Director, Wholesale Markets  
Energy Policy WA

By email: [energymarkets@demirs.wa.gov.au](mailto:energymarkets@demirs.wa.gov.au)

Dear Ms Guzeleva,

**Pilbara ISOC's subchapter 10.1 functions – Long-term Coordination and Planning**

Thank you for the opportunity to comment on the Pilbara ISOC's proposed rule change to defer subchapter 10.1 functions related to the long-term coordination and planning of the North West Interconnected System.

APA supports delaying the requirement for the Pilbara ISOC to prepare and publish the Transmission Development Plan and the Pilbara GenSOO on the basis that the information, if published, would not add value in the current environment where Energy Policy WA has announced Pilbara EOI corridors for common-user infrastructure and is consulting on a significant reform package for the Pilbara.

Please contact Lizzie O'Brien on 08 9224 7201 or [lizzie.obrien@apa.com.au](mailto:lizzie.obrien@apa.com.au) should you have any queries on this submission.

Yours sincerely,

**Natalie Lindsay**
