

EXPLORATION INCENTIVE SCHEME

Tenement owner agreement

If the applicant is not the tenement owner then the approval of the tenement owner is required to accompany the Co-funded Geophysics Program application.

The approval should be on the tenement owner's letterhead and signed by the tenement holder. The following words are an example of what may be used:

"..... (name of tenement holder) is fully aware of the Co-funded Geophysics Program application being submitted by (name of applicant) over tenement.... (tenement number(s) held by name of tenement holder)."

..... (Tenement holder) agrees to the Co-funded Geophysics Program application and the conditions under which a grant may be made, including early release to Open File of information (report and data). It is understood that early release means the release of the information on the co-funded geophysical project three months after the conclusion of the twelve-month Funding Term."

Please attach a copy of the approval letter to the **online application** (as shown below).

Section 4. This section is conditional

Tenement holder agreement
