Department of **Jobs, Tourism, Science and Innovation**

2022 Applicant Information Pack

Research

Scientist of the Year

HBF Mid-Career Scientist of the Year

Woodside Early Career Scientist of the Year

ExxonMobil Student Scientist of the Year

Applications close: 10:00AM (AWST) on Tuesday 26 April 2022

Applications must be submitted online at <https://psa.grantplatform.com> by 10:00AM (AWST) on Tuesday 26 April 2022

Late applications or changes to applications will not be accepted after the advertised closing date and time.

Introduction

The Premier's Science Awards (Science Awards) recognise and celebrate the achievements of the Western Australian science community. Award recipients exemplify the outstanding scientific research, science engagement and study efforts taking place in the State.

For the purposes of the Premier's Science Awards, the term 'science' encompasses applied and pure science and includes engineering, new technologies and mathematics. Applications for any category can include achievement in any of these disciplines.

The 2022 Premier's Science Awards program is a proud initiative of the Western Australian government. It is sponsored by Chevron, ExxonMobil, HBF, Shell and Woodside, and supported by Curtin University, Edith Cowan University, Murdoch University, The University of Notre Dame Australia, The University of Western Australia, CSIRO, Pawsey Supercomputing Centre, Telethon Kids Institute and the Western Australian Museum

In 2022, there are six competitively-assessed categories across scientific research, science engagement and study. This document outlines the requirements for applicants in the **research categories** of:

Scientist of the Year: \$50,000	Awarded to a world class scientist who has demonstrated excellence in a field of science, scientific research or technological advancement and has been active in the field particularly in the past ten years .
HBF Mid-Career Scientist of the Year: \$10,000	Awarded to an outstanding scientist who has completed their highest degree between five and fifteen years ago , and has demonstrated excellence in a field of science, scientific research or technological advancement.
Woodside Early Career Scientist of the Year: \$10,000	Awarded to an outstanding scientist who has completed their highest degree in the past five years and demonstrated excellence in a field of science, scientific research or technological advancement.
ExxonMobil Student Scientist of the Year: \$10,000	Awarded to an outstanding postgraduate student who has demonstrated a commitment to science at an early stage and shows great promise in reaching the highest levels of excellence.

Application Process

The selection of the award recipients is a competitive process given the high calibre of all candidates. The comparability of the applications is therefore critical to the selection of winners. The applicant must meet the required format and the information requirements that have been established for their application to be considered by the judging panel. An application not complying with the requirements will be considered ineligible.

Applications must be submitted online by visiting the link <https://psa.grantplatform.com>. **The applicant must ensure that the: documentation is submitted; required format is followed; and word limits are observed.**

The documentation required for all research categories is:

1. Completed online application – *Research*
2. *Endorsement Form – Research*
3. Curriculum Vitae of a maximum of four (4) pages, including details of relevant publications, grants and industry collaboration
4. Certified copy of testamur (for HBF Mid-Career Scientist of the Year and Woodside Early Career Scientist of the Year category only).

For further information contact the Project Officer, STEM Strategy and Coordination, Department of Jobs, Tourism, Science and Innovation by email at science@jtsi.wa.gov.au or by phone on 08 6277 2844.

Step 1: Eligibility

The applicant must complete the online application process for the one of the *Research* categories and complete the applicant declaration confirming their eligibility to apply.

Eligibility to apply to any of the Science Awards categories is limited to Australian citizens and those who hold permanent resident status in Australia. If an applicant is chosen as a finalist they will be required to provide evidence of citizenship or residency.

Previous applicants are eligible to apply, however applications should not be a resubmission from a previous year. Applicants can only apply for the same category for up to two consecutive years, and are required to take a one year gap before re-applying thereafter. Please ensure your application is current and reflects any changes to guidelines or evaluation criteria.

Past winners of any Science Award category are automatically ineligible for that category or its 2022 equivalent, but may apply for other categories if eligible.

Specific Eligibility Criteria

The applicant must also meet the specific eligibility criteria for the category to which an application is submitted.

Scientist of the Year

The applicant must:

- demonstrate excellence in a field of science, scientific research or technological advancement and have been active in the field particularly in the past 10 years; and
- be currently residing in and conducting research in Western Australia and have been residing in and conducting research in Western Australia for at least five years.

HBF Mid-Career Scientist of the Year

The applicant must:

- be currently conducting research in Western Australia and have conducted post graduate research in Western Australia for at least three years in total;
- have completed their highest degree between **five and fifteen years ago** (unless other circumstances have been cited)*; and
- have not been awarded the Woodside Early Career Scientist of the year award in the last five years

*To be eligible in 2022, the date of the applicant's testamur must be on or between 26 April 2007 and 26 April 2017. If an applicant's testamur is dated before 26 April 2007, the applicant must outline the circumstances that explain why their achievements were realised over a longer period of time; family responsibilities or industry employment in a non-research role are considered acceptable circumstances (see Relative Opportunity Criteria below for further information).

