

NOTICE OF AMENDMENT OF LICENCE REPORTING REQUIREMENTS SECTION 59(2), SECTION 59(1)(a) AND 59(1)(b) ENVIRONMENTAL PROTECTION ACT 1986 LICENSED PRESCRIBED PREMISES

The Department of Water and Environmental Regulation (DWER), in accordance with **sections 59(2), 59(1)(a) and 59(1)(b)** of the *Environmental Protection Act 1986*, gives you notice that one or more of your licences has been amended as follows:

- Licences detailed in schedule 1 below are amended to remove the requirement to submit an Annual Environmental Report (AER)
- Licences detailed in schedule 2 below are amended to reduce the frequency of environmental reporting from annual to biennial.

NOTICE OF AMENDMENTS –LICENCES - Schedule 1

This notice is given in accordance with **sections 59(2), 59(1)(a) and 59(1)(b)** of the *Environmental Protection Act 1986* that the licences listed in Schedule 1 (attached) are hereby amended as follows:

- all conditions requiring the submission of an annual report or annual reports (i.e. the submission of an annual environmental report, annual monitoring report, annual audit compliance report or similar report that is required to be submitted on an annual basis containing information relating to the Premises recorded during the previous annual period) are replaced with the condition requiring the submission of only an Annual Audit Compliance Report (AACR); and
- the definitions of the terms listed in Table 1 are added to the existing licence or replace the existing definition for that term where applicable.

New condition to be applied to licences listed in Schedule 1 to replace existing conditions relating to annual reporting requirements:

The licence holder must:

- undertake an audit of their compliance with the conditions of their licence during the preceding annual period; and*
- prepare and submit to the CEO by the date specified in Schedule 1 below an Annual Audit Compliance Report in the approved form.*

Table 1: Definitions

Term	Definition
Approved form	means the Annual Audit Compliance Report (AACR) form template approved by the CEO for use and available via DWER’s external website.
CEO	means Chief Executive Officer of the Department. “submit to / notify the CEO” (or similar), means either: Director General Department administering the <i>Environmental Protection Act 1986</i> Locked Bag 10 Joondalup DC WA 6919 or: info@dwer.wa.gov.au

Condition	a condition to which the licence is subject under section 62 of the <i>Environmental Protection Act 1986</i>
Premises	means the premises to which the licence applies, as specified at the front of the licence

Note: Annual period is the 365-day reporting period, or equivalent, as defined under the current licence.

NOTICE OF AMENDMENTS – LICENCES - Schedule 2

This notice is given in accordance with sections **59(2), 59(1)(a) and 59(1)(b)** of the *Environmental Protection Act 1986* that the licences listed in Schedule 2 are hereby amended to have the new reporting date in accordance with schedule 2 below.

For the purposes of this amendment, the “reporting date” means the date by which the licence holder is required to submit a report which, with the exception of an Annual Audit Compliance Report (AACR) includes, but is not limited to, an annual environmental report, annual monitoring report, groundwater monitoring report or any other report that was previously required to be submitted on an annual basis, containing information relating to the premises recorded during the previous annual period.

Submission of an AACR will continue to be required. The licence holder is required to undertake an annual self-audit of their licence conditions for the previous annual period (or equivalent reporting period as defined in the licence) and submit an AACR each year by the day and month of the reporting date specified in Schedule 2, using the approved form available on DWER’s external website.

EFFECTIVE DATE

These new reporting requirements are effective from Monday, 16 May 2022.

Richard Newman

DIRECTOR INDUSTRY REGULATION

16 May 2022

SCHEDULE 1 – LICENCES

- An AACR due prior to the grant of this amendment notice is still required to be submitted in accordance with previous licence requirements.

SCHEDULE 2 – LICENCES

- Biennial reports (every two years) shall contain information and monitoring data as prescribed in the licence relating to the two previous annual periods.
- An AER or AACR due prior to the grant of this amendment notice is still required to be submitted in accordance with previous licence requirements.

APPENDIX 1 – ADDITIONAL INFORMATION TO THE NOTICE OF AMENDMENT OF LICENCE REPORTING REQUIREMENTS – SECTION 59(2), SECTION 59(1)(a) AND 59(1)(b) ENVIRONMENTAL PROTECTION ACT 1986 LICENSED PRESCRIBED PREMISES

BACKGROUND

Section 62A of the *Environmental Protection Act 1986* (EP Act) prescribes the types of conditions that can be imposed on a licence. Conditions can require the licence holder to provide audit compliance reports, reports on monitoring data, the analysis of the data, reports on audits and studies of specified kinds and provide information on the nature and quantity of wastes and on materials leading to the generation of those wastes.

Existing licences granted under Part V, Division 3 of the EP Act by the Department of Water and Environmental Regulation (DWER) generally required the submission of:

- an Annual Environmental Report (AER) or a similar report containing information on the environmental performance of the premises and/or monitoring data collected during the reporting period and submitted on an annual basis; and
- an Annual Audit Compliance Report (AACR) containing the results of the licence holder's self-audit of compliance with the licence conditions.

The Government of Western Australia has been taking steps to reduce the reporting and administrative burden on licence holders and regulators for low and medium-risk industry licences. This is a Streamline WA initiative. In the Streamline WA program, the Reduced Reporting Burden initiative is a set of key reform projects focussing on improving the information flow between regulators and proponents. By reducing duplicative reporting processes, publishing information online, and applying a risk-based approach when setting conditions, the initiative encourages proponents to achieve good performance and provides regulators with more time to focus on high-risk matters.

CHANGE TO REPORTING CONDITIONS

In accordance with sections 59(1)(a) and 59(1)(b) of the EP Act, the Chief Executive Officer (CEO) may amend a licence to vary the conditions of a licence or subject the licence to new conditions. Having regard for the *Guidance Statement: Regulatory Principles* and *Guidance Statement: Settings Conditions*, the CEO has determined that the licences for licensed prescribed premises shall be amended to reduce reporting requirements as outlined in the above notice.

The CEO considers that the submission of an AACR is an integral component of DWER's compliance management framework and therefore the requirement for annual submission will remain on all licences.

With this amendment, DWER is reducing the reporting burden by either removing the requirement to submit an AER, where reports do not contain any monitoring data, or by reducing the frequency of reporting. The focus for environmental reporting moving forward will be on the provision of environmental product quality or discharge monitoring data at a frequency that is proportionate to the environmental and public health risk associated with the licensed activity.
