Submission

1. Please provide your views on the proposal, including any objections or suggested revisions

LGP supports the Rule Change proposal and its 'fast tracking' on the grounds that it is of a minor and procedural nature; it is self-evident that if the System Manager has authority to grant an extension for completion of an activity, then compliance with the extension should also be compliant with the Market Rules.

2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives

LGP supports System Management's contention that the proposed Rule Changes are in accordance with the Market Objectives and provide for a more transparent and consistent approach to the compliance of System Management.

3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved

LGP would incur no organisational costs as a consequence of adopting the change.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed

LGP would be able to implement this Rule Change immediately.
