to five years.

(d) A rebate of 20% is available for the production of a metal within Tasmania.

(e) First \$50,000 of net value is exempt. Where the net value exceeds \$50,000, the royalty otherwise payable is reduced by \$10,000.

## Changes to Royalty Rates and Concessions

Royalties for the mining of mineral sands were first introduced on 1 July 1958 at an ad valorem rate of 2%. This rate was less than half of the initial proposed rate (5%) and was introduced as a temporary measure to address the industry's economic difficulties at that time. Ilmenite was exempt from royalty payments for five years.

With the introduction of the *Mining Act 1978* (effective 1 January 1982) the general rate for mineral sands increased to 2.5%. At the same time a concessional royalty rate (50 cents per tonne) was introduced for ilmenite feedstock. The reduced rate was intended to apply to low quality product requiring further processing for it to be marketable.

From 6 August 1982, the general rate for mineral sands was increased to 3% after the industry was judged to be in a stronger financial position. A 3% royalty rate was also specifically applied to xenotime from this date.

From 21 August 1987, royalty rates on all exported mineral sands (including xenotime) were increased to the initial proposed rate of 5%. At the same time the ilmenite feedstock rate was increased to \$1.50 per tonne. From this date the ilmenite feedstock rate was also subject to a yearly review and adjusted in accordance with the export price of all bulk ilmenite concentrate sales from Western Australia for the financial year compared with the corresponding price of all bulk ilmenite concentrate sales from Western Australia in the 1987 base financial year.

The royalty rate applying to ilmenite feedstock that was of marketable quality was progressively increased to 3.5% from 1 July 2005, 4% from 1 July 2006, 4.5% from 1 July 2007, and 5% from 1 July 2008.

## Changes to Royalty Rates and Concessions

No royalty was collected for copper in Western Australia until the introduction of the *Mining Act 1978* (effective from 1 January 1982) when a 5% rate was introduced.

Copper produced at the Teutonic Bore Mine was subject to a concessional rate of 2.5% from 6 August 1982 until 14 December 2001, when that concession ceased.

From 16 June 2000, the copper royalty rates were amended to reflect concentrate and metal rate principles. Copper sold in metallic form is subject to a rate of 2.5%, copper sold as a concentrate is subject to a 5% rate, from 30 June 2005 copper sold as a nickel by-product is subject to a 2.5% royalty rate and from 5 September 2017 copper sold in a crushed and screened form is subject to a 7.5% royalty rate.

## Changes to Royalty Rates and Concessions

Royalties for the mining of zinc were first introduced on 1 July 1958 at a rate of \$0.20 per tonne produced. With the introduction of the *Mining Act 1978* (effective from 1 January 1982) the rate was changed to an ad valorem rate of 5% for concentrates.

Zinc produced at the Teutonic Bore Mine was subject to a concessional rate of 2.5% from 6 August 1982 until 14 December 2001, when that concession ceased.

From 16 June 2000, a rate of 2.5% applies to zinc sold in metallic form.

# Petroleum Royalties

---

Petroleum royalties are levied by the State Government on petroleum production that occurs onshore or within coastal waters, and by the Commonwealth on the North West Shelf Project.

There are three State Acts which apply to the administration and collection of petroleum royalties in Western Australia:

- *Petroleum (Submerged Lands) Act 1982*;
- *Petroleum and Geothermal Energy Resources Act 1967*; and
- *Barrow Island Royalty Variation Agreement Act 1985*.

Western Australia also receives grants from the Commonwealth Government for the North West Shelf project (covered by the Commonwealth's *Offshore Petroleum (Royalty) Act 2006*), representing a proportion of the Commonwealth's royalties from the project.

