Submission

1. Please provide your views on the proposal, including any objections or suggested revisions

Community Electricity supports the Rule Change Proposal on the grounds that the several replacements, clarifications and corrections are necessary to maintain the integrity of the Market Rules and maintain it as a practical working document.

We note that the Rule Changes do not of themselves implement the merger between Verve and Synergy and that this is not a forum for assessing the merits of that proposition.

2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives

Community considers that the Rule Changes are consistent with all the Market Objectives.

We support use of the Fast Track process on the grounds that the changes are minor and avoid or correct manifest errors.

3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved

The proposal has no implications for Community.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed

Not applicable
