

Dear BOC Customer,

Nitrogen product range review

Changes to product code 034 from 3 June 2024

We are writing to advise you that we are increasing the purity of our existing Nitrogen High Purity (product code 034) from 99.990% to 99.995%. We are also improving the moisture specification from 10ppm to 8ppm. The description for product code 034 will change from 'Nitrogen High Purity' to 'Nitrogen High Purity/Food'.

The table below summarises these changes.

NEW 034 product specifications Available from 3 June 2024	Existing 034 product specifications Current until 3 June 2024
Nitrogen High Purity/Food	Nitrogen High Purity
Nitrogen \geq 99.995 %	Nitrogen \geq 99.990 %
Oxygen \leq 10 ppm	Oxygen \leq 10 ppm
Moisture \leq 8 ppm	Moisture \leq 10 ppm

Product code 036 discontinued from 3 June 2024

In addition, we are consolidating our product range and from 3 June 2024, 'Nitrogen Food' (product code 036) will no longer be available for purchase. Given that the 036 will no longer be manufactured, a viable alternative is the new 034. Please review the above specifications to check that it meets your requirements.

What does this mean for you?

Affected products are highlighted in the table below. Nitrogen Food (product code 036) products will no longer be supplied from 3 June 2024 and will no longer be available to order. From this date, please order your current package size using the 034 product code, which will be called 'Nitrogen High Purity / Food' and supplied according to the new specifications outlined above.

Your existing 036 cylinders can be used as normal before reordering using the new product code.

Old code	Old description	Volume (m ³)	New code	New description	Applications
036D2	NITROGEN FOOD	1.8 m ³	034D2	NITROGEN HIGH PURITY/FOOD	Food, Scientific

Your pricing

There will be no change to your gas price, agent handling fees, delivery fees, or rental charges.*

What do you need to do?

There will be a change in material codes and/or product descriptions as indicated in the previous product table that must be used when ordering from 3 June 2024. If you use Electronic Data Interchange or other computer-generated ordering systems, please update your system to reflect the change in material codes from 3 June 2024.

If you have any questions, please contact your Account Manager or our Customer Service centre on 131 262.

Yours faithfully,

Aishwarya Padmanabhan
