

## Response ID ANON-4EM2-EKBT-X

Submitted to **Native vegetation issues paper**

Submitted on **2020-02-10 11:54:26**

### Your details

#### 1 What is your name?

**Name:**

Duncan Gardner

#### 2 Can we publish your response?

Yes, you may publish my response in full

#### 3 What is your email address? (optional)

**Email:**

[REDACTED]

#### 4 What is your postcode? (optional)

**Postcode:**

[REDACTED]

#### 5 Do your views officially represent those of an organisation?

No, these are my personal views

**If yes, please specify the name of your organisation.:**

#### 6 Which of the following best describes the group or person you represent?

Private citizen

**If other, please specify.:**

#### 7 Which of the following best describes the sector you represent?

Not applicable (private citizen)

**If other, please specify.:**

#### 8 Are there specific parts of your submission that you want to keep confidential?

**If yes, please outline which specific parts of your submission must be kept confidential and explain why. :**

N/A

### A State native vegetation policy

#### 9 Referring to the proposed policy objective statements below, how well do you support each one in guiding our development of a policy?

**Objective 1 matrix - Objective 1:**

Supported

**Please explain in the text box below.:**

The outcomes do not deserve equal balance.

Environment is paramount.

Economic is low priority.

**Objective 2 matrix - Objective 2:**

Strongly supported

**Please explain in the text box below.:**

**Objective 3 matrix - Objective 3:**

Strongly supported

**Please explain in the text box below.:**

**10 What opportunities are presented by the development of a State Native Vegetation Policy focused on how government manages vegetation?**

**Please provide your answer in the text box below.:**

To work towards a mature policy wherein there is no further clearing for any reason, and there is rehabilitation of cleared land.

### **Better information**

**11 How do you use native vegetation data within your sector? (Choose as many options as you require)**

To plan for conservation

**If you have chosen 'other', please specify:**

**12 Which of the following elements of better information provision would be most relevant to your sector? (Choose as many options as you require)**

Evidence-base for decisions

**If you have chosen 'other', please specify:**

**13 What other opportunities are presented by improved information and improved access to information?**

**Please provide your answer in the text box below.:**

N/A

### **Better regulation**

**14 Which of the following elements of better regulation would be most important to your sector? (Please rank your top three)**

**Rank better reg elements - Improved protection for native vegetation:**

1

**Rank better reg elements - Ensuring development is sustainable:**

3

**Rank better reg elements - Streamlined regulation for cost saving:**

**Rank better reg elements - Clearer requirements for business certainty:**

**Rank better reg elements - Improved assessment timeframes:**

**Rank better reg elements - Transparent, evidence-based decisions:**

**Rank better reg elements - Improved compliance and enforcement of unauthorised clearing:**

2

**Rank better reg elements - Equitable treatment of all proponents:**

**Rank better reg elements - Confidence in the regulatory system for all stakeholders:**

**Rank better reg elements - Other:**

**If you selected Other, please provide further information.:**

**15 What other opportunities are presented by better regulation?**

**Please provide your answer in the text box below.:**

N/A

### **A bioregional approach**

**16 Which of the following elements are the most important to you/your sector? (Please rank your top three)**

**Rank bioregional elements - 1. Transparent outcomes and objectives:**

1

**Rank bioregional elements - 2. Leveraging local knowledge:**

**Rank bioregional elements - 3. Strategic and innovative approach to conflicting interests:**

Rank bioregional elements - 4. Clear targets and thresholds:

Rank bioregional elements - 5. Planned approach to dealing with cumulative impacts:

2

Rank bioregional elements - 6. Effective monitoring and evaluation framework:

Rank bioregional elements - 7. Supporting public-private partnerships for conservation:

3

Please explain in the text box below.:

17 What other opportunities are presented by a bioregional approach?

Please explain in the text box below.:

N/A

18 What concerns are presented by a bioregional approach, for your sector?

Please explain in the text box below.:

N/A

## Other initiatives

19 What initiatives do you think would work best to improve native vegetation outcomes in your region?

Nature-based or cultural tourism

Please explain in the text box below.:

Although Nature based tourism can be good, there is a danger that it does more harm than good. Some areas need to be preserved with no increased visitation, due to the impact of people and spread of disease, eg dieback.

Nature based tourism should never be used as an excuse for commercialisation, it should never involve damaging the environment with carparks, roads, and so-called eco retreats.

20 What else could be done to improve the management of native vegetation to arrest the decline of native vegetation extent and condition?

Please provide your answer in the text box below.:

More awareness of just how valuable it is, how little is left. A concerted effort to preserve what remains for the future, not to continue to consume it as a resource.

## Upload a document

21 If you would like to upload a document to support your submission, please upload it here.
