Date submitted:	9 June 2009

## **Submission**

1. Please provide your views on the proposal, including any objections or suggested revisions

LGP supports the Rule Change on the grounds that it improves transparency and facilitates better understanding of market segmentation and evolution. LGP would also welcome the publication of the data since market start.

2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives

LGP agrees with the IMO's contention that the proposed changes support objectives (a) (promote the economically efficient, safe and reliable production and supply of Electricity, (b) (encourage competition among generators and retailers, including by facilitating efficient entry of new competitors); and (c) (avoid discrimination in that market against particular energy options and technologies.

3.	Please indicate if the proposed change will have any implications for your
	organisation, (for example changes to your IT or business systems) and any costs
	involved

LGP would incur no organisational costs as a consequence of adopting the change.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed

LGP would be able to implement this Rule Change immediately.
