

Information Sheet

Celebrating success

One effective way of engaging your membership and strengthening your Early Years Network is to celebrate successes. Not all successes are big, completion successes. It is often worthwhile to celebrate progress and small achievements.

Some of the ways you can celebrate success are:

- starting your meetings by asking members to identify something that has gone well in the community since the last meeting
- celebrating new services
- holding social or networking events.
- holding events marking occasions such as Harmony Week, Families Week and Children's Week.
- promoting positive outcomes on social media
- sharing stories with the Early Years Network team
- allocating time in the agenda to talk about outcomes and/or progress
- acknowledging contributions from members
- having a newsletter to inform local stakeholders about the progress and work of the Early Years Network.
