

Fish Resources Management Act 1994

**PROHIBITION ON FISHING (MONTEBELLO ISLANDS AND BARROW ISLAND
MARINE PARK) ORDER 2020**

Order No. 8 of 2020

FD 1690/18 [CID 181380]

Made by the Minister under section 43.

1. Citation

This instrument is the *Prohibition on Fishing (Montebello Islands and Barrow Island Marine Park) Order 2020*.

2. Interpretation

In this order –

benthic protection special purpose zone means an area of water described in Schedule 3;

coral means fish of that common name described by the scientific classification opposite that name in Division 5 of Schedule 7 to the regulations;

crab means fish of that common name described by the scientific classification opposite that name in Division 3 of Schedule 7 to the regulations;

handline means a line which, when used for fishing, has one end in constant contact with a boat, or is attached to a fishing rod or reel, or is held in the hand;

line means a handline or troll line;

live rock means the fish of that common name described by the scientific classification opposite that name in Division 5 of Schedule 7 to the regulations;

marine aquarium fish has the same meaning as in the *Marine Aquarium Fish Managed Fishery Management Plan 2018*, excluding coral and live rock;

pearling special purpose zone means an area of water described in Schedule 4;

pointed instrument means a speargun, harpoon, gidgie, Hawaiian sling, or any similar instrument capable of acting as, or launching, a projectile;

recreation zone means an area of water described in Schedule 2;

regulations means the *Fish Resources Management Regulations 1995*;

rock lobster means fish of that common name described by the scientific classification opposite that name in Division 3 of Schedule 7 to the regulations;

sanctuary zone means an area of water described in Schedule 1;

sea cucumber means fish of that common name described by the scientific classification opposite that name in Division 5 of Schedule 7 to the regulations;

DISCLAIMER:

This is not an official version. Although this document has been carefully collated from the relevant issue of the Government Gazette in which the principal notice and any subsequent amendment was published, its accuracy cannot be guaranteed.

Accordingly - (a) no warranty is given that it is free from error or omission nor as to the accuracy of any information in it; and (b) the State of Western Australia and its servants expressly disclaim liability for any act or omission done in reliance on the document or for any consequences of any such act or omission.

specimen shell has the same meaning as in the *Specimen Shell Managed Fishery Management Plan 1995*;

troll line means a handline towed by a boat.

3. Prohibition on fishing in a sanctuary zone

A person must not fish in a sanctuary zone.

4. Prohibition on fishing in a recreation zone

A person must not fish in a recreation zone unless that person is engaging in recreational fishing –

- (a) for crab or rock lobster; or
- (b) by use of a line, throw net or pointed instrument.

5. Prohibition on fishing in a benthic protection special purpose zone

A person must not fish in a benthic protection special purpose zone unless that person is fishing by the use of a troll line.

6. Prohibition on fishing in a pearling special purpose zone

A person must not fish in a pearling special purpose zone unless that person is –

- (a) fishing for a commercial purpose for sea cucumber, specimen shell or marine aquarium fish; or
- (b) fishing from a charter vessel; or
- (c) engaging in recreational fishing for crab or rock lobster; or
- (d) engaging in recreational fishing by the use of a line, throw net or pointed instrument.

7. Revocation

The following orders are revoked:

- (a) Prohibition on Commercial Fishing (Barrow Island Marine Park and Montebello Islands Marine Park) Order 2008, Order No. 1 of 2008, published in the *Government Gazette* of 29 November 2011; and
- (b) Prohibition on Recreational Fishing (Barrow Island Marine Park and Montebello Islands Marine Park) Order 2008, Order No. 3 of 2008, published in the *Government Gazette* of 29 November 2011.

**Schedule 1
Sanctuary Zones**

DISCLAIMER:

This is not an official version. Although this document has been carefully collated from the relevant issue of the Government Gazette in which the principal notice and any subsequent amendment was published, its accuracy cannot be guaranteed.

Accordingly - (a) no warranty is given that it is free from error or omission nor as to the accuracy of any information in it; and (b) the State of Western Australia and its servants expressly disclaim liability for any act or omission done in reliance on the document or for any consequences of any such act or omission.

