The stumpage schedule under Timber Sharefarming Agreements shall be in accordance with the table below. Prices are per cubic meter or per tonne in accordance with the relevant contracts of sale and are exclusive of GST.

The schedule below may be varied from time to time due to the changes to sales arrangements or significant cost adjustments, any such adjustment will be notified as soon as reasonably practicable.

Where the schedule does not make provision for products or operations, stumpage will be calculated according to the following formula:
sale price less cost of production less cartage (less roading and inforest cost where applicable).
