

# Limit Advice Requirements

WRIG feedback changes

# Material changes

- None

# Other changes

- New AEMO introduction template
  - Consistent use of
    - “paragraph” for intra-Procedure references
    - “clause” for WEM Rule references
- Editorial changes

# Major feedback

- Paragraph 3.2 may give rise to ambiguity around accountability between AEMO and Network Operator (NO)
  - The roles are clearly defined in the WEM Rules
  - Specifying the format of the Limit Advice does not shift the responsibility
  - Does not interfere with NO's responsibility or ability to develop suitable Limit Equations.