Northern Montebellos Sanctuary Area

All waters bounded by a line commencing at a point at 20° 18.80' south latitude and 115° 29.70' east longitude; then extending due east along the parallel to a point at 20° 18.80' south latitude and 115° 32.85' east longitude; then extending due south along the meridian to a point at 20° 22.35' south latitude and 115° 32.85' east longitude; then extending due west along the parallel towards a point at 20° 22.35' south latitude and 115° 32.827' east longitude (on Pansy Island) until its intersection with the high water mark; then generally northerly, westerly and then southerly along the high water mark on the northern side of Pansy Island until its intersection with the parallel between a point at 20° 22.50' south latitude and 115° 32.645' east longitude (on Pansy Island) and a point at 20° 22.50' south latitude and 115° 32.359' east longitude; then extending due west along the parallel to a point at 20° 22.50' south latitude and 115° 32.359' east longitude; then extending due north along the meridian to a point at 20° 22.44' south latitude and 115° 32.359' east longitude; then extending north-westerly along the geodesic to a point at 20° 22.058' south latitude and 115° 31.757' east longitude; then extending westerly along the geodesic to a point at 20° 22.088' south latitude and 115° 31.533' east longitude; then extending south-westerly along the geodesic to a point at 20° 22.433' south latitude and 115° 31.321' east longitude; then extending south-easterly along the geodesic to a point at 20° 22.50' south latitude and 115° 31.556' east longitude; then extending due west along the parallel towards a point at 20° 22.50' south latitude and 115° 31.186' east longitude (on Primrose Island) until its intersection with the high water mark; then generally northerly, westerly and then southerly along the high water mark on the northern side of Primrose Island to its intersection with the parallel between a point at 20° 22.50' south latitude and 115° 31.08' east longitude (on Primrose Island) and a point at 20° 22.50' south latitude and 115° 27.30' east longitude; then extending due west along the parallel to a point at 20° 22.50' south latitude and 115° 27.30' east longitude; then extending due north along the meridian to a point at 20° 21.50' south latitude and 115° 27.30' east longitude; then extending north-easterly along the geodesic to the commencement point.

Southern Montebellos Sanctuary Area

All waters bounded by a line commencing at a point at 20° 26' south latitude and 115° 26.30' east longitude; then extending due east along the parallel towards a point at 20° 26' south latitude and 115° 30.09' east longitude (on Brooke Island) until its intersection with the high water mark; then generally south-easterly along the high water mark on the western side of Brooke Island until its intersection with the geodesic between a point at 20° 26.145' south latitude and 115° 30.146' east longitude (at the southern extremity of Brooke Island) and a point at 20° 26.371' south latitude and 115° 30.531' east longitude; then extending south-easterly along the geodesic towards a point at 20° 26.371' south latitude and 115° 30.531' east longitude (on Santalum Island) until its intersection with the high water mark; then generally south-easterly along the high water mark on the southern side of Santalum Island until its intersection with the geodesic between a point at 20° 26.377' south latitude and 115° 30.545' east longitude (at the southern extremity of Santalum Island) and a point at 20° 26.474' south latitude and 115° 30.803' east longitude; then extending south-easterly along the geodesic towards a point at 20° 26.474' south latitude and 115° 30.803' east longitude (on Hovea Island) until its intersection with the high water mark; then generally south-easterly along the high water mark on the southern side of Hovea Island until its intersection with the geodesic between a point at 20° 26.493' south latitude and 115° 30.837' east longitude (at the southern extremity

DISCLAIMER:

Accordingly - (a) no warranty is given that it is free from error or omission nor as to the accuracy of any information in it; and (b) the State of Western Australia and its servants expressly disclaim liability for any act or omission done in reliance on the document or for any consequences of any such act or omission.

