

## Purpose

Transform maritime industries through the ethical application of Robotic and Autonomous Systems and Artificial Intelligence (RAS & AI).

 Enhanced Capabilities

 Maritime Experts

 Customisable

 Works Anywhere

## The Greenroom Platform

- Modular set of software tools
- Analytics, AI, and control software plug-ins
- Rapid applicability to new sectors
- Facilitates cross-domain technology leverage

## Industries and Areas

- Boat builders
- Research organisations
- Government organisations
- Search and rescue
- Commercial fishing

 Fremantle, WA and Sydney, NSW