## Royalty Rate

The royalty rate for petroleum depends on where the petroleum production is undertaken and hence, what State (or Commonwealth) legislation is applicable. Under Western Australian legislation, the royalty rates are:

PETROLEUM	
Relevant Legislation	Royalty Rate (%)
<i>Petroleum (Submerged Lands) Act 1982</i>	10.0 or 12.5 <sup>(a)</sup>
<i>Petroleum and Geothermal Energy Resources Act 1967</i>	10.0 or 12.5 <sup>(a)(b)</sup>
<i>Barrow Island Royalty Variation Agreement Act 1985</i>	40.0 <sup>(c)</sup>
<small>(a) A 10% royalty rate applies to a primary production licence; a 10.0% to 12.5% rate applies once a secondary licence is taken up.</small>	
<small>(b) A minimum royalty rate of 5% applies to a primary production licence for tight gas.</small>	
<small>(c) A 40% royalty rate applies to the resource rents (net cash flows).</small>	

For the North West Shelf project, royalty is levied as a percentage of the value of petroleum at the 'well-head'. This is calculated using a 'netback' method (gross value of petroleum recovered less allowable post-well-head processing, transport and storage costs).

This differs from the Resource Rent Royalty (RRR) under the *Barrow Island Royalty Variation Agreement Act 1985*. Like the Commonwealth's Petroleum Resource Rent Tax, the RRR applies to only the economic profit or rent of the project. It is levied at 40% of the net cash flow and is shared between the Commonwealth (75%) and the State (25%).

From 1 July 2012, the Commonwealth's Petroleum Resource Rent Tax (PRRT) was extended to include State offshore and onshore petroleum projects and the North West Shelf project. This remains the case despite the Commonwealth Government repealing its Mineral Resource Rent Tax from 1 October 2014. Prior to 1 July 2012, the PRRT only applied to offshore petroleum projects located in Commonwealth waters. Similar to the RRR for Barrow Island, the PRRT applies a rate of 40% on the taxable profits of a petroleum project. State royalties are fully creditable against PRRT liabilities.

## Summary of Tax and Royalty Changes in 2017-18 in all States and Territories

The following is a summary of the major tax and royalty changes announced in 2017-18 State Budgets (not necessarily enacted) and other major changes announced up until 31 January 2018.

---

### Western Australia

#### Payroll Tax

From 1 July 2018 until 30 June 2023, Western Australian employers with an Australia-wide, annual taxable payroll exceeding \$100 million will pay a marginal tax rate of 6% (up from the current 5.5%) on the part of their payroll above \$100 million not exceeding \$1.5 billion, and a marginal tax rate of 6.5% on the part of their payroll exceeding \$1.5 billion.

From 1 December 2017, the payroll tax exemption for wages paid to trainees was limited such that it is only available for wages paid to new employee trainees earning no more than \$100,000 per annum. As a transitional measure, wages paid to an existing worker trainee who had a training contract in place before 1 December 2017 will continue to be exempt from payroll tax for the term of the contract, providing the employee's wage does not exceed \$100,000. The exemption for apprentices was not affected.

#### Transfer Duty

From 1 January 2019, a 4% Foreign Buyer Duty Surcharge will apply in Western Australia on purchases of residential property by foreigners, including individuals, corporations and trusts. The surcharge is in addition to transfer duty generally payable on property acquisitions.

## Betting Taxes

Western Australia will introduce a point of consumption wagering tax from a target date of 1 January 2019, at a rate of 15% of net wagering revenue. This will replace all current wagering tax arrangements and apply to all forms of wagering. Western Australia's new wagering tax will be of a similar structure to the point of consumption wagering tax currently operating in South Australia.

## New South Wales

### Transfer Duty

From 1 July 2017, the foreign investor transfer duty surcharge (payable in addition to transfer duty) on the purchase of residential property by foreign buyers increased from 4% to 8%.

Foreign investor transfer duty and land tax surcharges paid by Australian-based foreign-owned developers will be refunded (backdated to when the surcharges commenced) for developed properties that are sold within 5 years.

From 1 July 2017, the transfer duty exemption for first home buyers was extended to include those buying an existing home and the exemption value threshold increased to \$650,000, with concessional treatment available up to \$800,000.

From 1 July 2017, the off-the-plan deferral of transfer duty (for up to 12 months) has been restricted to owner occupiers.

