| Date submitted: | 2 December 2010 |

Submission

1. Please provide your views on the proposal, including any objections or suggested revisions.

Synergy supports Rule Change Proposal RC_2010_34 which acts to amend, via the Fast Track Rules Change Process, the Market Rules so that System Management submits Commissioning Test information by 7.30 am for the Trading Day following the current Scheduling Day. This will enable Market Participants to use the information in making their Short Term Energy Market (STEM) bids.

2. Please provide an assessment whether the change will better facilitate the achievement of the Market Objectives.

Synergy believes that the Rule Change Proposal will allow the Market Rules to better address Market Objective (a) *to promote the economically efficient, safe and reliable production and supply of electricity and electricity related services in the South West interconnected system.*

3. Please indicate if the proposed change will have any implications for your organisation (for example changes to your IT or business systems) and any costs involved in implementing these changes.

Synergy would not require any changes to IT or business systems, nor incur any organisational costs as a consequence of adopting the proposed change.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed.

Synergy would be able to implement this rule change immediately.
