About us

At Datacom, we believe our purpose is to help our customers and communities navigate the complexity of this every-changing world we live in, by connecting people and technology, and solving their greatest challenges. With more than 50 years' experience in technology, we have grown to be one of Australasia's leading locally owned technology company.

We design, build and run IT systems and process for business. We support existing legacy IT systems and processes, and we custom-design brand new ones. We work with our customers to build and operate sustainable solutions by exploring their current state, clarifying their future potential and solving their most pressing problems. Our breadth of advisory and technical skills provides deep expertise in technology platforms to our customers, provided by our 200 tech partners.