Woodside Early Career Scientist of the Year

The applicant must:

- be currently conducting research in Western Australia and have conducted post graduate research in Western Australia for at least 24 months in total; and
- have completed their highest degree in the last **five years** (unless other circumstances have been cited)**.

**To be eligible in 2022, the date of the applicant's testamur must be on or later than 26 April 2017. If an applicant's testamur is dated before 26 April 2017, the applicant must outline the circumstances that explain why their achievements were realised over a longer period of time; family responsibilities or industry employment in a non-research role are considered acceptable circumstances (see Relative Opportunity Criteria below for further information).

ExxonMobil Student Scientist of the Year

The applicant must be a current student*** undertaking postgraduate studies in science, technology, engineering or mathematics at a Western Australian university.

***To be regarded as a current student, an applicant must have not submitted their thesis for examination before the application closing date (26 April 2022).

All eligibility time periods are as at the application closing date 26 April 2022.

Relative Opportunity Criteria

The Department of Jobs, Tourism, Science and Innovation (JTSI) is committed to ensuring that all eligible researchers and students, from universities and the wider research sector including industry, have a fair and equitable opportunity to compete in the Premier's Science Awards (the Awards). JTSI recognises that diverse circumstances can affect research opportunity and aims to facilitate equitable access to the Awards for eligible researchers and students. The Awards application documents include extended eligibility timeframes for researchers and students who have experienced significant career interruptions. Applicants can submit responses to the relative opportunity and performance evidence (ROPE) criterion which enables the judging panel to consider a researcher or student's activities, outputs and achievements in the context of opportunity and experience.

To be eligible for the HBF Mid-Career Scientist of the Year and Woodside Early Career Scientist of the Year awards in 2022, the applicant's testamur must be dated as per the requirements outlined in the *Specific Eligibility Criteria* (see above), or have a conferral date together with allowable periods of career interruption that would be commensurate with being awarded their highest degree within the eligible period for that award.

For the Scientist of the Year and ExxonMobil Student Scientist of the Year awards, the judging panel will consider the applicant's activities, outputs and achievements in the context of opportunity and experience.

The applicant must outline the circumstances that explain why their achievements were realised over a longer period of time. The list below details examples of career interruptions that would be considered.

- Disruption due to international relocation;
- Carer's responsibilities;
- Illness or disability;
- Maternity or parental leave;
- Unemployment;
- Part-time study or employment;
- Non-research employment not concurrent with research employment such as time spent in industry;
- Being the primary carer of a dependent child (inclusive of carer's responsibilities and any maternity or parental leave); or
- Other special circumstances similar to those listed above.

Step 2: Application Endorsement

The applicant should obtain endorsement for their application through the *Endorsement Form – Research*.

The endorser confirms that the application is true and correct and that it is supported by the applicant's management. The endorser should have knowledge of the applicant's achievements and be able to provide expert opinions regarding the applicant's work in scientific research. An individual can endorse multiple applicants for the same category. The following table provides guidance on who can endorse an application:

Category	Endorser
Scientist of the Year, HBF Mid-Career Scientist of the Year and Woodside Early Career Scientist of the Year	Supervisor or manager within the applicant's organisation (e.g. CEO, Head of Research Group); or their institution's research office
ExxonMobil Student Scientist of the Year	The supervisor or manager directly supervising the student's work; or their institution's research office

We encourage applicants to inform their research office prior to submitting an application.

Step 3: Evaluation Criteria

The applicant is required to complete the Evaluation Criteria *within the online form*, providing a maximum 600 word response for each of the four evaluation criteria. Claims and impact should be justified and supported by clearly verifiable quantitative and qualitative evidence. Unsubstantiated or unverifiable statements will not be considered during the selection process. All sections of the form should be completed in detail.

Eligible applications will be evaluated and ranked against the **equally-weighted criteria** of:

1. *excellence*
2. *impact*
3. *leadership and collaboration*
4. *ambassadorship*.

The applicant should ensure that they:

- provide responses to the criteria that are coherent, well-structured and written in plain English
- prepare an application that is current and reflects any changes to guidelines or evaluation criteria
- avoid repetition and asks someone to proof the application before submitting
- avoid jargon and defines necessary technical language and abbreviations
- support claims with quantitative and qualitative evidence/data
- make it clear what is attributable to their effort versus what is attributable to their team or colleagues
- avoid including webpages and links to audio files as judges may only review hard copies of your application documents
- allow adequate time to prepare the application, as late submissions will not be accepted.

