

Environmental Protection Act 1986

*Environmental Protection (Western Power Transmission Substation
Noise Emissions) Approval 2005*

*as amended under regulation 17(9) Environmental Protection (Western
Power Transmission Substation Noise Emissions) Approval Amendment
2012**

Made by the Minister under regulation 17(7) of the *Environmental Protection (Noise) Regulations 1997* after receiving a report from the Authority for the purposes of the regulation.

1. Citation

This approval is the *Environmental Protection (Western Power Transmission Substation Noise Emissions) Approval 2005*.

2. Commencement

This approval comes into operation on the day on which it is published in the *Gazette*.

3. Duration of approval

- (1) This approval ceases to operate on 31 December 2019 unless it continues under subclause (2).
- (2) If Western Power applies before 1 July 2019 for a further approval under regulation 17 in relation to transformer noise, then this approval continues to operate until the Minister either grants or refuses to grant the further approval.

4. Interpretation

- (1) In this approval, unless the contrary intention appears — **“assigned level”** has a meaning affected by subclause (2); **“building”** has the meaning given to that term in regulation 8(1);

“LA 10 assigned level” means a level of noise which, measured as a LA Slow value, is not to be exceeded for more than 10% of the representative assessment period;

“noise-sensitive premises” has a meaning affected by subclause (3);

“regulation” means a regulation of the *Environmental Protection (Noise) Regulations 1997*;

“representative assessment period” means a period of 3 hours;

“transformer noise” means noise emitted, by the electrical power transformers or by the cooling equipment associated with electrical power transformers or both, from a transmission substation at a location specified in column 2 of an item in the Table in Schedule 1 or 2;

“Western Power” means the *Electricity Networks Corporation established by the Electricity Corporations Act 2005 section 4(1)(b) and operating under the trading name of Western Power*.*

- (2) For the purposes of this approval, the Act and the regulations (except regulation 8) apply to transformer noise as if —
 - (a) the reference in regulation 7(1)(a) to the assigned level were a reference to the LA 10 assigned level determined under clause 6(2); and
 - (b) the following were deleted from regulation 7(1)(a) — “ , or significantly contribute to, ”.
- (3) In this approval, a reference to “noise-sensitive premises” is to be read as a reference to noise-sensitive premises at locations within 15 metres of a building directly associated with a noise-sensitive use.

[*Clause 4 amended in Gazette 17 July 2012 p. 3275]

5. Grant of approval

Approval is granted to Western Power to allow transformer noise received at noise-sensitive premises to cause a level of noise that exceeds an assigned level determined under regulation 8(2).

6. L_{A10} assigned levels

- (1) The L_{A10} assigned level for transformer noise when received at noise-sensitive premises is to be determined by reference to subclause (2) instead of by reference to the Table to regulation 8(2).
- (2) The L_{A10} assigned level for transformer noise emitted from a transmission substation at a location specified in column 2 of an item in the Table in Schedule 1 or 2 (whichever applies under subclause (3)), when received at noise-sensitive premises at a time of day during the period specified in the heading to column 3 or 4 of the Table, is the L_{A10} assigned level specified in column 3 or 4 of the item respectively.

-
- (3) For the purposes of subclause (2) —
- (a) the Table in Schedule 1 applies during the period beginning on the commencement of this approval and ending on *30 June 2017**; and
 - (b) the Table in Schedule 2 applies on and after *1 July 2017**.

[*Clause 6 amended in Gazette 17 July 2012 p. 3276]

7. Annual reports

- (1) This approval is granted subject to the condition that Western Power prepare a written report —
 - (a) for the period beginning on the day on which *the Minister makes the Environmental Protection (Western Power Transmission Substation Noise Emissions) Approval Amendment 2012 and ending on 31 December 2012**; and
 - (b) for each of the 12 month periods beginning on 1 January 2013, 2014, 2015, 2016 and 2017*.
- (2) The report for a period must contain the following information for each transmission substation —
 - (a) if levels of transformer noise are recorded during the period, a summary of recorded levels;
 - (b) particulars of any measure that is taken by Western Power during the period to reduce the level of transformer noise received at noise-sensitive premises, including an assessment of the effectiveness of that measure;
 - (c) particulars of any action taken by Western Power during the period to inform occupiers of noise-sensitive premises about measures it has taken, or intends to take, to reduce transformer noise;
 - (d) particulars of any complaint, about transformer noise, by an occupier of noise-sensitive premises, that is referred to Western Power during the period, and particulars of Western Power's response to that complaint.
- (3) Western Power must give the report for a period to the CEO within 30 days after the end of the period, or within a greater number of days specified by the CEO.

[*Clause 7 amended in Gazette 17 July 2012 p. 3276]
