Date submitted:	8 February 2011

Submission

1. Please provide your views on the proposal, including any objections or suggested revisions.

Synergy supports Rule Change Proposal RC_2010_21, which acts to ensure that Standing Data that is price-related is not supplied by the IMO to System Management.

In particular, Synergy supports the inclusion of the additional amendment, proposed by both Synergy and Perth Energy and incorporated by the IMO in the Draft Rule Change Report, which provides greater clarity by specifying exactly which elements of the Standing Data in Appendix 1 do not need to be provided to System Management.

2. Please provide an assessment whether the change will better facilitate the achievement of the Market Objectives.

Synergy agrees with the IMO that the Rule Change Proposal is consistent with the Market Objectives.

3. Please indicate if the proposed change will have any implications for your organisation (for example changes to your IT or business systems) and any costs involved in implementing these changes.

Synergy would not require any changes to IT or business systems, nor incur any organisational costs as a consequence of adopting the proposed change.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed.

Synergy would be able to implement this rule change immediately.
