# STRATEGIC PRIORITIES

**“It is vital that we continue to plan for and deliver initiatives that help to grow and diversify our regional economies.”**

Throughout 2020-21, the Trust has maintained a focus on the effective operation of the entities within the Portfolio. Considerable work has been undertaken to establish a consistent approach to planning across the Portfolio that aligns to the Regional Development Strategic Themes. It is expected that this will support more effective engagement with central Government agencies and other key stakeholders and deliver better outcomes for regional Western Australia.

## Regional Development Strategic Themes

**Theme 1:** Grow\* existing, and find and develop new, non-renewable-resource and related industries

**Theme 2:** Grow\* existing, and find and develop new, alternative industries

**Theme 3:** Normalise regional living standards

**Theme 4:** Increase the economic participation of Aboriginal people

**Theme 5:** Organisational excellence

\* *Grow in this context means:*

- *Extend temporally*
- *Expand spatially*
- *Go downstream and/or*
- *Leverage economically*

Central to this work has been the development of a sound evidence base to support informed decision-making in consultation with our key stakeholders to plan for a strong, diverse, and inclusive economy.

In that regard, over the past twelve months the Trust has directed its attention to the following priorities:

- Building capability within the Portfolio
- The need for economic diversification and resilience
- Progressing the economic complexity agenda
- Royalties for Regions Fund governance and regional issues

In 2021-22 the Trust will be working with the Regional Development Portfolio and central Government agencies to explore opportunities and address constraints for economic growth and diversification in regional WA.
