### Submission

---

---

**1. Please provide your views on the proposal, including any objections or suggested revisions**

Community Electricity supports the Rule Change Proposal on the grounds that it corrects a manifest error that otherwise impairs the reasonable administration of dispatch compliance. We note that the IMO considers that the proposed amendments do not change the intention or the incentives provided by the civil penalties in the Regulations and is working with the Public Utilities Office regarding the required update to the Regulations.

---

**2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives**

Community considers that the Rule Change is required to preserve the integrity of the Market Rules. We support the IMO's contention that the change is consistent with all the Market Objectives.

---

**3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved**

The proposal has no implications for Community.

---

**4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed**

Not applicable
