**Submission**

---

---

**1. Please provide your views on the proposal, including any objections or suggested revisions**

LGP supports the proposed Rule Change on the grounds that it is a logical consequence of the early Rule Change relating to the STEM window and to not implement it would unnecessarily impede the smooth operation of the market.

**2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives**

LGP supports the IMO's contention that the Rule Change supports market objective (a) by promoting the reliable production and supply of electricity and will assist Market Participants to submit Resource Plans for their facilities that are consistent with their obligations in the Bilateral and STEM markets.

---

**3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved**

LGP would incur no organisational costs as a consequence of adopting the change.

---

**4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed**

LGP would be able to implement this Rule Change immediately.

---