south latitude and 115° 32.53' east longitude (on Renewal Island) until its intersection with the high water mark; then generally south-easterly, northerly and then south-westerly along the high water mark on the southern, eastern and then western side of Renewal Island until its intersection with the parallel between a point at 20° 27.70' south latitude and 115° 32.86' east longitude (on Renewal Island) and a point at 20° 27.70' south latitude and 115° 32.68' east longitude; then extending due west along the parallel towards a point at 20° 27.70' south latitude and 115° 32.68' east longitude (on Hermite Island) until its intersection with the high water mark; then generally northerly along the high water mark on the eastern side of Hermite Island until its intersection with the geodesic between a point at 20° 27.022' south latitude and 115° 32.603' east longitude (on Hermite Island) and 20° 26.813' south latitude and 115° 32.873' east longitude; then extending north-easterly along the geodesic towards a point at 20° 26.813' south latitude and 115° 32.873' east longitude (on Delta Island) until its intersection with the high water mark; then generally northerly along the high water mark on the eastern side of Delta Island until its intersection with the geodesic between a point at 20° 26.065' south latitude and 115° 32.842' east longitude (at the northern extremity of Delta Island) and 20° 26.05' south latitude and 115° 32.847' east longitude; then extending northerly along the geodesic towards a point at 20° 26.05' south latitude and 115° 32.847' east longitude (on Campbell Island) until its intersection with the high water mark; then generally north-easterly along the high water mark on the eastern side of Campbell Island until its intersection with the parallel between a point at 20° 26' south latitude and 115° 32.89' east longitude (on Campbell Island) and a point at 20° 26' south latitude and 115° 36.15' east longitude; then extending due east along the parallel towards a point at 20° 26' south latitude and 115° 36.15' east longitude (on Karangi Island) until its intersection with the high water mark; then generally south-easterly and then northerly along the high water mark on the southern side of Karangi Island until its intersection with the parallel between a point at 20° 26' south latitude and 115° 36.20' east longitude (on Karangi Island) and a point at 20° 26' south latitude and 115° 37.75' east longitude; then extending due east along the parallel to a point at 20° 26' south latitude and 115° 37.75' east longitude; then extending due south along the meridian to a point at 20° 31.50' south latitude and 115° 37.75' east longitude; then extending due west along the parallel to a point at 20° 31.50' south latitude and 115° 35.50' east longitude; then extending due south along the meridian to a point at 20° 33.50' south latitude and 115° 35.50' east longitude; then extending due west along the parallel to a point at 20° 33.50' south latitude and 115° 26.30' east longitude; then extending due north along the meridian to the commencement point.

Willy Nilly Lagoon Sanctuary Area

All waters bounded by a line commencing at the intersection of the high water mark and the parallel between a point at 20° 28.48' south latitude and 115° 31.61' east longitude (on Hermite Island) and a point at 20° 28.48' south latitude and 115° 31.65' east longitude; then extending due east along the parallel towards a point at 20° 28.48' south latitude and 115° 31.73' east longitude (on Hermite Island) until its intersection with the high water mark; then generally northerly, westerly and then southerly around Willy Nilly Lagoon along the high water mark to the commencement point.

Western Barrow Island Sanctuary Area

All waters bounded by a line commencing at the intersection of the low water mark and the geodesic between a point at 20° 44.839' south latitude and 115° 22.646' east longitude (on

Barrow Island) and a point at 20° 43.80' south latitude and 115° 20.952' east longitude; then extending north-westerly along the geodesic to a point at 20° 43.80' south latitude and 115° 20.952' east longitude; then extending due west along the parallel to a point at 20° 43.80' south latitude and 115° 17.60' east longitude; then extending due south along the meridian to a point at 20° 47.25' south latitude and 115° 17.60' east longitude; then extending due east along the parallel towards a point at 20° 47.25' south latitude and 115° 20.46' east longitude (on Barrow Island) until its intersection with the low water mark; then generally north-easterly along the low water mark to the commencement point.

Schedule 2 Recreation Zones

Stephenson Channel Recreation Area

All waters bounded by a line commencing at the intersection of the high water mark and the parallel between a point at 20° 28.48' south latitude and 115° 31.61' east longitude (on Hermite Island) and a point at 20° 28.48' south latitude and 115° 31.65' east longitude; then extending due east along the parallel towards a point at 20° 28.48' south latitude and 115° 31.73' east longitude (on Hermite Island) until its intersection with the high water mark; then extending generally southerly then north-easterly along the high water mark until its intersection with the parallel between a point at 20° 27.70' south latitude and 115° 32.68' east longitude (on Hermite Island) and a point at 20° 27.70' south latitude and 115° 32.86' east longitude; then extending due east along the parallel towards a point at 20° 27.70' south latitude and 115° 32.86' east longitude (on Renewal Island) until its intersection with the high water mark; then generally south-westerly along the high water mark on the western side of Renewal Island until its intersection with the geodesic between a point at 20° 28.445' south latitude and 115° 32.53' east longitude (on Renewal Island) and a point at 20° 28.445' south latitude and 115° 32.51' east longitude; then extending due west along the parallel towards a point at 20° 28.445' south latitude and 115° 32.51' east longitude (on Hermite Island) until its intersection with the high water mark; then generally south-westerly and then northerly along the high water mark to the commencement point.

