What type of regulatory issue would you like to improve?

Time consuming processes

Describe the regulatory issue that has prompted your submission.

outdated boomer luddite system that involves cheques, paper documents that have to be scanned into a glorified email system. Numerous websites and information silo's for data and compliance all of which runs on internet explorer.

Have you dealt with a WA Government department on this issue? If yes, which one?

Department of Mines, Industry Regulation and Safety

How could we fix this issue? Describe your ideas.

get rid of paper and bureaucracy, make the process digital and make it flow, no more random forms with stupid names

Who would benefit from these improvements and how?

everyone, less civil servants and lower compliance equals lower costs. reduce fiefdoms and increase productivity which will actually create value

Do you have any other comments related to this matter?

the DMIRS emits systems claims to be online, but it is not digital. It is a cumbersome beast of silo's
