To whom it may concern

Acknowledging that population growth is one of the greatest drivers of climate change and that immigration is really a Federal issue, the State Government could resist allowing Perth to be classified as a regional area in regards to placement of prospective migrants.

Increase subsidies for apprenticeship in required trades.

Close Collie coal mining now. Offer substantial redundancy/retraining/reskilling courses that would lead to jobs in the renewable industries.

Support energy production from wave/tidal power & hydrogen ruction.