### Homebuyer Grants

From 1 July 2017, the \$10,000 First Home Owner Grant scheme applies to first home buyers who purchase a newly completed home up to \$600,000 (reduced from \$750,000). The Grant is unchanged for those building their first home worth up to \$750,000.

The \$5,000 New Home Owner Grant to buyers of new homes (excluding first home buyers) ceased on 1 July 2017.

### Land Tax

From the 2018 land tax year, the foreign investor land tax surcharge (payable in addition to normal land tax charges) increased from 0.75% to 2.0% on property held by foreign persons. There is no tax-free threshold and no principal place of residence exemption for the surcharge.

## **Insurance Duty**

From 1 July 2017, lenders mortgage insurance was abolished.

From 1 January 2018, small businesses with aggregate annual turnover of less than \$2 million have been exempted from insurance duty on premiums for commercial vehicle insurance, personal indemnity insurance and product and public liability insurance.

Premiums on crop and livestock insurance have also been exempted from insurance duty from 1 January 2018.

## **Motor Vehicle Registration**

From 1 July 2018, New South Wales motorists who spend more than \$1,300 (or \$25 on average per week) on toll roads over a 12 month period will receive free car registration. Eligibility is restricted to standard privately registered cars, utility vehicles, four wheel drives and motorcycles and will not include private motor vehicles weighing more than 2,795kg (such as trucks).

## **Emergency Services Levy**

The Fire and Emergency Services Levy (property-based levy) which was intended to take effect in 2017-18 has been deferred and the insurance-based Emergency Services Levy reintroduced.

---

## **Victoria**

### **Payroll Tax**

Commencing 1 July 2017, the payroll tax exemption threshold increased from \$575,000 to \$625,000. It will increase again to \$650,000 on 1 July 2018.

From 1 July 2017, the payroll tax rate reduced to 3.65% for businesses with payrolls that comprise at least 85% of wages associated with regional employees.

From 1 July 2018, the payroll tax exemption for wages paid to apprentices and trainees under an approved training scheme by not-for-profit group training organisations will be extended to include for-profit group training organisations.

### **Transfer Duty**

From 1 July 2017, first home buyers are exempt from transfer duty (instead of a 50% duty concession) on purchases valued up to \$600,000, with concessional treatment available up to \$750,000.

From 1 July 2017, the off-the-plan transfer duty concession has been restricted to home buyers (no longer investors) who qualify for the principal place of residence transfer duty concession or who qualify for the first home buyer transfer duty concession.

From 1 July 2017, the transfer duty exemption on transfers of property between spouses was removed.

## **Land Tax**

From 1 January 2018, a vacant property tax of 1% of a property's capital improved value applies to properties, in certain areas, that are left unoccupied for six months or more in the preceding calendar year.

## **Land Tax Absentee Owner Surcharge**

From the 2018 land tax year, the exemption to the land tax absentee owner surcharge (which currently applies to absentee corporations) will be extended to include trustees of absentee trusts who conduct commercial operations in Australia and whose commercial activities make a significant contribution to the Victorian economy.

## **Motor Vehicle Duty**

From 1 July 2017, the rate of motor vehicle duty on purchases of new passenger vehicles increased to \$4.20 per \$100 (the same as for used cars) for vehicles below the luxury car tax threshold.

## **Insurance Duty**

From 1 July 2017, insurance duty on insurance policies against damage from flood, fire and other accidental provisions for agricultural products was abolished.

## **Queensland**

### **Payroll Tax**

The temporary payroll tax rebate of 50% of the wages of apprentices and trainees has been extended to 2017-18. This is in addition to their wages being exempt from payroll tax and is used to offset the payroll tax payable on the wages of other employees.

### **Homebuyer Grants**

The temporary increase in the First Home Owner Grant from \$15,000 to \$20,000 for newly constructed properties under \$750,000 was extended to 30 June 2018.

### **Transfer Duty**

From 1 July 2018, the Additional Foreign Acquirer Duty will increase from 3% to 7%.

