Good Morning,

As a single person living on my own, I find these bags handy for my weekly rubbish, which I don't have a lot of. To use a big black plastic bag would be wasteful as to be able to keep it inside for 4 plus weeks wouldn't be ideal if meat scraps were put in it. Whilst I understand there are some people who do not dispose of them properly, there are a lot of people like myself who use them for rubbish bags, so having them stopped would be a big inconvenience for us.

Regards

Kevin Hays
