

Non-Indigenous Plant Species Diversification Permit Application Where can I find help?

Department of Planning, Lands and Heritage

The Department can help you with requirements for completing your application, the application process and advising the outcome of your application. The Department will initially review your application and direct it to the appropriate Land Management team which will assess your application and work with you during the application process. The Department will liaise with relevant State Government agencies, and the Pastoral Lands Board, regarding your application.

You should contact the Pastoral Lands Board if you require advice in relation to its policy on the [Cultivation of Non-Indigenous Plant Species on a Pastoral Lease](#) and associated templates, or have queries on pastoral purposes and the [Pastoral Purposes Framework](#).

DPLH – application / general queries	Email	proposals@dplh.wa.gov.au
	Telephone	08 6551 8002
DPLH – <ul style="list-style-type: none">pastoral land and leasesDiversification permits	Website	www.dplh.wa.gov.au/information-and-services/pastoral-land Pastoral leases for other uses (www.wa.gov.au)
Pastoral Lands Board	Email	plb@plb.wa.gov.au
	Website	http://www.dplh.wa.gov.au/plb

Department of Primary Industries and Regional Development

The Department's website provides Information regarding:

- the legal status of organisms ([Western Australian Organism List](#))
- the Environmental Weed Risk Assessment Protocols and Weed Risk Assessment ratings undertaken to date ([Environmental Weed Risk Assessment](#)).

If you require advice on your permit application or biosecurity plan, email agribusiness@dpird.wa.gov.au and request assistance. Or contact your regional DPIRD office for advice on the types of plants you wish to cultivate on your pastoral lease and the best location on your lease for the diversification permit.

Esperance	PMB 50 Meljilup Road Esperance WA 6450	08 9083 1111

DPIRD's Pest and Disease Information Service (PaDIS) provides advisory and identification services on animal and plant pests, weeds and diseases that impact Western Australia's agriculture and food industries. If the species you are interested in is not listed on the Western Australian Organism List, you may request to have it assessed. Contact PaDIS by email at padis@dpird.wa.gov.au for advice.

Department of Water and Environmental Regulation

The Department will assist you with applications for any native vegetation clearing permits and water licensing requirements that may be required for your diversification permit.