## **Land Tax**

From 1 July 2017, a 1.5% surcharge for absentee payers of land tax applies on residential and non-residential land holdings of \$350,000 or higher, in addition to other land tax payable.

From 1 July 2018, the land tax rate for aggregated holdings above \$10 million will increase by 0.5% to 2.25%.

## **Motor Vehicle Duty**

From 1 July 2018, the rate of motor vehicle duty for vehicles valued above \$100,000 will increase by \$2 per \$100.

## **Betting Taxes**

From 1 July 2018, a 15% point of consumption tax on online wagering operators will be introduced.

## **Other**

From 1 July 2019, the way in which government fees, charges and penalty units are annually indexed will be changed from a set 3.5% per annum to CPI.

---

## **South Australia**

### **Payroll Tax**

From 1 July 2017, the payroll tax rate for businesses with Australia-wide payrolls between \$600,000 and \$1 million reduced from 4.95% to 2.5%. The rate will incrementally increase to 4.95% for businesses with Australia-wide payrolls above \$1.5 million. This makes permanent a rebate provided to small businesses since 2013-14.

### **Transfer Duty**

Transfer duty on non-residential real property transfers is being phased out over a three year period from 7 December 2015. Duty rates were reduced by a third from 7 December 2015, by a further third from 1 July 2017 and will be abolished from 1 July 2018.

The existing off-the-plan apartment transfer duty concession has been extended for a further 12 months to 30 June 2018. The concession has not been available to foreign purchasers since 22 June 2017.

From 1 January 2018, a 7% surcharge (in addition to other transfer duty payable) has applied to foreign buyers of residential property.

## **Land Tax**

Apartments that are purchased off-the-plan between 22 June 2017 and 30 June 2018 will be exempt from land tax for the first five financial years after purchase. The exemption is not available to foreign purchasers.

## **Homebuyer Grants**

A \$10,000 grant is available to purchasers of an eligible off-the-plan apartment between 22 June 2017 and 30 September 2017.

## **Insurance Duty**

From 1 January 2018, multi-peril crop insurance (covering events such as fire, frost, hail and drought) has been exempt from insurance duty.

## **Tasmania**

### **Payroll Tax**

From 1 July 2017, a payroll tax rebate, equivalent to the payroll tax paid, is available for two years for apprentices and trainees and one year for youths (aged 15 to 24) employed between 1 July 2017 and 30 June 2019.

### **Transfer Duty**

A transfer duty concession for off-the-plan purchases was introduced from 14 May 2017, such that duty will only be paid on the value of the land and existing improvements at the time of entering into the sale agreement.

### **Homebuyer Grants**

The \$20,000 First Home Owner Grant for first home buyers who build or buy a new home has been extended to 30 June 2018. It was previously due to reduce to \$10,000 on 30 June 2017.

## **Australian Capital Territory**

### **Land Tax**

From 1 July 2018, land tax will be extended to all residential properties that are not the owner's principal place of residence. Land tax is currently only charged on residential properties that are rented or owned by a company or trust.

## **Transfer Duty**

The residential and commercial transfer duty scales were further reduced from 7 June 2017. This is consistent with stage 2 reforms announced in the 2016-17 Budget and the 20 year transition program for replacing transfer duty with increases in general rates. Conveyance duty on commercial transactions below \$1.5 million will be abolished from 2018-19.

## **General Rates**

From 1 July 2017, the early payment discount on general rates will be reduced to 1% (from 2%) for property owners who pay their general rates and Fire and Emergency Services Levy assessments in full by the first due date.

## **Motor Vehicle Registration Fees**

Registration fees for caravans were reduced from 1 July 2017.

## **Gambling Taxes**

From 1 July 2017, a gambling tax rebate has been available for small and medium clubs to retain 50% of their gaming taxes up to \$4 million of gaming revenue.

---

# **Northern Territory**

## **Transfer Duty**

From 1 July 2017, the transfer duty rate on properties worth between \$3 million and \$5 million increased from 5.45% to 5.75% and the rate on properties worth \$5 million or more increased to 5.95% (also from 5.45%).

