Unless otherwise identified on Plan 2 'The Local Structure Plan' the residential density to apply to this precinct is R20.

### **Objectives**

To promote residential development whilst allowing for rural uses and development if it is considered that such uses will not compromise the intention to develop the precinct for residential purposes in the medium and longer term.

In assessing a rural use application within this precinct, consideration will be given to:

- a) referring the applicants to areas set aside for General Rural under the scheme;
- b) imposing a time limit on the period for which the approved development may be carried out and the preparation and execution of a legal agreement, at the landowner/s expense, between the landowner/s and Council to the effect; and/or
- c) refusing the application if it is considered likely to prejudice the future planned use of the land;
- d) proximity of urban development to the subject land;

- b) All buildings are to be contained within nominated Building Envelopes of a maximum size of 1,000 square metres with minimum front setbacks of 20 metres and minimum side and rear setbacks of 10 metres, the location of which shall be generally in accordance with the Streetscape Concept Plan (Plan 3);

The balance of the fence to be constructed on top of the brick/masonry section may be constructed by the subdivider but, if it is not, must be constructed when a dwelling is first built on the lot.
- h) The owners of the land within the Special Residential Precinct shall comply with any Revegetation Plan for the Precinct approved by the City prior to any of the lots within the Precinct being sold, unless another alternative satisfactory to the City is agreed.
