

## Response ID ANON-4EM2-EKWX-Q

Submitted to **Native vegetation issues paper**

Submitted on **2020-02-10 09:23:49**

### Your details

#### 1 What is your name?

**Name:**

malcolm french

#### 2 Can we publish your response?

Yes, you may publish my response in full

#### 3 What is your email address? (optional)

**Email:**

[REDACTED]

#### 4 What is your postcode? (optional)

**Postcode:**

[REDACTED]

#### 5 Do your views officially represent those of an organisation?

No, these are my personal views

**If yes, please specify the name of your organisation.:**

#### 6 Which of the following best describes the group or person you represent?

Private citizen

**If other, please specify.:**

#### 7 Which of the following best describes the sector you represent?

Agriculture / Pastoral

**If other, please specify.:**

And Environment

#### 8 Are there specific parts of your submission that you want to keep confidential?

**If yes, please outline which specific parts of your submission must be kept confidential and explain why. :**

NO

### A State native vegetation policy

#### 9 Referring to the proposed policy objective statements below, how well do you support each one in guiding our development of a policy?

**Objective 1 matrix - Objective 1:**

Strongly supported

**Please explain in the text box below.:**

Needs balance

**Objective 2 matrix - Objective 2:**

Strongly supported

**Please explain in the text box below.:**

Of course

**Objective 3 matrix - Objective 3:**

Strongly supported

Please explain in the text box below.:

of course

**10 What opportunities are presented by the development of a State Native Vegetation Policy focused on how government manages vegetation?**

Please provide your answer in the text box below.:

Many with huge cost savings

## Better information

**11 How do you use native vegetation data within your sector? (Choose as many options as you require)**

To plan for restoration

If you have chosen 'other', please specify:

**12 Which of the following elements of better information provision would be most relevant to your sector? (Choose as many options as you require)**

Evidence-base for decisions

If you have chosen 'other', please specify:

**13 What other opportunities are presented by improved information and improved access to information?**

Please provide your answer in the text box below.:

Many

## Better regulation

**14 Which of the following elements of better regulation would be most important to your sector? (Please rank your top three)**

Rank better reg elements - Improved protection for native vegetation:

1

Rank better reg elements - Ensuring development is sustainable:

Rank better reg elements - Streamlined regulation for cost saving:

Rank better reg elements - Clearer requirements for business certainty:

Rank better reg elements - Improved assessment timeframes:

Rank better reg elements - Transparent, evidence-based decisions:

Rank better reg elements - Improved compliance and enforcement of unauthorised clearing:

Rank better reg elements - Equitable treatment of all proponents:

Rank better reg elements - Confidence in the regulatory system for all stakeholders:

2

Rank better reg elements - Other:

3

If you selected Other, please provide further information.:

Its fine for a farmer to remove a tree that is impeding his production, however one tree removal should result in 1000 trees be planted by the same farmer that year. 2 trees removed, they plant 2000. There is plenty of room utilizing the right species.

**15 What other opportunities are presented by better regulation?**

Please provide your answer in the text box below.:

You need the Shires to take responsibility, legislate same and they'll soon take notice once they know and understand their responsibility. They'll yell with costs etc, but once implemented there wont be and save the State a lot or perhaps the State fund for start up.

## A bioregional approach

**16 Which of the following elements are the most important to you/your sector? (Please rank your top three)**

Rank bioregional elements - 1. Transparent outcomes and objectives:

2

Rank bioregional elements - 2. Leveraging local knowledge:

Rank bioregional elements - 3. Strategic and innovative approach to conflicting interests:

Rank bioregional elements - 4. Clear targets and thresholds:

Rank bioregional elements - 5. Planned approach to dealing with cumulative impacts:

Rank bioregional elements - 6. Effective monitoring and evaluation framework:

3

Rank bioregional elements - 7. Supporting public-private partnerships for conservation:

1

Please explain in the text box below.:

Certain to get more done effectively in partnerships

17 What other opportunities are presented by a bioregional approach?

Please explain in the text box below.:

Many.

18 What concerns are presented by a bioregional approach, for your sector?

Please explain in the text box below.:

Unknown at this point

## Other initiatives

19 What initiatives do you think would work best to improve native vegetation outcomes in your region?

Pricing, incentives and markets (e.g. biodiversity banking, offsets, carbon farming etc), Pastoral diversification, Private land management

Please explain in the text box below.:

Self explanatory

20 What else could be done to improve the management of native vegetation to arrest the decline of native vegetation extent and condition?

Please provide your answer in the text box below.:

There is not enough room here as the management of WA's NO one asset, its flora is currently below zero.

All you need to do to get things back on track is to come up with a ONE pager. With skill and strength, a one pager setting out commitments that Will deliver desired outcomes for all.
