^ Community size

- “Very small” means a very small remote/homelands Aboriginal settlement with less than five houses; or less than 30 people; or not permanently occupied.
- “Small” means a small remote/homelands Aboriginal community of between 5 and 39 houses (indicative population estimate of 30 to 199 people).
- “Large” means a large remote/homelands Aboriginal community of between 40 and 200 houses (indicative population estimate of more than 200 people).
- “Town-based” means an Aboriginal community that is located on a land reserve that is within or proximate to a gazetted town.

Rental housing - Department does not own this housing and is the lessor (landlord) for the purposes of the *Residential Tenancies Act 1987* only.

- Housing managed by Department of Communities under a Housing Management Agreement (HMA) made with relevant Aboriginal corporation/community under the *Housing Act 1980*.

- ▼ **Water supply** Water Corporation service since 1 July 2023, by Department of Communities prior to that date other than for community marked with ✓

- ✓ WC responsible for provision of water to the master meter prior to and after 1 July 2023.

- ✘ **Wastewater services** Water Corporation service since 1 July 2023, by Department of Communities prior to that date. For communities not ticked in this column, there is no wastewater system and wastewater is managed by each property's septic tank. A septic tank is the responsibility of the house owner and/or lessor (landlord).

Electricity services

- ✓ Power services provided by Horizon Power prior to 1 July 2023

- ✓ Power services provided by Horizon Power from 1 July 2023 (by Department of Communities prior to that date)

§ Municipal Services

Local Government Authorities (LGA) generally do not provide municipal services to the Aboriginal communities listed here and which are located within a respective LGA's boundaries. Where services are provided by an LGA, these are very limited.

To fill the gap, the State Government through the Department of Communities funds local and regional Aboriginal corporations to deliver basic quasi-municipal services. These services may include: limited maintenance of internal roads, solid waste management (rubbish), firebreak management, public area cleaning and landscaping and other activities such as support for governance and administration, and non-aviation maintenance of aerodromes (e.g. firebreaks, fences).

- ✓ Household rubbish collection for this community done by LGA. Department of Communities contributes funding for this to the LGA.

- ◆ The Department of Communities funds the operation of a public swimming pool as part of this community's municipal services.

- ◆ This LGA operates one or more public swimming pools at locations other than this community.