## **Gambling Taxes**

From 1 July 2017, community gaming machine taxes and thresholds were adjusted to increase taxes to close to pre-1 January 2009 levels. A further increase will be made from 1 July 2018.

## **Motor Vehicle Fees**

From 1 July 2017, annual registration fees for light vehicles were increased by around 4% equating to \$5 to \$7 for motorcycles, \$22 for a small car, \$30 for most medium to medium large cars and about 7% or \$60 for a large four-wheel drive vehicle.

## Abolition of State Taxes under the GST Agreement

The following is a chronological summary of Western Australia's abolition of certain State taxes under the arrangements whereby GST grants are paid by the Commonwealth to the States.

### The GST Agreement

The *Intergovernmental Agreement on the Reform of Commonwealth-State Financial Relations* (the Goods and Services Tax (GST) Agreement), signed by Commonwealth and State and Territory First Ministers on 9 April 1999, included commitments to abolish the following State taxes:

- bed taxes from 1 July 2000;
- financial institutions duty from 1 January 2001;
- debits tax from 1 January 2001; and
- stamp duties on the following from 1 July 2001:
  - marketable securities;
  - business<sup>1</sup> conveyances (other than real property);
  - leases;
  - mortgages, bonds, debentures, and other loan securities;
  - credit arrangements, instalment purchase arrangements and rental (hiring) arrangements;
  - cheques, bills of exchange and promissory notes; and
  - stamp duty on business conveyances of real property from a date to be determined.

---

<sup>1</sup> That is, non-residential conveyances.

The Commonwealth Government agreed to distribute all of the GST revenue amongst the States and Territories to compensate for the abolition of the above taxes and the cessation of financial assistance grants and payments associated with the safety net surcharge arrangements for alcohol, petroleum and tobacco products.

However, on 28 May 1999 the Commonwealth Government announced a number of changes to the GST to secure the passage of the legislation through the Senate. These changes included the exclusion of basic food and some health and education items from the GST revenue base, which reduced the amount of expected GST revenue by around \$4 billion per annum. Consequently, projected GST revenues were no longer sufficient to cover revenue foregone from the abolition of the taxes originally agreed and a revised GST Agreement was reached in June 1999.<sup>1</sup>

In the revised GST Agreement:

- the States and Territories agreed to abolish and not reintroduce:
  - bed taxes from 1 July 2000;
  - financial institutions duty from 1 July 2001;
  - stamp duties on quoted marketable securities<sup>2</sup> from 1 July 2001;
  - debits tax by 1 July 2005, subject to review by the Ministerial Council<sup>3</sup>; and
- it was agreed that by 2005 the Ministerial Council would review the need (once GST revenues proved sufficient) for the retention of stamp duties on:
  - non-quotable marketable securities;
  - business conveyances (including real property);
  - leases;
  - mortgages, debentures, bonds and other loan securities;
  - credit arrangements, instalment purchase arrangements and rental (hiring) arrangements; and
  - cheques, bills of exchange, and promissory notes.

<sup>2</sup> That is, on transfers of marketable securities quoted on a recognised stock exchange such as the Australian Securities Exchange (ASX).

<sup>3</sup> Comprising the Commonwealth, State and Territory Treasurers.

In both the original and revised GST Agreements, the States and Territories agreed to adjust their gambling tax arrangements to take account of the impact of the GST on gambling operators, pay the Australian Taxation Office for the cost of administering the GST, and fund and administer a new First Home Owners' Scheme entailing a lump sum payment to eligible home buyers of \$7,000 from 1 July 2000.

## Implementing the State Tax Reforms

As per the revised GST Agreement, Western Australia abolished financial institutions duty and stamp duties on quoted marketable securities from 1 July 2001. Western Australia did not levy any bed taxes.

Western Australia also chose to abolish a number of taxes ahead of the scheduled review by the Ministerial Council, with stamp duty on leases, cheques, bills of exchange and promissory notes, and non-quotable marketable securities all being abolished from 1 January 2004.

