

To whom it may concern,

I do not agree with the one vote one value agenda after the Premier. The majority of the State revenue comes from the Regions through mining agriculture. The proposed removal/reduction of regional representation as per the Terms of Reference will reduce funding in the regions for keeping the economic transport of the revenue generating produce in the Regions. As has already been previously shown, over representation in the Metro area proves problematic for the longer term viability of revenue production for the State due to increased transport costs.
