

EMERGENCY MANAGEMENT ACT 2005 (WA)

Sections 67, 70 and 72A

NEW ZEALAND EXPOSURE SITE DIRECTIONS

The World Health Organization declared COVID-19 a pandemic on 11 March 2020.

On 15 March 2020, the Minister for Emergency Services declared a state of emergency with effect from 12 am on 16 March 2020 in respect of the pandemic caused by COVID-19 pursuant to section 56 of the *Emergency Management Act 2005* (WA) (**Act**) (**State of Emergency**). The State of Emergency applies to the State of Western Australia.

I, Gary Elmars Dreibergs, Acting Commissioner of Police and State Emergency Coordinator, now give the following directions pursuant to my powers under sections 67, 70 and 72A of the Act.

PREAMBLE

1. The purpose of these directions is to help prevent the importation of COVID-19 into Western Australia following the detection of a positive case of COVID-19 in the New Zealand community and to otherwise limit the spread of COVID-19 in Western Australia.

CITATION

2. These directions may be referred to as the **New Zealand Exposure Site Directions**.

COMMENCEMENT

3. These directions come into effect immediately upon signing.

DIRECTIONS

Requirement for Persons Already in Western Australia to Quarantine Immediately

4. Notwithstanding the Controlled Border for Western Australia Directions, any person other than an **international arrival**, an **affected driver** or a **domestic flight crew member** who:

- (a) **entered** Western Australia prior to the commencement of these directions; and
- (b) prior to entering Western Australia, visited an **exposure site**,

must comply with the **specified quarantine requirements** unless an **authorised officer** directs otherwise.

5. Subject to paragraph 7, if a person falling within paragraph 4 of these directions is, at the time these directions come into effect, already subject to a requirement to undertake a period of self-quarantine in **suitable premises** the person:
- (a) is no longer required to comply with that quarantine requirement; and
 - (b) must instead comply with these directions, including any requirement to quarantine,

provided that, if the period of quarantine imposed by these directions ends at an earlier time than the quarantine requirement that the person is already subject to, these directions must be read as requiring a period of quarantine that ends at the same time as the quarantine requirement that the person is already subject to.

6. Subject to paragraph 7, if a person to whom paragraph 4 applies becomes subject to a requirement to undertake a period of self-quarantine in suitable premises under another direction at any time after they become subject to the requirement in paragraph 4, the person must continue to comply with these directions provided that if the period of self-quarantine imposed by these directions ends at an earlier time than the quarantine requirement that the person is subject to under the other directions, these directions must be read as requiring a period of quarantine that ends at the later time required by those directions.

Example: a person has been at an exposure site in New Zealand and an exposure site in Queensland prior to entering WA. They visited the New Zealand site prior to the Queensland site. These directions and the Queensland Exposure Site Directions each require the person to quarantine for 14 days from the date they last visited an exposure site. The person would have to comply with these directions but the period for which they need to quarantine in suitable premises would be 14 days from the date they last visited the Queensland exposure site.

7. If a person falling within paragraph 4 of these directions is subject to a requirement to quarantine or isolate under either or both of the **relevant directions**, the person must continue to comply with that requirement and immediately upon that requirement coming to an end must comply with the requirements of paragraphs 4, 5 and 6 (as applicable), including any requirement to quarantine.
8. If a person to whom paragraph 4 or 10 of these directions applies was given an oral **direction** at the point of entry to Western Australia by an authorised officer that required

the person to undertake a period of quarantine in suitable premises, the person is no longer required to comply with that oral direction and must comply with these directions instead but nothing in these directions affects the operation of the oral direction prior to these directions coming into effect.

9. If a location was not an exposure site at the time a person entered Western Australia but subsequently becomes an exposure site in accordance with paragraph 41 of these directions, a person who visited that location prior to entering Western Australia must comply with paragraph 4 as if they were a person described in paragraph 4(a) and 4(b) and, for the avoidance of doubt, any reference in these directions to a person to whom paragraph 4 applies includes a reference to a person to whom this paragraph applies.
10. If a person to whom paragraph 4 of these directions applies is a **child**, the **parent** or parents who travelled with the child or into whose care the child is released must, unless otherwise directed, comply with the **specified children requirements** and not with paragraph 4 unless an authorised officer directs otherwise.

Requirement for Persons Travelling to Western Australia to Quarantine Upon Arrival

11. Notwithstanding the Controlled Border for Western Australia Directions, any person other than an international arrival, an affected driver or a domestic flight crew member who:
 - (a) **enters** Western Australia after the commencement of these directions; and
 - (b) in the 14 days prior to entering Western Australia, visited an exposure site,must comply with the **self-quarantine requirements** unless an authorised officer directs otherwise.
12. If a person to whom paragraph 11 applies is a person whose entry into Western Australia is subject to an **outbreak response direction** and the person is required to undertake a period of self-quarantine in suitable premises under those directions, that person must quarantine in accordance with the outbreak response direction, provided that, if the period of quarantine imposed by these directions ends at a later time than the quarantine requirement that the person is subject to under the outbreak response direction, the outbreak response direction must be read as requiring a period of quarantine that ends at the same time as the quarantine requirement that the person would be subject to under these directions.

13. If a person to whom paragraph 11 of these directions applies is a child, the parent or parents who travelled with the child or into whose care the child is released must, unless otherwise directed, comply with the **children requirements** and not with paragraph 11 unless an authorised officer directs otherwise.

Note: The requirements in paragraphs 4 to 13 are in addition to any requirements imposed by the Controlled Border for Western Australia Directions. A person will have to quarantine if required by these directions even if the Controlled Border for Western Australia Directions do not impose such a requirement.

Requirement to Present for Testing Within 48 Hours If Already in Western Australia