The Ministerial Council agreed at its meeting in March 2004 to abolish debits tax from 1 July 2005.

Consistent with the revised GST Agreement, in March 2005 the Ministerial Council considered the need to retain the relevant stamp duties, with the Commonwealth Treasurer proposing the abolition of:

- stamp duties on non-quotable marketable securities; leases; mortgages, bonds, debentures and other loan securities; credit arrangements, instalment purchase arrangements and rental arrangements; and cheques, bills of exchange and promissory notes by 1 July 2006;
- stamp duty on the non-real component of business conveyances from 1 July 2007; and
- stamp duty on business conveyances of real property from a date to be determined by the Ministerial Council (when all States could abolish this duty without being in a net loss position under the GST funding arrangements).

However, agreement on the schedule for abolishing State taxes was not reached at that Ministerial Council meeting.

Subsequently, six of the States and Territories (excluding Western Australia and New South Wales), proposed the abolition of the relevant State taxes by 2010-11, with the exception of stamp duty on business conveyances of real property (which was proposed to be retained indefinitely, at the individual discretion of States).

Western Australia maintained that it should be able to determine its own State tax reform priorities without intervention by the Commonwealth and noted that its capacity to abolish these taxes was limited. A State Tax Review was undertaken to ensure any tax relief would be in line with the State's needs and priorities, rather than being determined by the Commonwealth.

Western Australia proposed to abolish:

- stamp duty on the hire of goods from 1 January 2007;<sup>1</sup>
- stamp duty on mortgages, debentures, bonds and other loan securities from 1 July 2008 (but with rates reduced by 50% from 1 July 2006); and
- stamp duty on non-real business conveyances from 1 July 2010.

At the March 2006 Ministerial Council Meeting, the Commonwealth agreed to individual State schedules for the abolition of the relevant State taxes from seven of the States and Territories (excluding New South Wales), but did not agree with the proposed approach in relation to stamp duty on real business conveyances. Subsequently, New South Wales also announced an abolition schedule.

In line with the agreed schedule, from 1 July 2006, Western Australia cut the rates of stamp duty on mortgages by 50% before abolishing mortgage duty from 1 July 2008. Stamp duty on hire of goods was abolished from 1 January 2007.

In November 2008, COAG agreed a new *Intergovernmental Agreement on Federal Financial Relations* (IGA) which came into effect from 1 January 2009. The IGA incorporated the still relevant parts of the revised GST Agreement and included major reforms to specific purpose payment arrangements<sup>2</sup>.

The IGA included an overarching agreement that the remaining identified State taxes would be abolished by 1 July 2013. Consistent with the agreed approach in 2006, these taxes are those listed in the revised GST Agreement, with the exception of duty on real business conveyances (which, following the required 2005 review, the States concluded they could not afford to abolish).

In May 2013, in response to structural challenges facing the State's budget, the Western Australian Government announced that it would defer the abolition of duty on non-real business assets until budget circumstances allow. Duty on non-real business assets is the only listed State tax that Western Australia has yet to abolish. Queensland and the Northern Territory have also deferred the abolition of this duty.

The Australian Capital Territory abolished duty on non-real business assets from 1 July 2006, Tasmania abolished it from 1 July 2008 and South Australia abolished it from 18 June 2015. New South Wales abolished duties on non-real business assets, mortgages and unlisted marketable securities from 1 July 2016.

---

<sup>1</sup> In Western Australia, stamp duties on credit/rental arrangements comprised only duty on hire of goods.

## Tax and Royalties Mix Charts

The following charts show the mix of individual taxes and royalties as a percentage of total State government taxation and mining royalty revenue. The charts compare actual revenue collections from 2006-07 to 2016-17.

