3. Terminology

Contracted Program of Study (CPS)

A CPS identifies a contractual arrangement between a Service Provider and the Corporation and includes:

- the funded program;
- the qualification;
- the total number of contracted nominal hours for the qualification;
- the hourly payment rate that the Corporation will pay the Service Provider (for each eligible contracted hour);
- the number of student places*;
- the region (all traineeship CPSs are generated as Metropolitan);
- the date range that students can commence funded training under the CPS (student commencing start and end dates);
- the date that students must complete the training under the CPS (training activity end date); and
- the target group (if relevant).

** Traineeships places are managed by industry area, not individual CPS level to provide flexibility.*

Program Panel

Refers to the program(s) a Service Provider has been appointed too following a formal application. The Panels are listed in Section 1.

Support Services

Service Providers must nominate the Support Services they will provide to the eligible target groups³ under the Participation Equity Program to assist students to overcome barriers to access, participate and complete the requested qualification.

- cultural or language barriers.

It is essential to ensure that students’ barriers are identified at enrolment and the appropriate support services are provided that are relevant to overcoming those barriers to maximise qualification completion rates. Further information on the type of support services that will be considered relevant can be found at Appendix 1.

As part of the evidence requirement for the program, Service Providers are required to maintain a register of students’ barriers and meet the evidence requirements for the individual Support Services are described in Appendix 1.

Please note: The Service Provider must ensure that at least 50% of the students on each CPS are provided with the Support Services listed in the Training Outline (refer to Section 10).

- Successful applications will result in the Service Provider being placed on the panel. The contract commencement date listed for any approved CPS resulting from the application will be the approved date of the application. This will appear as the 'Student commencing start date' in the CPS.
