SAPIEN

Company Description

- Sapien Cyber gives you complete visibility of your **cyber vulnerabilities** and **malicious activities** on your **cyber-physical networks** in the context of the **actual risk** to your **operational capabilities**
- Australian owned and developed

Complete Suite of Cyber Tools

Network visibility, asset monitoring, vulnerability management, threat intelligence and threat management in one integrated cybersecurity suite for Operational Technology

SAPIEN WINGSPAN

- **SAPIEN CONDOR** — Vulnerability Management
- **SAPIEN RAPTOR** — Threat Management
- **SAPIEN INSIGHT** — SOC Service

IDENTIFY   DETECT   PROTECT   RESPOND

Discriminators

- Sapien Wingspan is the only system capable of enabling Cyber Risk in OT environments to be managed in the same way as other Risks to Defence operations such as geo-political events or extreme weather conditions.
- Finds and prioritises vulnerabilities and malicious activities based on capability impact, using the IEC 62443 system-based risk model. High situational awareness = effective incident response.
- Optimises Maintenance activities based on maximising risk reduction (Risk Buydown).

Key Clients

- woodside
- Department of Justice (Government of Western Australia)
- Honeywell
- ECU Edith Cowan University Australia
- Coogee Chemicals

Key Sectors

- Oil and gas
- Defence
- Utilities
- Building management
- Critical infrastructure

Quality Approvals and Awards

- DISP Member

Awards:

WESTERN AUSTRALIA INNOVATOR OF THE YEAR 2021
WOODSIDE OIL AND GAS PLATINUM AWARD WINNER

Finalist:

- InnovationAus Excellence – Cybersecurity
- InnovationAus Excellence – Peoples' Choice

Cyber Risk Buydown

- Measures and monitors changes in risk for critical OT systems over time
- Advanced algorithm advises on optimum risk reduction for a given amount of effort
- Operators can test the effect of specific patches/remediations on overall risk

Risk Reduction 12.9%

Risk 2021, Risk 2022 — System Name: PCN, MK_VI, HV..WE, LV..R, INSTR, HVAC, FIRE, CR..ES, WINCH, PW..EN, VESDA, TU..NE, CCTV, PAGA, DCS, COMMS, FCS, RADAR, PUMPS

Company Name: Sapien Cyber Ltd

P: 1800 378 200   **W:** www.sapiencyber.com.au

Executive Contact: Mark Stevens– CSO

SAPIEN

Finding and prioritising Vulnerabilities and Threats based on the actual risk to your operational capability.
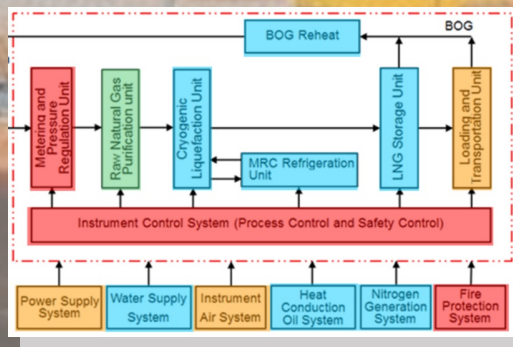

What's your capability edge without fuel ?

Identify and Respond to new vulnerabilities

Monitor network traffic for malicious activity

Identify Vital Systems & their associated Risks

Optimise Maintenance through Risk Buydown

Vulnerability Risk Reduction 12.9%

"Protecting the world we live in"
