Postal Address: 67 Howe St, Osborne Park WA 6017

Orders Via: Email (preferred)

Hours: 9.00am to 3.00pm Monday to Friday

Additional Information: Small business

About us

Wileo is a WA owned and run business founded in 2014, with experience in Project Management, Engineering Management, and ICT Consultancy.

Since founding Wileo in 2014, we've seen the challenges in sourcing technical and engineering expertise. As the world evolves, things become more complicated, systems more complex and fields expand, sourcing specialised engineering capabilities becomes central to innovation.

We are working with experienced consultants, based in Perth, and we also have a wide network of consultants, experts in their fields, based in other states or overseas. This helps Wileo stay agile, quickly find the best resource for the job, but also think outside the box and develop innovative and sustainable solutions for the benefit of our clients.

Skills, experience and services

Wileo has a strong team of professionals located in WA to service Public sector clients. We specialised in strategic consulting, project management and engineering services in various ICT fields including:

- Communication systems (e.g. transition from analogue to digital, Wi-Fi to LTE),
- Business systems (e.g. digital transformation, migration to the Cloud, security systems upgrade),
- Railway systems (e.g. train control and Infrastructure, driver assist systems, passenger information displays),
- Operational technologies (e.g. remote terminal units, PLC's/SCADA) and
- Energy systems (e.g. renewable/distributed energy resources monitoring and control, energy-efficient (smart) buildings).

Our team is strong of internationally recognised certifications such as PMP, CPPM, PRINCE2 and tertiary degrees including Master's and PhD. We have been involved in complex and large ICT/infrastructure projects for diverse entities including government agencies such as:

- The Public Transport Authority,
- Department of Health,
- Department of Biodiversity, Conservation and Attractions,
- Department of Fire and Emergency Services.

We provide services such as:

- ICT business analysis, consulting and advising,
- ICT Project Investment Plans and Business Case development,
- ICT governance,
- Architecture, design and planning of solutions and
- Project Management of ICT projects.

Industry partners or affiliations

To maintain complete independence, we do not have any partner or affiliation
