**Additional Information:** Small business

## About us

Tango was formed in 2019 as a re-branding of part of the services of the independent technology consulting practice that has been a core part of DSBS since 2003. They have a proud track record of delivering independent consulting services to companies across all sectors, government and the NFP sector in WA, across Australia and even further afield.

The Tango business model is to help customers define what they want, procure the best solution and deliver their business benefits. We also provide ongoing, independent expert advice about technology and how to manage it effectively.

It is important to us that the business side of an organisation can partner well with their technology and a bit like a tango... It's not easy to do.

We provide independent information technology advice to help define the real need, procure the best solution and deliver the business benefits.

We De-risk your technology decisions by allowing you to decide from a position of knowledge and strength.

Our Define services includes developing a roadmap, defining your detailed requirements and build a business case to get funding.

Our Procure services include identifying what the market has to offer, evaluating the best vendors to deliver the solution and Negotiating the best deal.

Our Deliver services including planning an implementation, project management of the delivery and measuring the business benefits.
