

Horizon Power

Delivering power across regional and remote WA

6
regional offices servicing
Kalumburu to Esperance

38
power systems

42
towns and
communities
receiving
power

8,356
kilometres of
power lines

46,880
customers

Putting the regions first

\$75 million
of regional and remote economic
recovery projects underway

\$13.37 million
spent on regional suppliers in FY20/21

\$5.8 million
worth of contracts awarded to
Aboriginal businesses since 1 July 2018

Working with Aboriginal communities

2 Remote community solar farms in Kimberley communities with an additional five in planning for the future

4 Solar Incentive Scheme co-funded projects reducing use of diesel and producing up to 50 per cent of power using solar

11 Master Meter projects installing 83 prepayment meters and upgrading power systems

13 Embedded Networks regularisation projects providing reliable, safer power for the future

53 Regularised Aboriginal communities providing Aboriginal people the same level of safe, reliable electricity services as non-Aboriginal customers
