Address:	L15, 28 The Esplanade, WA 6000.
Date submitted:	17 August 2007

Submission

1. Please provide your views on the proposal, including any objections or suggested revisions.

Griffin agrees that the proposal identifies and rectifies an inconsistency in the Market Rules.

2. Please provide an assessment whether the change will better facilitate the achievement of the Market Objectives.

Generally, the rule change proposal will lead to a better facilitation of market objectives through non-discrimination of generator types and hence more economically efficient generation across the system.

3. Please indicate if the proposed change will have any implications for your organisation (for example changes to your IT or business systems) and any costs involved in implementing these changes.

Costs will be negligible.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed.

Changes can be implemented immediately.
