Cyber Security Awareness Month
Phishing

Vickie the voyager's phishing facts

1. **Urgency alert:**
   Phishing emails create false urgency; pause and verify the sender's legitimacy.

2. **Unknown sources:**
   Be cautious with unexpected emails. if unsure, then report it to IT.

3. **Personal info requests:**
   Beware of unprompted requests; never share sensitive info via email.

4. **Too good to be true:**
   Remain sceptical of incredible offers. Always do your research.

5. **Inconsistent language:**
   Watch for errors! Legitimate emails maintain professionalism.

6. **Avoid unexpected attachments:**
   If in doubt, contact the sender through other means of communication.

7. **Unprofessional design:**
   Look out for poorly designed emails; spelling and grammar is important in professional emails.