Step 4: Submission Documentation

The applicant should collate the relevant required documentation and submit their application to <https://psa.grantplatform.com> by 10:00AM (AWST) on Tuesday 26 April 2022.

Any materials other than those requested will not be provided to the judging panel and will therefore not be considered in the evaluation process.

The format for the required documentation for all research categories is:

1. Completed, and electronically submitted, online application for the one of the *Research* categories.
2. Completed and signed *Endorsement Form – Research* (PDF scan); Curriculum Vitae (CV) of a **maximum of four (4) pages**, including details of publications, grants and industry collaboration relevant to the application, in single spaced Arial 11pt font (Word/ PDF).

In addition to the above documentation an applicant in the HBF Mid-Career Scientist of the Year and Woodside Early Career Scientist of the Year should also attach:

3. A certified copy of their testamur as evidence that they have completed their highest degree within the eligible dates (see above table for dates; unless other circumstances have been cited). More information on how to certify documents can be found on the [Justice](#) website.

Naming Conventions

All documents must be clearly titled with the applicant's name, followed by the document name e.g.:

JaneSmithEndorsement.pdf
JaneSmithCV.doc

Separate forms apply for applicants in the Engagement Initiative and Aboriginal STEM Student award categories. Please ensure you use the correct forms for your chosen award category when applying.

General Information

The applicant should read the following information before completing their application.

Decision Making Process

Applications will be evaluated by a Premier's Science Awards judging panel. Evaluation of applications will be based on the application's alignment with the evaluation criteria.

The judging panel reserve the right to request additional evidence to support claims against the evaluation criteria to assist it in making its decision. The judging panel may also seek advice from individuals with expertise in the area under consideration, to assist with evaluation.

The judges' recommendations are final. The deliberations of the judging panel and all related information and material will be kept strictly confidential, subject to the requirements of the *Freedom of Information Act 1992*. The judging panel reserves the right not to recommend a winner or finalist for a particular category.

Successful and unsuccessful applicants will be notified by an electronic letter.

Freedom of Information

Applicants are informed that the Department of Jobs, Tourism, Science and Innovation is subject to the *Freedom of Information Act 1992*, which provides a general right of access to records held by Western Australian State and Local Government agencies.

Further information on the operation of the Freedom of Information (FOI) Act can be obtained from the [Department of Jobs, Tourism, Science and Innovation](#) or by contacting the department's FOI Coordinator at foi@jtsi.wa.gov.au.

Use of Application Materials

All materials provided are accepted on the understanding that the Department of Jobs, Tourism, Science and Innovation will only use or disclose such material:

- in the process of determining the recommended winner and finalists for a category
- for the purposes of informing the public about the award outcomes
- in any publicity concerning the Science Awards
- in any publicity concerning the promotion of science
- in other instances where information collected may be disclosed without consent, where authorised or required by law.

All award-related information, material provided, and material created by the Department of Jobs, Tourism, Science and Innovation through the Science Awards program, such as media statements, interviews, videos and photographs remain the property of the Department of Jobs, Tourism, Science and Innovation.

Please note that upon submission of your application through the online platform, your institution's research office will automatically receive an email informing them of your name and the award category that you have applied for. No further information will be provided to them by the Department.

Tax Information

In some instances, the Australian Taxation Office views prize money as assessable income. An award recipient is advised to discuss any potential taxation implications with their financial advisor, or the Australian Taxation Office (13 28 61).

Obligations of Award Recipients

Award recipients of the Premier's Science Awards are expected to participate in public engagements promoting science to the wider community.

The Department will actively coordinate the participation of the 2022 award recipients by facilitating links with existing science engagement opportunities and scheduled National Science Week activities. The department may also invite finalists to participate in science engagement opportunities.

The Department encourages award winners to promote their success through newsletters, websites, tweets and by other means. The department will provide information to support award winners in these promotions. Recipients are required to acknowledge sponsors when mentioning the award. Contact the Department of Jobs, Tourism, Science and Innovation to discuss the use of logos and other material.

In the event award recipients are contacted by the media, advice should be sought from the Department of Jobs, Tourism, Science and Innovation prior to interviews. Information provided to the media must appropriately acknowledge your category sponsors and the date the award was granted. The Department of Jobs, Tourism, Science and Innovation strongly encourages all award recipients to seek advice prior to speaking to members of the media.

The Department will contact the 2022 award recipients to discuss the proposed activities following the awards ceremony.