### Taxation

---

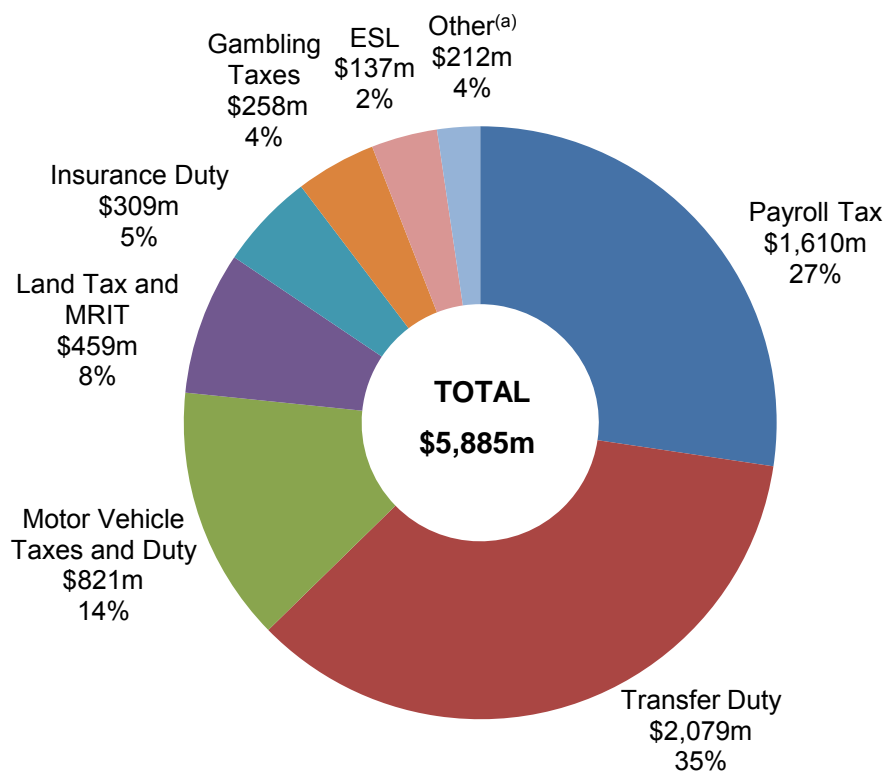

#### 2016-17 TAX COLLECTION<sup>(a)</sup>

(a) Based on the 2016-17 Annual Report on State Finances.

(b) Includes loan guarantee fees, Perth Parking Levy revenue, Landfill Levy revenue, Mining Rehabilitation Fund Levy revenue and 'other' taxes.

## 2006-07 TAX COLLECTION

(a) Includes mortgages duty, debits taxes, loan guarantee fees, permits for oversized vehicles and loads, financial institutions duty, Perth Parking Levy revenue, Landfill Levy revenue, 'other stamp duties' and 'other' taxes.

## Changes in the Tax Mix

The most significant change in the tax mix over the period is the growth in the payroll tax share, which increased from 27% to 38%. The increase in payroll tax revenue reflects solid growth in employment and wages over most of the past decade, driven by strong growth in the State's resource sector contributing towards additional demand for labour and higher wages in the State.

