2. Occurrences of Inflexibility

- 2.1.1. Subject to paragraph 2.1.7, if clause 7.6.31 applies to a Market Participant for any future Dispatch Interval, that Market Participant must immediately amend its Real-Time Market Submission to inform AEMO of the Inflexibility [**clause 7.6.31(a)**], and provide the following details to AEMO:
 - (a) the Registered Facility and Dispatch Interval when the Registered Facility is Inflexible;
 - (b) when the Market Participant first became aware of the Inflexibility;
 - (c) the physical, operational or other reason for the Inflexibility which is able to be independently verified; and

- 2.1.2. AEMO will publish on the WEM Website an email address to receive additional information under paragraph 2.1.3. if required.

- 2.1.4. Following receipt of an amended Real-time Market Submission (and Explanatory Email, if applicable) from a Market Participant under paragraph 2.1.1, AEMO may request further information from that Market Participant about why the Registered Facility is Inflexible and will state, in that request, the date and time by which the Market Participant must provide the further information.
- 2.1.5. A Market Participant must respond to any request for further information from AEMO, under paragraph 2.1.4 by the date and time specified in the request, unless otherwise agreed with AEMO.
- 2.1.6. For the purposes of paragraph 2.1.1(c), examples of the types of information a Market Participant may provide to enable the Inflexibility to be independently verified include:
 - (a) a detailed report explaining the sequence of events that led to the Inflexibility;
 - (b) documentation or correspondence from the manufacturers, maintainers, or operators of the relevant equipment;