Southern Montebellos Recreation Area

All waters bounded by a line commencing at the intersection of the high water mark and the geodesic between a point at 20° 30.321' south latitude and 115° 31.197' east longitude (on Hermite Island) and a point at 20° 30.553' south latitude and 115° 31.176' east longitude; then extending southerly along the geodesic towards a point at 20° 30.553' south latitude and 115° 31.176' east longitude (at the western extremity of Drosera Island) until its intersection with the high water mark; then generally southerly along the high water mark on the eastern side of Drosera Island until its intersection with the geodesic between a point at 20° 30.577' south latitude and 115° 31.193' east longitude (on Drosera Island) and a point at 20° 31.125' south latitude and 115° 31.682' east longitude; then extending south-easterly along the geodesic towards a point at 20° 31.125' south latitude and 115° 31.682' east longitude (on Snappy Gum Island) until its intersection with the high water mark; then generally north-westerly then south-easterly along the high water mark on the eastern side of Snappy Gum Island until its intersection with the geodesic between a point at 20° 31.147' south latitude and 115° 31.703'

DISCLAIMER:

Accordingly - (a) no warranty is given that it is free from error or omission nor as to the accuracy of any information in it; and (b) the State of Western Australia and its servants expressly disclaim liability for any act or omission done in reliance on the document or for any consequences of any such act or omission.

east longitude (at the southern extremity of Snappy Gum Island) and a point at 20° 31.656' south latitude and 115° 32.528' east longitude; then extending south-easterly along the geodesic to a point at 20° 31.656' south latitude and 115° 32.528' east longitude (on Ah Chong Island) until its intersection with the high water mark; then generally north-easterly along the high water mark on the western side of Ah Chong Island until its intersection with the geodesic between a point at 20° 31.321' south latitude and 115° 32.835' east longitude (on Ah Chong Island) and 20° 30.018' south latitude and 115° 33.593' east longitude; then extending north-easterly along the geodesic towards a point at 20° 30.018' south latitude and 115° 33.593' east longitude (on the northernmost island of Fig Islands) until its intersection with the high water mark; then generally south-westerly then north-easterly along the high water mark on the western side of the northernmost island of Fig Islands until its intersection with the geodesic between a point at 20° 30.01' south latitude and 115° 33.595' east longitude (on the northernmost island of Fig Islands) and a point at 20° 29.637' south latitude and 115° 33.730' east longitude; then extending north-easterly along the geodesic towards a point at 20° 29.637' south latitude and 115° 33.730' east longitude (on an unnamed island) until its intersection with the high water mark; then generally south-westerly then north-easterly along the high water mark on the southern side of the unnamed island to its intersection with the geodesic between a point at 20° 29.633' south latitude and 115° 33.726' east longitude (at the northern extremity of the unnamed island) and a point at 20° 29.545' south latitude and 115° 32.583' east longitude; then extending westerly along the geodesic towards a point at 20° 29.545' south latitude and 115° 32.583' east longitude (on Ivy Island) until its intersection with the high water mark; then generally south-easterly then north-westerly along the high water mark on the southern side of Ivy Island until its intersection with the geodesic between a point at 20° 29.545' south latitude and 115° 32.567' east longitude (on Ivy Island) and a point at 20° 29.528' south latitude and 115° 32.217' east longitude; then extending westerly along the geodesic towards a point at 20° 29.528' south latitude and 115° 32.217' east longitude (on Hermite Island at Chamberlain Point) until its intersection with the high water mark; then generally south-westerly along the high water mark to the commencement point; but excluding the Claret Bay Special Purpose Area (Pearling).

Schedule 3 Benthic Protection Special Purpose Zone

Northern Montebellos Special Purpose Area (Benthic Protection)

All waters bounded by a line commencing at a point at 20° 18.80' south latitude and 115° 29.70' east longitude; then extending due west along the parallel to a point at 20° 18.80' south latitude and 115° 27.30' east longitude; then extending due south along the meridian to a point at 20° 21.50' south latitude and 115° 27.30' east longitude; then extending north-easterly along the geodesic to the commencement point.

Schedule 4 Pearling Special Purpose Zones

Site A Special Purpose Area (Pearling)
