### Submission

---

---

**1. Please provide your views on the proposal, including any objections or suggested revisions**

Community Electricity supports the Rule Change Proposal on the grounds that it improves the transparency of generation outages and thereby increases Balancing Pricing efficiency and risk management.

---

**2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives**

Community considers that the Rule Changes improve achievement of Market Objectives (a) (to promote the economically efficient, safe and reliable production and supply of electricity) and (d) (to minimise the long-term cost of electricity). We also consider them to be consistent with the other objectives.

---

**3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved**

Not applicable

---

**4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed**

Not applicable
