PART 3 - ZONES AND THE USE OF LAND

3.1 ZONES

3.1.1 The Scheme area is classified into the zones shown on the Scheme Map.

3.1.2 The zones are delineated and depicted on the Scheme Map according to the legend on the Scheme Map.

3.2 OBJECTIVES OF THE ZONES

The objectives of the zones are -

Residential zone

The objectives are;

- To provide for predominantly residential development with a variety of housing to meet the needs of different household types through the application of the Residential Design Codes of Western Australia.
- Non-residential uses shall be compatible in character, scale and operation with the predominant residential use.
- A non-residential use shall only be permitted if the use does not detract from the amenity of the area.

Commercial zone

The objectives are;

- To maintain a compact and accessible centre.
- To centralise commercial and service functions.
- To maintain safety and efficiency of traffic flows and provide for adequate facilities for the storage and circulation of vehicles.
- To preclude the storage of bulky and unsightly goods where they may be in public view.
- To maintain the compatibility with the general streetscape for all new buildings in terms of scale, height, style, materials, street alignment and design of facades.
- To provide sheltered places for pedestrians.
- To reduce uses attracting large volumes of heavy vehicle traffic other than to service retail outlets.
- To provide for residential uses only where the uses are combined with a commercial use, e.g. hotel, or where the residential uses occupy a floor level where it is impracticable or inappropriate to establish a shop or office.

Light Industrial zone

The objectives are;

- To provide for service industries and light industries that will not have a detrimental affect on nearby residential areas.
- To provide for a range of employment opportunities.

Industrial zone

The objectives are;

- To provide for general industry, the storage and distribution of goods and associated uses, which by the nature of their operations should be separated from residential areas.
- To provide a location for diverse industries that would otherwise have a detrimental impact on the other uses in close vicinity.
- To encourage the provision of landscaping to ensure the industrial development is appropriately screened from the main road.
- To provide a location where separate heavy vehicular access is provided.
- To provide a location for depots, warehouses, and large vehicle parking and servicing areas.
- To provide for a range of employment opportunities.

Townsite zone

The objectives are;

- To maintain a small town atmosphere.
- To maintain the status quo of uses within the zone.
- To allow a variety of uses necessary to service the normal functions of a small townsite.
- To provide for residential development and a range of commercial, industrial and other uses considered appropriate in small towns.

Special Use zone

The objectives are;

- To provide an area where special uses can be operated under the specific control of the local government in order to maintain the safety, health and welfare of surrounding users.
- To enable the local government to impose specific conditions to restrict the use and operation of any development that would normally not fit within the ambit of any other zone in this Scheme.

Rural Residential zone

The objectives are;

- To provide for closer settlement on land that is suitable for such a purpose, without impacting on the continued rural operation of adjoining land.
- To provide for development that maintains the rural character of the locality, maintains a high level of amenity and minimises disturbance to the landscape through construction of buildings and structures, clearing, earthworks and access roads.
- To ensure development is compatible with the predominantly rural nature and amenity of the zone.
- To allow for cluster subdivision and other innovative rural residential designs, having consideration for conservation values.
- To ensure that rural residential areas are within easy access to community facilities and services.
- To encourage the provision of vegetation and fauna corridors and the revegetation of the land to adequately protect any areas or sites of conservation value within the design.
- To encourage rural residential subdivision by permitting a range of lot sizes in conventional subdivision.
- To ensure that wherever possible Rural Residential areas use existing local roads or develop road networks independent of the Goomalling-Merredin route. In order to protect the function and safety of the Goomalling-Merredin route these developments should not create additional direct access to the route.

Rural zone

The objectives are;

- To provide for a range of rural pursuits that are compatible with the capability of the land and retain the rural character and amenity of the locality.
- To protect land from urban uses that may jeopardise the future use of that land for other planned purposes that are compatible with the zoning.
- To protect the land from closer development that would detract from the rural character and amenity of the area.
- To prevent any development that may affect the viability of a holding.
- To encourage small scale, low impact tourist accommodation in rural locations.
- To encourage a diversification of rural activities that will reduce the dependency of the rural sector on traditional crops.

The zones are delineated and depicted on the Scheme Map according to the legend thereon.

3.3 TABLE 1 - ZONING TABLE

3.3.1 The Zoning Table indicates, subject to the provisions of the Scheme, the uses permitted in the Scheme area in the various zones. The permissibility of any uses is determined by cross-reference between the list of use classes on the left-hand side of the Zoning Table and the list of zones at the top of the Zoning Table.

3.3.2 The symbols used in the cross-reference in the Zoning Table have the following meanings -

'P' means that the use is permitted by the Scheme providing the use complies with the relevant development standards and the requirements of the Scheme;

'D' means that the use is not permitted unless the local government has exercised its discretion by granting development approval;

'A' means that the use is not permitted unless the local government has exercised its discretion by granting development approval after giving special notice in accordance with Clause 64 of the deemed provisions;

AMD 1 GG 01/08/17

'X' means a use that is not permitted by the Scheme.

