**Date:** Monday, 10 February 2020 2:21:59 PM

---

I want to add my voice to the recommendations by the UBC and urge you to consider them. Specifically, I am concerned that all areas of TEC's and habitat of rare species be declared ESA's and that they are legally protected to prevent their further loss of extent and condition. I also strongly support all further protection of Wetlands in WA.

Frauke Chambers