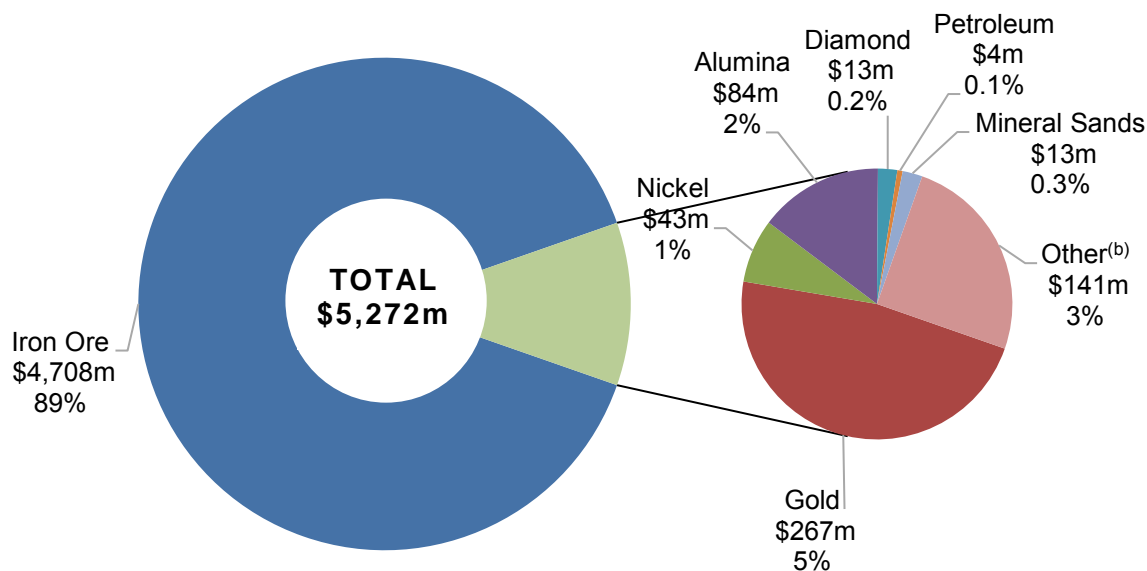

The share of transfer duty fell over the period from 35% to 18%. This largely reflects the volatility in transaction volumes, which has been affected by a general downturn in the Western Australian economy in recent years.

All other taxes have maintained similar shares (within a 5 percentage point margin) of total tax collections.

## Mineral and Petroleum Royalties

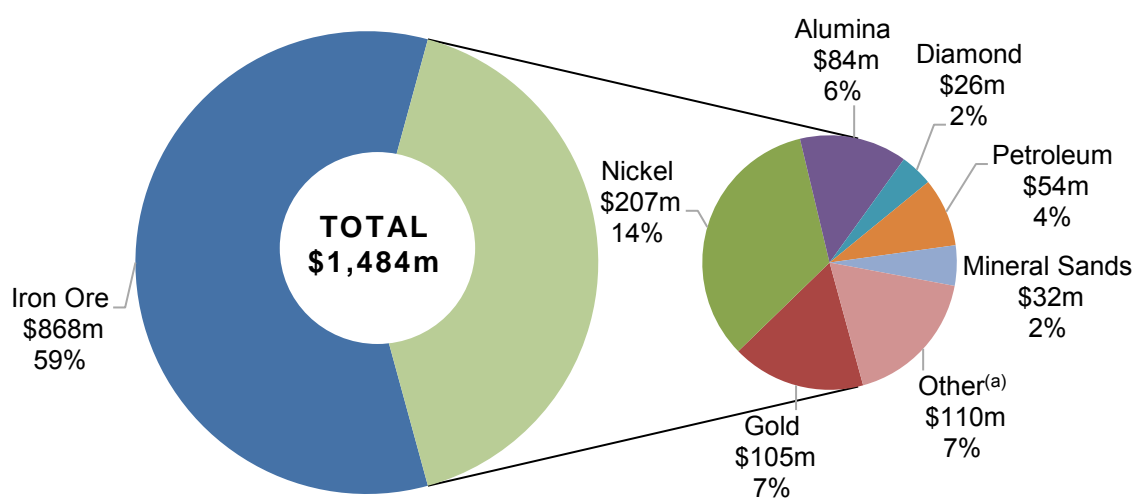

### 2016-17 ROYALTIES COLLECTION<sup>(a)</sup>

(a) Based on 2016-17 Annual Report on State Finances.

(b) Includes zinc, lead, copper and other minerals.

### 2006-07 ROYALTIES COLLECTION

(a) Includes zinc, lead, copper and other minerals.

## **Changes in the Royalties Mix**

The most significant change in the royalties mix over the period is the growth in the share of iron ore royalties which increased from 59% to 89% of the total royalties collected. The increase is due largely to the significant increases in the value of iron ore production from about 2005, through a combination of increasing production volumes and iron ore prices.

The royalty share of nickel declined significantly between 2006-07 and 2016-17, from 14% to 1%, while the share of gold and alumina declined from a combined 13% of total royalty collections in 2006-07 to only 7% in 2016-17. Royalties for all other specified minerals declined in both nominal terms, and in the share of total royalties collected over the period.