3.3.3 A change in the use of land from one use to another is permitted if —

(a) the local government has exercised its discretion by granting development approval;

(b) the change is to a use which is designated with the symbol 'P' in the cross reference to that zone in the Zoning Table and the proposed use complies with all the relevant development standards and any requirements of the Scheme;

(c) the change is an extension of a use within the boundary of the lot which does not change the predominant use of the lot; or

(d) the change is to an incidental use that does not change the predominant use of the land.

- Note:
1. The development approval of the local government is required for the development of land in addition to any approval granted for the use of land. In normal circumstances one application is made for both the use and development of land.
 2. The local government will not refuse a 'P' use because of the unsuitability of the use for the zone but may impose conditions on the use of the land to comply with any relevant development standards or requirements of the Scheme, and may refuse or impose conditions on any development of the land.
 3. In considering a 'D' or 'A' use, the local government will have regard to the matters set out in Clause 67 of the deemed provisions. *AMD 1 GG 01/08/17*
 4. The local government must refuse to approve any 'X' use of land. Approval to an 'X' use of land may only proceed by way of an amendment to the Scheme.

3.4 INTERPRETATION OF THE ZONING TABLE

3.4.1 Where a specific use is mentioned in the Zoning Table, it is deemed to be excluded from the general terms used to describe any other use.

3.4.2 If a person proposes to carry out on land any use that is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the type, class or genus of activity of any other use category the local government may -

- (a) determine that the use is consistent with the objectives of the particular zone and is therefore permitted;
- (b) determine that the use may be consistent with the objectives of the particular zone and thereafter follow the advertising procedures of Clause 64 of the deemed provisions in considering an application for development approval; or
AMD 1 GG 01/08/17
- (c) determine that the use is not consistent with the objectives of the particular zone and is therefore not permitted.

3.5 ADDITIONAL USES

Despite anything contained in the Zoning Table, the land specified in Schedule 2 may be used for the specific use or uses that are listed in addition to any uses permissible in the zone in which the land is situated subject to the conditions set out in Schedule 2 with respect to that land.

Note: An additional use is a land use that is permitted on a specific portion of land in addition to the uses already permissible in that zone that applies to the land.

3.6 RESTRICTED USES

Despite anything contained in the Zoning Table, the land specified in Schedule 3 may only be used for the specific use or uses that are listed and subject to the conditions set out in Schedule 3 with respect to that land.

Note: A restricted use is the only use or uses that is permitted on a specific portion of land and other uses that would otherwise be permissible in the zone are not permitted.

3.7 SPECIAL USE ZONES

3.7.1 Special use zones are set out in Schedule 4.

3.7.2 A person must not use any land, or any structure or buildings on land, in a special use zone except for the purpose set out against that land in Schedule 4 and subject to compliance with any conditions set out in Schedule 4 with respect to that land.

Note: Special use zones apply to special categories of land use which do not comfortably sit within any other zone in the Scheme.

3.8 NON-CONFORMING USES

Except as otherwise provided in the Scheme, no provision of the Scheme is to be taken to prevent -

- (a) the continued use of any land for the purpose for which it was being lawfully used immediately prior to the Gazettal date;
- (b) the carrying out of any development on that land for which, immediately prior to the Gazettal date, an approval or approvals, lawfully required to authorise the development to be carried out, were duly obtained and are current; or

- (c) subject to Clause 80 of the deemed provisions, the continued display of advertisements which were lawfully erected, placed or displayed prior to the Gazettal date. *AMD 1 GG 01/08/17*

Note: "Land" has the same meaning as in the Planning and Development Act and includes houses, buildings and other works and structures.

3.9 EXTENSIONS AND CHANGES TO A NON-CONFORMING USE

3.9.1 A person must not -

- (a) alter or extend a non-conforming use;
- (b) erect, alter or extend a building used in conjunction with or in furtherance of a non-conforming use; or
- (c) change the use of land from a non-conforming use to another non-conforming use,

without first having applied for and obtained development approval under the Scheme.

3.9.2 An application for development approval under this clause is to be advertised in accordance with Clause 64 of the deemed provisions. *AMD 1 GG 01/08/17*

3.9.3 Where an application is for a change of use from an existing non-conforming use to another non-conforming use, the local government is not to grant its development approval unless the proposed use is less detrimental to the amenity of the locality than the existing non-conforming use and is, in the opinion of the local government, closer to the intended purpose of the zone.

3.10 DISCONTINUANCE OF NON-CONFORMING USE

Where a non-conforming use of any land has been discontinued for a period of 6 months the land must not be used after that period otherwise than in conformity with the provisions of the Scheme.

3.11 TERMINATION OF A NON-CONFORMING USE

The local government may effect the discontinuance of a non-conforming use by the purchase of the land, or by the payment of compensation to the owner or occupier or to both the owner and occupier of that land, and may enter into an agreement with the owner for that purpose.

Note: Sections 190 and 191 of the Planning and Development Act enables the local government to purchase, or, with the consent of the Governor, compulsorily acquire land for the purpose of a local planning scheme, subject to Part 9 of the *Land Administration Act 1997*, that section and the Scheme.

3.12 DESTRUCTION OF NON-CONFORMING USE BUILDINGS
