Minor prior criminal history; no prior sentences of imp. Completed yr 10. Qualified plumber. Partner of 3 yrs; first child born 5 mths prior to sentencing. History of alcohol abuse; heavily intoxicated at time offending; gambling addiction; resulting in financial distress; suffers anxiety and depression. 	 1 x Agg burglary. The female victim was aged 74 yrs and lived alone. At about 3.00 am Robson was outside the victim's home shouting he wanted to gain entry. The victim refused to allow him inside. Robson gained entry to the house by smashing a window. In terror, the victim ran out of her home and sought help from neighbours. He then ransacked her bedroom and stole jewellery and \$700 cash. Robson was identified by DNA from blood he left inside the victim's home. The stolen items were found and returned to the victim. The \$700 cash was never recovered. 	2 yrs 3 mths imp. EFP. The sentencing judge found the burglary was unplanned and not especially sophisticated; it was committed at a time when the appellant would have known, at some stage, someone was present in the home. The sentencing judge found after the appellant's confrontation with the victim, causing her to flee her home in terror, he continued with the burglary; ransacking her bedroom and stealing items of value to the victim, albeit not necessarily of the greatest value seen in	Dismissed. Appeal concerned length of sentence. At [23] The appellant's offending was a serious example of an agg home burglary.
