

**PUBLIC NOTICE:
COMMENCEMENT OF THE AMENDING RULES FROM RC_2010_28**

The IMO has decided to reschedule the commencement time and date for the Amending Rules resulting from the Rule Change Proposal: Capacity Credit Cancellation (RC_2010_28). The Amending Rules from RC_2010_28 will now commence in line with the relevant changes to the Electricity Industry (Wholesale Electricity Market) Regulations 2004 (Regulations) at **8:00 AM on 1 July 2012**.

Reason for the change to the commencement time and date

It was previously notified to the market in the Final Rule Change Report for RC_2010_28 that the Amending Rules would commence at 8:00 AM on 1 August 2012, subject to the changes being incorporated into the Regulations to make new clause 4.20.11 a Reviewable Decision.

The applicable changes to the Regulations have now been gazetted and will come into operation at 8:00 AM on 1 July 2012. Subsequently the IMO has determined to reschedule the commencement date and time for the Amending Rules resulting from RC_2010_28.
